City of Dreadful Delight Judith R. Walkowitz, 1992-10-15 From tabloid exposes of child prostitution to the grisly tales of Jack the Ripper narratives of sexual danger pulsed through Victorian London Expertly blending social history and cultural criticism Judith Walkowitz shows how these narratives reveal the complex dramas of power politics and sexuality that were being played out in late nineteenth century Britain and how they influenced the language of politics journalism and fiction Victorian London was a world where long standing traditions of class and gender were challenged by a range of public spectacles mass media scandals new commercial spaces and a proliferation of new sexual categories and identities In the midst of this changing culture women of many classes challenged the traditional privileges of elite males and asserted their presence in the public domain An important catalyst in this conflict argues Walkowitz was W T Stead's widely read 1885 article about child prostitution Capitalizing on the uproar caused by the piece and the volatile political climate of the time women spoke of sexual danger articulating their own grievances against men inserting themselves into the public discussion of sex to an unprecedented extent and gaining new entree to public spaces and journalistic practices The ultimate manifestation of class anxiety and gender antagonism came in 1888 with the tabloid tales of Jack the Ripper In between there were quotidian stories of sexual possibility and urban adventure and Walkowitz examines them all showing how women were not simply figures in the imaginary landscape of male spectators but also central actors in the stories of metropolitan life that

reverberated in courtrooms learned journals drawing rooms street corners and in the letters columns of the daily press A model of cultural history this ambitious book will stimulate and enlighten readers across a broad range of interests

Debating Human Rights in China Marina Svensson,2002-05-14 Tracing the concept of human rights in Chinese political discourse since the late Qing dynasty this comprehensive history convincingly demonstrates that contrary to conventional wisdom there has been a vibrant debate on human rights throughout the twentieth century Drawing on little known sources Marina Svensson argues that the concept of human rights was invoked by the Chinese people well before the adoption of the Universal Declaration of Human Rights in 1948 and that it has continued to have strong appeal after 1949 both in Taiwan and on the mainland These largely forgotten debates provide important perspectives on and contrasts to the official PRC line The author gives particular attention to the issues of power and agency in describing the widely divergent views of official spokespersons establishment intellectuals and dissidents Until quite recently the PRC dismissed human rights as a bourgeois slogan Yet the globalization of human rights and the growing importance of the issue in bilateral and multilateral relations have forced the regime to embrace or rather appropriate the language of human rights an appropriation that continues to be vigorously challenged by dissidents at home and abroad By exploring the relationship between domestic and international human rights discourses this study offers new insights not only into the Chinese but also into the Western human rights debate Students and scholars of China and of human rights will find this work an important tool for understanding one of the great issues of our time
