A Heritage of Hypocrisy Holliston Perni, 2005-10 In the dark says since the attack on the World Trade Center the question that many Americans have asked is Why Why do they hate us as they do Is it as our leaders would have us believe because they hate our freedom To understand what others find objectionable in us we must take a long and brutally honest view of how we act

versus what we like to say about ourselves The facts as this book demonstrates are incontrovertible Our history is an unbroken progression of atrocities betrayals of trust and abuses of the rule of law both to our global neighbors as well as our own citizens Since the arrival of the first settlers we have cheated and swindled committed the most sweeping genocide in history 100 000 000 members of the indigenous populations attacked civilian populations with nuclear weapons promoted conflicts at home and abroad supported brutal right wing regimes bullied those weaker than us and performed gruesome experiments on the most defenseless of our own citizens poor southern blacks retarded teens and pregnant women These sadly are the facts and are what others see when we say our proud slogans about peace and promoting democracy But who among us is actually responsible for this ignominious state of affairs As Perni argues all of these iniquities can be traced to three sources big business fundamentalist right wing Christians whom he characterizes as our own domestic Taliban and a corrupt government that serves the corporations while manipulating the easily swayed voters **Country Reports on**

David Kuehn, 2019-10-23 Despite the decline in the number of military coups since the 1960s and 1970s Militaries continue to be crucial political actors in many world regions Their impact on the democratic development of nations however has been mixed On the one hand coups against democratically elected leaders in Mali 2012 Egypt 2013 and Thailand 2014 have spelled doom for these countries nascent democratic regimes and have ushered in new periods of military dominance in politics The cases of Portugal 1974 the Philippines 1986 and Tunisia 2011 on the other hand show that the military's decision not to defend authoritarian leaders against mass protests contributed crucially to the fall of dictatorships and facilitated transitions to democracy This volume addresses the military's ambivalent role as midwife or gravedigger of democracy and highlights the often multi layered and complex relationship between militaries political behaviour and democratization The chapters were originally published in a special issue of Democratization

text intends to be concise and short with the most important and interesting points at the same time trying to be lightly funny and entertaining but don't expect it to be hilarious Many Brazilians may learn a thing or two about their own country reading this book as well
