history chronicles the 19th century plan to reintroduce wild bison into Western Montana and the rise of Roosevelt s conservation movement In the late 1800s the rapid depletion of the American bison population prompted calls for the preservation of wildlife and wild lands in North America Following a legendary hunt for the last wild bison in central Montana Dr William Hornady sought to immortalize the West s most iconic species Activists like Theodore Roosevelt rose to the call initiating a restoration plan that seemed almost incomprehensible in that era This thoroughly researched history follows the ambitious project from the first animals bred at the Bronx Zoo to today s National Bison Range Glenn Plumb a former chief wildlife biologist for the National Park Service and Keith Aune the former Wildlife Conservation Society director of bison programs demonstrate how the success of bison repopulation bolstered Roosevelt s broader conservation efforts

*Outdoor America* , 2003      **The North American Model of Wildlife Conservation** Shane P. Mahoney, Valerius Geist, 2019-09-10 The foremost experts on the North American Model of Wildlife Conservation come together to discuss its role in the rescue recovery and future of our wildlife resources At the end of the nineteenth century North America suffered a catastrophic loss of wildlife driven by unbridled resource extraction market hunting and unrelenting subsistence killing This

crisis led powerful political forces in the United States and Canada to collaborate in the hopes of reversing the process not merely halting the extinctions but returning wildlife to abundance While there was great understanding of how to manage wildlife in Europe where wildlife management was an old mature profession Continental methods depended on social values often unacceptable to North Americans Even Canada a loyal colony of England abandoned wildlife management as practiced in the mother country and joined forces with like minded Americans to develop a revolutionary system of wildlife conservation In time and surviving the close scrutiny and hard ongoing debate of open democratic societies this series of conservation practices became known as the North American Model of Wildlife Conservation In this book editors Shane P Mahoney and Valerius Geist both leading authorities on the North American Model bring together their expert colleagues to provide a comprehensive overview of the origins achievements and shortcomings of this highly successful conservation approach This volume reviews the emergence of conservation in late nineteenth early twentieth century North America provides detailed explorations of the Model s institutions principles laws and policies places the Model within ecological cultural and socioeconomic contexts describes the many economic social and cultural benefits of wildlife restoration and management addresses the Model s challenges and limitations while pointing to emerging opportunities for increasing inclusivity and optimizing implementation Studying the North American experience offers insight into how institutionalizing policies and laws while incentivizing citizen engagement can result in a resilient framework for conservation Written for wildlife professionals researchers and students this book explores the factors that helped fashion an enduring conservation system one that has not only rescued recovered and sustainably utilized wildlife for over a century but that has also advanced a significant economic driver and a greater scientific understanding of wildlife ecology Contributors Leonard A Brennan Rosie Cooney James L Cummins Kathryn Frens Valerius Geist James R Heffelfinger David G Hewitt Paul R Krausman Shane P Mahoney John F Organ James Peek William Porter John Sandlos James A Schaefer Montana Outdoors ,2003 **Grinnell: America's Environmental Pioneer and His Restless Drive to Save the West** John Taliaferro,2019-06-04 Winner National Outdoor Book Award History Biography Longlisted PEN Jacqueline Bograd Weld Award for Biography Before Rachel Carson there was George Bird Grinnell the man whose prophetic vision did nothing less than launch American conservation George Bird Grinnell the son of a New York merchant saw a different future for a nation in the thrall of the Industrial Age With railroads scarring virgin lands and the formerly vast buffalo herds decimated the country faced a crossroads Could it pursue Manifest Destiny without destroying its natural bounty and beauty The alarm that Grinnell sounded would spark America s conservation movement Yet today his name has been forgotten an omission that John Taliaferro s commanding biography now sets right with historical care and narrative flair Grinnell was born in Brooklyn in 1849 and grew up on the estate of ornithologist John James Audubon Upon graduation from Yale he dug for dinosaurs on the Great Plains with eminent paleontologist Othniel C Marsh an expedition that fanned his romantic notion of wilderness and taught him a graphic lesson

in evolution and extinction Soon he joined George A Custer in the Black Hills helped to map Yellowstone and scaled the peaks and glaciers that through his labors would become Glacier National Park Along the way he became one of America s most respected ethnologists seasons spent among the Plains Indians produced numerous articles and books including his tour de force *The Cheyenne Indians Their History and Ways of Life* More than a chronicler of natural history and indigenous culture Grinnell became their tenacious advocate He turned the sportsmen s journal *Forest and Stream* into a bully pulpit for wildlife protection forest reserves and national parks In 1886 his distress over the loss of bird species prompted him to found the first Audubon Society Next he and Theodore Roosevelt founded the Boone and Crockett Club to promote fair chase of big game His influence among the rich and the patrician provided leverage for the first federal legislation to protect migratory birds a precedent that ultimately paved the way for the Endangered Species Act And in an era when too many white Americans regarded Native Americans as backwards Grinnell s cries for reform carried from the reservation through the halls of Congress all the way to the White House Drawing on forty thousand pages of Grinnell s correspondence and dozens of his diaries Taliaferro reveals a man whose deeds and high mindedness earned him a lustrous peerage from presidents to chiefs Audubon to Aldo Leopold John Muir to Gifford Pinchot Edward S Curtis to Edward H Harriman Throughout his long life Grinnell was bound by family and sustained by intimate friendships toggling between the East and the West As Taliaferro s enthralling portrait demonstrates it was this tension that wound Grinnell s nearly inexhaustible spring and honed his vision a vision that still guides the imperiled future of our national treasures
