## **Rifts Japan:**

**Rifts Japan** Kevin Siembieda,1995-06      Japan's Contested War Memories Philip A. Seaton,2007-03-12 Japan's Contested War Memories is an important and significant book that explores the struggles within contemporary Japanese society to come to terms with Second World War history Focusing particularly on 1972 onwards the period starts with the normalization of relations with China and the return of Okinawa to Japan in 1972 and ends with the sixtieth anniversary commemorations Analyzing the variety of ways in which the Japanese people narrate contest and interpret the past the book is also a major critique of the way the subject has been treated in much of the English language Philip Seaton concludes that war history in Japan today is more divisive and widely argued over than in any of the other major Second World War combatant nations Providing a sharp contrast to the many orthodox statements about Japanese ignorance amnesia and denial about the war this is an engaging and illuminating study that will appeal to scholars and students of Japanese history politics cultural studies society and memory theory      **Rifts and Sutures of the World** Albany Global Tectonics Group,1978

*Active Margins and Marginal Basins of the Western Pacific* Brian Taylor,James Natland,1995-01-09 Published by the American Geophysical Union as part of the Geophysical Monograph Series Volume 88 This volume focuses on the volcanic fluid sedimentary and tectonic processes occurring in the trencharc backarc systems of the western Pacific a natural regional focus for studies of these themes The results of ocean drilling and associated site surveys in the western Pacific have brought fundamental changes to our understanding of volcanism crustal deformation fluid circulation and sedimentation in active margins and marginal basins Our goal here is to synthesize the results of ocean drilling in a multi disciplinary manner including a comparison of the findings from drilling legs having similar themes and to emphasize the significance of these results to the broader geoscience community      **Japan and the Sino-Soviet Alliance, 1950-1964** C. Braddick,2003-12-09

Japan and the Sino Soviet Alliance 1950 1964 reveals the divisive impact of the Sino Soviet Alliance on Japanese domestic politics and foreign relations during the turbulent years between 1950 and 1964 Drawing on extensive Japanese sources and unprecedented access to previously classified government documents C W Braddick exposes the myths shrouding this formative era in Japan's postwar development      **Political Survival and Yasukuni in Japan's Relations with China** Mong Cheung,2016-06-17 What role does the political survival of prime ministers play in Japan's relations with China over the Yasukuni issue Three Japanese prime ministers including Nakasone Yasuhiro Hashimoto Ryutaro and Abe Shinzo complied with China's demands and stopped visiting the controversial Shrine in 1986 1997 and 2007 respectively By contrast the Yasukuni controversy intensified between 2001 and 2006 when a popular Prime Minister Koizumi Junichiro was determined to pay regular homage to the Yasukuni Shrine annually Prime Minister Abe who previously demonstrated restraint over the issue in his first term between 2006 and 2007 visited the Yasukuni unexpectedly in 2013 but not in 2014 or 2015 To explain this variation this book presents an alternative interpretation of Japan's official responses toward China's

pressure over the Yasukuni issue between 1985 and 2015 by applying a political survival approach that highlights the domestic political legitimacy of the Japanese prime minister or the ruling party This book will be of great interest to students and researchers of Sino Japanese relations Japan s foreign policy and international relations **Japan's Nationalist Right in the Internet Age** Jeffrey J. Hall,2021-04-07 Japan s nationalist right have used the internet to organize offline activism in increasingly visible ways Hall investigates the role of internet mediated activism in Japan s ongoing historical and territorial disputes He explores the emergence of two right wing activist organizations Nihon Bunka Channel Sakura and Ganbare Nippon which have played a significant role in pressure campaigns against Japanese media outlets campaigns to influence historical memorials and campaigns to assert Japan s territorial claim to the Senkaku Diaoyu Islands Taking a multi disciplinary approach he analyses how activists maintained cohesion raised funds held protests that regularly drew hundreds to thousands of participants and used fishing boats to land activists on disputed islands Detailing events that took place between 2004 and 2020 he demonstrates how skilled social actors built cohesive grassroots protest organizations through the creation of shared meaning for their organization and its supporters A valuable read both for scholars seeking insight into the dynamics surrounding Japan s history disputes and territorial issues as well as those seeking to compare Japanese right wing internet activism with its counterparts elsewhere Intraplate Earthquakes Pradeep Talwani,2014-04-24 Intraplate earthquakes occur away from tectonic plate boundaries their locations are difficult to predict risking huge damage and loss of life The 2001 Bhuj earthquake featured in this book was the largest intraplate earthquake for three decades and has provided unique insight into these events This cutting edge book brings together research from international leading experts in the field Each chapter provides a comprehensive review of these earthquakes in a different global location ranging from Australia China India and the Sea of Japan to Western Europe Brazil New Madrid Central USA and Eastern Canada They explore similarities and differences between regional features and the mechanical models required to explain them as well as assessing geophysical techniques used to investigate them Providing the first global overview of intraplate earthquakes this is an essential book for academic researchers and professionals in seismology tectonics tectonophysics geodesy structural geology earthquake dynamics geophysics and structural engineering Nationalism in Asia Jeff Kingston,2016-06-13 Using a comparative interdisciplinary approach Nationalism in Asia analyzes currents of nationalism in five contemporary Asian societies China India Indonesia Japan and South Korea Explores the ways in which nationalism is expressed embraced challenged and resisted in contemporary China India Indonesia Japan and South Korea using a comparative interdisciplinary approach Provides an important trans national and trans regional analysis by looking at five countries that span Northeast Southeast and South Asia Features comparative analysis of identity politics democracy economic policy nation branding sports shared trauma memory and culture wars territorial disputes national security and minorities Offers an accessible thematic narrative written for non specialists including a detailed and up to date bibliography

