Baudrillard Youth and American Film examines the portrayal of youth in American cinema with Jean Baudrillard's radical social theory and philosophical system Kline uses Baudrillard's corpus to analyze the troubling effects of the portrayal of youth in American teen films namely its contribution to discursive violence against young people which holds such a prominent place in many adult controlled modern institutions like schools This kind of violence has multiple iterations including the inability to imagine youth as meaningful political actors the insistence on taking teenagers to be morally impoverished and the propensity for viewing young people as thoroughly heteronomous While there are certainly pockets of exception violent discourses often animate institutional disregard for youth Kline promotes Baudrillard's fatal theory as a way for critical educators philosophers sociologists and other concerned pedagogues to argue for an alteration in the way that youth is portrayed in American films and to discourage the negative discourse that have colonized conceptions and treatment of young people America's Teenagers--Myths and Realities Sharon L. Nichols, Thomas L. Good, 2004-07-19

harmony sexual freedom popular culture and education to produce a society that could inspire young people and an adult society worth joining In postmodernity Goodman s enlightenment era vision of social progress has been judged obsolete For many postmodern critics subjectivity is formed and expressed not through social investment but through consumption the freedom to consume has replaced political empowerment But the power to consume is distributed very unevenly and even for the affluent it never fulfills the desire produced by the advertising industry The contributors to this volume focus on adverse social conditions that confront young people in postmodernity such as the relentless pressure to consume social disinvestment in education harsh responses to youth crime and the continuing climate of intolerance that falls heavily on the young In essays on education youth crime counseling protest movements fiction identity formation and popular culture the contributors look for moments of resistance to the subsumption of youth culture under the logic of global capitalism
