The Poetics of

Empowerment in David Mitchell's Novels Eva-Maria Windberger, 2023-07-17 The Poetics of Empowerment in David Mitchell's Novels combines the investigation of David Mitchell's novels with the introduction of a new critical concept to literary studies empowerment. Aiming to situate and establish empowerment firmly within the context of literary studies, it offers the first framework and definition for reading fictional texts with the lens of empowerment and applies it in the analysis of discourse, the fictional characters, and the role of the reader in Mitchell's novels. Drawing on narratological analysis, cognitive approaches to literature, and reader response theory, it features close readings of *Cloud Atlas* (2004), *Black Swan Green* (2006), and *The Thousand Autumns of Jacob de Zoet* (2010) and dissects the author's strategies, poetics, and agenda of empowering fiction. This book argues for an inherent indissoluble connection between empowerment and the telling of stories and demonstrates how literary studies can benefit from a serious engagement with empowerment and how such an engagement can stimulate new responses to fiction and put literary studies in conversation with other disciplines.

Proceedings American Library Association, 1916 **Kobo: A Story of the Russo-Japanese War** Herbert Strang, 2020-09-28 *The World's Work* Walter Hines Page, Arthur Wilson Page, 1918 A history of our time Charles Austin Beard Richard Drake, 2018-12-15 Richard Drake presents a new interpretation of Charles Austin Beard's life and work. The foremost American historian and a leading public intellectual in the first half of the twentieth century, Beard participated actively in the debates about American politics and foreign policy surrounding the two world wars. In a radical change of critical focus, Charles Austin Beard places the European dimension of Beard's thought at the center, correcting previous biographers' oversights and presenting a far more nuanced appreciation for Beard's life. Drake analyzes the stages of Beard's development as a historian and critic, his role as an intellectual leader in the Progressive movement, the support that he gave to the cause of American intervention in World War I, and his subsequent revisionist repudiation of Wilsonian ideals and embrace of non-interventionism in the lead up to World War II. Charles Austin Beard shows that as Americans tally the ruinous costs, both financial and moral, of nation building and informal empire, the life and work of this prophet of history merit a thorough reexamination. *The Norton Book of Modern War* Paul Fussell, 1991 Selections from poetry and fiction describe the 20th century's major conflicts. **Outlook**, 1927 *Asian American Fiction After 1965* Christopher T. Fan, 2024-04-23 After the 1965 Immigration and Nationality Act loosened discriminatory restrictions, people from Northeast Asian countries such as South Korea, Taiwan, Japan, and eventually China immigrated to the United States in large numbers. Highly skilled Asian immigrants flocked to professional managerial occupations, especially in science, technology, engineering, and math. Asian American literature is now overwhelmingly defined by this generation's children, who often struggled with parental and social expectations that they would pursue lucrative careers on their way to becoming writers. Christopher T. Fan offers a new way to understand Asian American fiction through the lens of the class and race formations that shaped its authors, both in the United States and in Northeast Asia. In readings of writers including Ted Chiang, Chang-rae Lee, Ken Liu,

Ling Ma Ruth Ozeki Kathy Wang and Charles Yu he examines how Asian American fiction maps the immigrant narrative of intergenerational conflict onto the two cultures conflict between the arts and sciences Fan argues that the self consciousness found in these writers works is a legacy of Japanese and American modernization projects that emphasized technical and scientific skills in service of rapid industrialization He considers Asian American writers attraction to science fiction the figure of the engineer and notions of the postracial modernization theory and time travel and what happens when the dream of a stable professional identity encounters the realities of deprofessionalization and proletarianization Through a transnational and historical materialist approach this groundbreaking book illuminates what makes texts and authors Asian American

Tolstoy's Major Fiction Edward Wasiolek,1978 Edward Wasiolek after much valuable work on Dostoevsky has now written one of the best books on Tolstoy in recent decades This may be in part because of his preoccupation with Tolstoy's most challenging contemporary and the resulting sense of their unlikeness in a common pursuit But there are other unspeculative reasons Few studies of Tolstoy have been so carefully pondered and so firmly organized to convince and not so many show the flexibility and variety of its approach Wasiolek proposes an essentially simple and consistent reading but he advances it with subtlety and discretion Henry Gifford Times Literary Supplement **Book Review Digest** ,1927

His Own Life Story and War Diary Tom Skeyhill,2013-05-31 This little book ought to be read by Americans everywhere both because Sergeant York is a national possession and also because it teaches the priceless value of individual character and may warn us here in America from allowing our children who have to use machines from being themselves made into machines His is the story of Sergeant Alvin C York of Tennessee the outstanding hero of the World War and one of the greatest individual fighters in the history of modern or legendary warfare In the heart of the Argonne Forest on October 8 1918 practically unassisted he whipped an entire German machine gun battalion killing twenty eight of the enemy capturing thirty five machine guns and with the help of a handful of doughboys bringing in one hundred and thirty two prisoners

The Deadly Brotherhood John McManus,2003-08-26 In his book *Men Against Fire* historian S L A Marshall asserted that only 15 to 25 percent of American soldiers ever fired their weapons in combat in World War II Shooting at the enemy made a man part of the team or brotherhood There were of course many times when soldiers did not want to shoot such as at night when they did not want to give away a position or on reconnaissance patrols But in the main no combat soldier in his right mind would have deliberately sought to go through the entire war without ever firing his weapon because he would have been excluded from the brotherhood but also because it would have been detrimental to his own survival One of rifle company commander Harold Leinbaugh's NCOs summed it up best when discussing Marshall Did the SOB think we clubbed the Germans to death
