W. Adams,2005 An up to date overview of Mesoamerican cultures from early prehistoric times through the fall of the Aztec Empire Prehistoric Mesoamerica Third Edition will be useful and appealing to readers interested in Mesoamerican art society politics and intellectual achievement      **Maya Architecture of the Central Yucatan Peninsula, Mexico** David F. Potter,1977      **A Guide to Ancient Maya Ruins** C. Bruce Hunter,1986-05-01 Illustrated descriptions explanations and appraisals of accessible Mayan ceremonial centers in Guatemala Mexico and Honduras setting each of the twenty four sites in its historical cultural and architectural context      **Monographs and Papers in Maya Archaeology** William Rotch Bullard,1970      **Journey to the Republic of Guatemala; Land of the Maya** Kalman Dubov,2023-05-10 The Central American country of Guatemala was populated by the Maya people whose empire extended from Honduras to the south to today's southern Mexico Remnants of their presence are found throughout this region with monumental architecture cities palaces and great pyramids Wherever one looks the explosion of growth and development captures the viewer in its thrall Even the many glyphs adorning these sites with their unique writing style are a marvel to behold They lived here for an estimated two thousand years and then in the early 16th century the Spanish came and conquered these people By then their greatness had already ended in the midst of the 10th century when their culture and civilization collapsed But they retained their culture by way of thousands of pictographic books which detailed their way of life and their advancements But the Spaniards zealous in their Catholicism sought out and destroyed every such book they could find and burned them all Except

for three such books known as the Maya Codices Historians and scholars began the slow process of deciphering the Maya past Great effort was expended and the reality of their lives culture kings wars and daily practice began to emerge And the world was astounded by the emerging picture Perhaps a first in the world was their mathematical calculation with zero a phenomenal achievement Interestingly the glyph of the zero depicted a woman what mathematical genius was she to use zero in calculations Their astronomy of the heavenly spheres was astoundingly precise as was their knowledge of geometry and trigonometry Their religion however included human sacrifices following the practice of other nearby civilizations such as the Aztecs the Inca in South America and others The Spaniards stopped such worship and offerings and now subjugated these people into serfdom called encomiendas or enforced working for the conquistadors and their descendants Independence from Spain came in 1821 but the Mayan living conditions did not change The country became divided between the Spanish descendants now known as the Criollos the middle class known as Ladinos not to be confused with Jews in 9th century Castilian Spain and the Maya and other indigenous The social distance from the upper to lower classes was immense And that distance came forward during Guatemala's Civil War from 1960 to 1996 The violence and massacres during this period was so evil the president of the country Rios Montt was charged and convicted of Genocide the first time a country charged its own leader with this crime At a previous age and time the face of Guatemala presented immense achievements Today violence crime and cultural penury is self evident Guatemala is a third world country where the majority of its people live in great poverty while the upper class has the land its abundance and vast wealth
