**Hellenism in Late Antiquity** Polymnia Athanassiadi, 2017-07-05 The 21 studies in this volume which deal with issues of social and intellectual history religion and historical methodology explore the ways whereby over the course of a few hundred years roughly between the second and the fifth centuries A D an anthropocentric culture mutated into a theocentric one Rather than underlining the differences between a revamped paganism and the emergent Christian traditions the essays in the volume focus on the processes of osmosis interaction and acculturation which shaped the change in priorities among the newly created textual communities that were spreading across the entire breadth of the late antique oecumene The main issues considered in this connection include the phenomena of textuality and holy scripture canonicity and exclusion truth and error prophecy and tradition authority and challenge faith and salvation holy places and holy men in the context of the construction of new orthodox readings of the Greek philosophical heritage Moreover the volume suggests that intolerant attitudes which form a characteristic trait of monotheisms were not an exclusive preserve of Christianity as the Enlightenment tradition would insist but were progressively espoused by pagan philosophers and divine men as part of the theory and practice of Hellenism s theological koine Efforts to establish the monopoly of a revealed truth against any rival claims were transversal to the textual communities which emerged in late antiquity and remodelled the intellectual and spiritual landscape of the Greater Mediterranean **Octobre 1970** William Tetley, 2011-03-02T00:00:00-05:00 Les mythes

sont persistants surtout lorsqu il s agit de masquer les défaillances de la pensée nationaliste ici comme ailleurs De notre passé la déformation du souvenir de la Crise d octobre en est l exemple le plus patent Les interprétations d un certain leadership indépendantiste font trop souvent foi de vérité sur cet épisode les besoins de la cause ayant dicté depuis quarante ans la mémoire officielle En effet de grands pans de la Crise ont malheureusement été oubliés de la mémoire collective faisant en sorte que les assassins et les partisans de la violence ont été présentés comme des victimes et les défenseurs de l état de droit et de la démocratie comme des oppresseurs Riche de son expérience et d une compilation exhaustive de ce qui s est critiqué et dit

sur le sujet William Tetley professeur de droit international l Université McGill et ministre dans le cabinet Bourassa pendant la Crise réussit à déconstruire les mythes les plus répandus propos de la Crise Octobre 1970 fait ainsi contrepoids au révisionnisme dominant notamment en contestant la théorie selon laquelle le gouvernement n avait pas justifié de mettre en oeuvre la Loi sur les mesures de guerre Il montre aussi que Robert Bourassa était un chef perspicace et réfléchi et que l opposition d une certaine élite intellectuelle la position du gouvernement équivalait un appui de facto au FLQ et au terrorisme **Canadian Periodical Index**, 1998 *History as a Profession* Pim den Boer, 2014-07-14 This is a vivid portrait of the French historical profession in the nineteenth and early twentieth centuries concluding just before the emergence of the famous Annales school of historians It places the profession in its social academic and political context and shows that historians of the period have been unfairly maligned as amateurish and primitive in comparison to their more celebrated successors Pim den Boer begins by sketching the contours of French historiography in the nineteenth century examining the quantity of historical writing its subject matter and who wrote it He traces the growing influence of professional historians He shows the increasing involvement of the national government in historical studies paying special attention to the impact of political factions ranging from ultraroyalists to radical republicans He explores how historical research and teaching changed at schools and universities And he shows how nineteenth century historians keen understanding of the past and of historical methodology laid the foundations for historiography in the twentieth century archives including official documents confidential reports and personal letters Den Boer makes use of statistical biographical and methodological analysis and demonstrates comprehensive knowledge of both minor historians and leading scholars including Charles Seignobos and Charles Victor Langlois Originally published in 1998 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 [Global Labour in the Fourth Industrial Revolution](#) Adrián Sotelo Valencia, 2023-02-27 In this latest work by the prolific Mexican theorist Adrián Sotelo Valencia the COVID 19 pandemic is shown to have merely exacerbated the profound world capitalist crisis rooted in the 1970s structural exhaustion of the third industrial revolution Sotelo explains how the current 4.0 revolution whose articulating axis is the development and expansion of artificial intelligence Big Data algorithms 3D printing the Internet of Things and digital platforms constitutes a global strategy of capital and the state aimed at detaining the global capitalist crisis The Digital Revolution heralds a new international division of labour with severe repercussions for labour especially in dependent countries like Mexico The foreword by Andrés Piqueras of the Universidad Jaume I de Castellón underlines the urgency to heed this insightful analysis **Grand Dictionnaire Universel [du XIXe Siècle] Français: A-Z 1805-76**
