The Moral Dimension of Asymmetrical Warfare Th.A. van Baarda, D.E.M. Verweij, 2009-06-30 During the Cold War an era in which the term asymmetric warfare was not well known the issue of the laws and ethics of war seemed simple enough to most soldiers being concerned mainly with leadership management and morale Post Cold War reality revealed a very

different set of challenges including a significantly wider moral dimension particularly when forces initially under UN leadership and later under the NATO flag were deployed in different parts of the turbulent Balkans Military observers by now with legal advisers close by watched events in the Balkans East Timor and then in central and West Africa with professional interest and some were involved there A few years later soldiers were subsequently caught as much by surprise by the events of 9 11 a graphic example of asymmetric warfare as most of the rest of the world The initial post 9 11 response in Afghanistan and Iraq brought the notion of the fragile or collapsed state and the blurring of the roles of military forces international organisations non governmental organisations non state actors and indigenous administrators and their uniformed organisations and with them the moral dilemmas to much wider notice More recent conflicts have indeed shown the need for commanders and soldiers in all types of conflict to have a much better understanding of the complex moral and legal environments and opened new debates about the principle of winning hearts and minds in counter insurgency and peace support operations Moreover technological superiority by the West has also produced mixed benefits in the field of military operations and posed additional dilemmas many of them moral The trend towards defining human rights and fundamental freedoms poses further questions for the soldier today This collection of essays written by a wide variety of practising experts and scholars touches on all these issues It links the medieval traditions of jus in bello codified by Saint Thomas Aquinas in the Christian Church nearly eight centuries ago to examination of modern challenges and moral dilemmas relating to the ethics and laws of conflict and crises of all types in the twenty first century and in a global context among people of many different faiths and beliefs and none It is an important collection for all those researching or practically involved in conflict and post conflict situations