Gives readers an in depth understanding of the ramifications of nationalism in these countries for the future of Asia

**Tectonics and Geophysics of Continental Rifts** I.B. Ramberg, E.R. Neumann, 2012-12-06 Proceedings of the NATO Advanced Study Institute Oslo Norway July 27 August 5 1977 *Magmatism and Geodynamics* O A Bagatikov, 2020-07-16  
Magmatism is the only true endogenic process for generating new material on the Earth's surface Obviously magmatism and tectonic movements are reflections of geodynamics that is physical processes which occur in deep seated environments What are the interrelationships between magmatism and tectonics How did the character of terrestrial magmatism change through time and are there any irregularities in this process **Future Advances in Basin Modeling** Willy Fjeldskaar, Lawrence Cathles, 2021-03-11 This volume describes the nature causes and consequences of the diverse fluid movements that produce energy and mineral resources in sedimentary basins The contained papers point to new capabilities in basin analysis methods and models The processes that operate in the resource producing thermo chemical structural reactors we call sedimentary basins are reviewed Efficient ways to infer the tectonic history of basins are described Impacts on hydrocarbon maturation and migration of glacial tilting magmatic intrusion salt migration and fracturing are illustrated The conditions under which subsurface flow will channel with distance traveled are identified Seismic methods that can image and map subsurface permeability channels are described The surface maturation surface charge and chemical reaction foundations of creep subsidence are set forth Dynamic aspects of the hydrogen resource in basins are analyzed There is much that is new that is presented in these papers with the intent of stimulating thinking and enthusiasm for the advances that will be made in future decades Reassessing Japan's Cold War Oliviero Frattolillo, 2019-11-22 As memories of the savage conflict inaugurated by the attack on Pearl Harbor recede the ethical foundations that influenced postwar interpretations of Japan's role during the Cold War era are crumbling on different fronts Retracing Japanese history during the Sixties this book locates the country's role in Cold War history against the backdrop of the twentieth century contextualizing older trends that shaped postwar changes It also places Cold War Japan in the global context of America's shifting hegemony and the corresponding structure of the international system Given its nuanced approach this book will prove instrumental for students and researchers working in studies of Cold War history Japanese history American history and international history **Understanding the Marginal Seas of Northeast Asia for Tectonics and Submarine Geohazards** Kwang-Hee Kim, Han-Joon Kim, Tianyao Hao, Xunhua Zhang, 2022-08-29 Japan's Civil-Military Diplomacy Dennis T. Yasutomo, 2014-05-09 Since the early 1990s there has been a clear evolution in the military dimension of Japanese diplomacy From Gulf War I in 1991 to the present day an incremental but unmistakable acceptance of and resort to military dispatches has taken place and yet crucially Japan has not morphed into a traditional military power Exploring Japan's involvement in both Afghanistan and Iraq this book examines the evolution and nature of the new civil military dimension in Japanese foreign policy It shows how foreign aid Japan's traditional non military diplomatic tool was merged with the

operations of the Japanese Self Defense Force in Iraq and the activities of NATO ISAF forces in Afghanistan and emphasises the centrality of civilian power to Japanese foreign policy and diplomacy However Dennis Yasutomo argues that while a new civil military security culture is replacing the old merchant state culture of pacifism and anti militarism Japan does not yet qualify as a military normal nation Further the book s exploration of the increased utilization of military power within the context of civilian objectives and non military diplomatic instruments sheds light on the current build up of Japanese military power in East and Southeast Asia amid territorial disputes and nuclear threats and highlights the impact that Japan s new civil military diplomacy may have on wider international affairs in the 21st Century Drawing on interviews with key actors in Tokyo as well as with practitioners who have served on the ground in Iraq and Afghanistan this book will have broad appeal to students and scholars working on Japanese politics and diplomacy military and security studies and international relations

**Japan's Security Identity** Bhubhindar Singh,2013 Since the end of the Cold War there has been a significant change in Japanese security policy as Japan s security identity has shifted from a peace state to an international state In this book Bhubhindar Singh argues that from the 1990s onwards the Japanese security policymaking elite recognized that its earlier approach to security policy which was influenced by the peace state security identity was no longer appropriate Rather as a member of the international community Japan had to carve out a responsible role in regional and international security affairs which required greater emphasis on the role of the military in Japan s security policy To explore the change in Japan s security identity and its associated security behaviour this book contrasts the three areas that define and shape Japanese security policy Japan s conception or definition of national security the country s contribution in military terms to regional and international affairs and the changes to the security policy regime responsible for the security policy formulation Further it seeks to challenge the dominant realist interpretation of Japanese security policy by adopting an identity based approach and showing how whilst realist accounts correctly capture the trajectory of Japanese post Cold War security policy they fail to explain the underlying causes of the change in Japanese security behaviour in the post Cold War period This book is an important addition to the current literature on Japanese security policy and will be of great use to students and scholars interested in Japanese and Asian politics as well as security studies and international relations more broadly

Mechanism of Sedimentary Basin Formation Yasuto Itoh,2013-08-28 This book is devoted to the mechanisms of sedimentary basin formation on active plate margins which show enormous diversity reflecting complex tectonic processes Multidisciplinary approach pursuing basin forming mechanism is based on geology sedimentology geochronology and geophysics Some chapters are dedicated to the genetic analysis of sedimentary basins in wrench deformation zones in forearc and intra arc regions Another block of chapters deals with basin formation in peripheral regions of Eurasia and intra arc foreland basins under the influence of the fluctuation of stress regimes Finally geophysical approaches to basin analyses are shown in some chapters from microscopic to regional scales Diverse contents of the chapters provide the audience with the present

accomplishments of basin researches on active margins by Earth scientists
