Right Moment:

The Right Moment Matthew Dallek, 2004 Ronald Reagan's first great victory in the 1966 California governor's race is one of the pivotal stories of American political history a victory that seemed to come from nowhere and has long since confounded his critics Just four years earlier Governor Edmund Pat Brown was celebrated as the Giant Killer for his 1962 victory over Richard Nixon and his liberal agenda reigned supreme Yet in 1966 political neophyte Reagan trounced Brown by almost one million votes marking not only the coming of age of Reagan's new conservatism but also the first serious blow to modern liberalism Drawing on scores of oral histories thousands of archival documents and personal interviews with participants Dallek offers a gripping new portrait of the 1960s that is far more complicated than our collective memory of that decade

The Moment Heidrun Frieze, 2001-09-01 Modern philosophical thought has a manifold tradition of emphasising the moment The moment demands questioning all too common notions of time of past present and future uniqueness and repetition rupture and continuity This collection addresses the key questions posed by the moment considering writers such as Nietzsche Husserl Benjamin and Badiou and elucidates the connections between social theory philosophy literary theory and history that are opened up by this notion

One-Moment Meditation Martin Psy.D. Boroson, 2012-07-10 Think of all the moments you lose stuck in traffic standing in line waiting for a download And think of all the moments you waste working when you're not focused or fiddling with your phone What if each of these moments offered you an extraordinary opportunity In *One Moment Meditation* now published in eight languages Martin Boroson distills the philosophy of time into a simple form of meditation that you can do anywhere anytime It begins with an exercise that takes just one minute per day With practice this takes less and less time until it only takes a moment Then each and every moment gives you a chance to reduce stress refresh your mind and open yourself to new possibilities This unique approach to meditation was featured as a thirty day series for stress reduction on Oprah.com Playful profound and above all practical *One Moment Meditation* teaches you that inner peace is not a distant goal reserved for saints and sages and it doesn't take a lot of time it only takes a moment It's hard to overestimate how helpful this technique could be *Psychologies* magazine This gem of a book is a marvelous launching pad for anyone who wants to rest in the now the only time there is Larry Dossey M.D. author of *Reinventing Medicine* Martin Boroson's fantastic book is all about learning to condense the practice of meditation into these fleeting moments And about how from a certain perspective a sequence of fleeting moments are all we ever really have anyway Oliver Burkeman *The Guardian*

Novel-Poetry Emily Allen, Dino Franco Felluga, 2024-09-05 *Novel Poetry* examines the verse novel a hybrid genre that emerged in the middle decades of Britain's nineteenth century to make a larger claim about the nature of genre and formal structures for time action and identity that cross genres The volume uncovers trajectories of literary influence that structure our approach to literature and affect how we shape our lives lives which are often constrained by cause and effect and narrative driven ways of approaching time and possibility *Novel Poetry* tracks an

alternative way of thinking about time and event that was inspired by the French Revolution popularized by Lord Byron and explored by experimental Victorian poets such as Elizabeth Barrett Browning Robert Browning Arthur Hugh Clough and George Meredith The volume turns to the work of philosophers Alain Badiou Jean Pierre Dupuy and Slavoj Žižek to theorize this alternative mode which it aligns with the futur antérieur The temporality of the future anterior disrupts both the novel's realist chronologies and the expressionist lyric's cult of the moment thus liberating possibilities for collective action Ranging widely across romantic lyric poetry Victorian novels and nineteenth century and contemporary literary theory Novel Poetry asks what alternative structures and temporalities does a focus on either realistic narrative or the lyric moment occlude Are there ways of thinking about lived experience and personal or collective agency that do not conform to traditional models ways that the verse novel might help us to explore What might be gained today from trying to think about ourselves and our world outside of established frameworks that are now so naturalized as to feel almost inescapable This is an open access title available under the terms of a CC BY NC ND 4.0 licence

Die Metaphysik und das Gute Wouter Goris, 1999 Die verschiedenen Aufsätze die in diesem Band aus Anlass des 60. Geburtstages von Jan A. Aertsen gesammelt sind widmen sich der Spannung zwischen der Metaphysik und dem Guten. Lässt sich eine Metaphysik denken die vom Begriff des Guten ausgeht? Diese Spannung durchläuft die Philosophie in Antike und Mittelalter wie ein roter Faden und hat nicht selten zu Weiterentwicklung oder Neuorientierung Anlass gegeben. Die verschiedenen Aufsätze behandeln den Anspruch von Ethik und Metaphysik. Erste Philosophie zu sein. Carlos Steel die Idee einer praktischen Metaphysik. Theo Kobusch die Metaphysik des Guten bei Gilbert von Poitiers. Scott MacDonald den Begriff des Guten bei Thomas von Aquin. Rudi te Velde die Stellung des Guten und das Metaphysikverständnis. Bonaventuras. Andreas Speer das Gute als Ersterkanntes bei Berthold von Moosburg. Wouter Goris. Zusammen lesen sie sich als eine Deutung von der Möglichkeit und der Qualität der Synthese von Platonismus und Aristotelismus wie sie in der mittelalterlichen Transzendentalienlehre erstrebt wird

William Zartman,2015-11-17 The Global Power of Talk explores the power of negotiation and diplomacy in US foreign policy at a critical juncture in US history Beginning with

the failure of US diplomacy in relation to Saddam Hussein's regime in the 1980s it shows how a series of diplomatic blunders has laid the foundations for the uninhibited use of gun power over talk power in the last two decades It critically examines missed opportunities in America's handling of the Israeli Palestinian conflict in both the Clinton and George W Bush administrations In a provocative conclusion the authors argue that the United States can and should negotiate with the so called unengageables like Iran North Korea and Al Qaeda in order to find ways to defuse underlying tensions in the global system

marshals both primary sources and eyewitness testimonies to construct a comprehensive examination of the campaign's strategic implications and military tactics. The book is notable for its methodological rigor, utilizing cartographic illustrations and critical annotations that enrich the reader's understanding of the battlefield dynamics and troop movements of this fateful confrontation. Siborne, a British Army officer and historian, was deeply influenced by his experiences in military service and his fascination with the Napoleonic Wars.
