## **Rise And Rise Of Human Rights:**

*The Rise and Fall of Democracy Promotion in US Foreign Policy* Matthew Alan Hill, 2022-02-20 The Rise and Fall of Democracy Promotion in US Foreign Policy employs a transformational change framework to understand US democracy promotion from 1977 until the present day American exceptionalism is a framework that has driven the US since the founding days of the republic charging the US to promote the universal values of liberty and the pursuit of happiness around the world Providing a frame of continuity for successive administrations it reinforces the mythology of American exceptionalism in the eyes of the American people and the world In different eras different presidential worldviews along with different international and domestic factors have shaped how each administration has acted in the international arena and yet all have employed this language regardless of the policies pursued This timely volume maps out and interrogates through four key indicators the rise and fall of democracy promotion at the conceptualisation rhetorical and implementation levels It argues that there were two transformational changes during this period The first was the expansion of democracy promotion in US foreign policy confirmed with the election of Jimmy Carter to the White House in 1977 The second was the rejection of liberal ideology and institutions confirmed with Donald Trump s election in 2016 It is nuanced in that it shows how these changes in the acceptance and then rejection of democracy promotion as a foreign policy tool played out In examining these two administrations and those in between this work also observes that the rise and fall of democracy promotion as an effective foreign policy tool mirrored the relative dominance of the US in the international arena This book will be of interest to students and scholars of American foreign policy international relations and American history

*An Unpatriotic History of the Second World War* James Heartfield, 2012-09-28 The Second World War was not the Good War of legend James Heartfield explains that both Allies and Axis powers fought for the same goals territory markets and natural resources

*The Routledge Handbook of the Cold War* Artemy M. Kalinovsky, Craig Daigle, 2014-06-05 This new Handbook offers a wide ranging overview of current scholarship on the Cold War with essays from many leading scholars The field of Cold War history has consistently been one of the most vibrant in the field of international studies Recent scholarship has added to our understanding of familiar Cold War events such as the Korean War the Cuban Missile Crisis and superpower détente and shed new light on the importance of ideology race modernization and transnational movements The Routledge Handbook of the Cold War draws on the wealth of new Cold War scholarship bringing together essays on a diverse range of topics such as geopolitics military power and technology and strategy The chapters also address the importance of non state actors such as scientists human rights activists and the Catholic Church and examine the importance of development foreign aid and overseas assistance The volume is organised into nine parts Part I The Early Cold War Part II Cracks in the Bloc Part III Decolonization Imperialism and its Consequences Part IV The Cold War in the Third World Part V The Era of Detente Part VI Human Rights and Non State Actors Part VII Nuclear Weapons Technology and Intelligence Part VIII Psychological

Warfare Propaganda and Cold War Culture Part IX The End of the Cold War This new Handbook will be of great interest to all students of Cold War history international history foreign policy security studies and IR in general

**A History of Political Trials** John Laughland, 2008 This is a formidable and well documented counterblast to a developing modern orthodoxy expressing a point of view that many readers will not even have suspected existed let alone read Anthony Daniels Spectator A useful and controversial contribution to the debate about victor's justice and a valuable warning that international war crimes tribunals need to operate with precision and care Jonathan Steele Guardian The rapid development of the use of international courts and tribunals to try heads of state for genocide and other crimes against humanity has been welcomed by most people because they think that the establishment of international tribunals and courts to try notorious dictators represents a triumph of law over impunity In A History of Political Trials John Laughland takes a very different and controversial view namely that political trials are inherently against the rule of law and almost always involve the abuse of process as well as being seriously hypocritical By means of detailed consideration of the trials of figures as disparate as Charles I Louis XVI Erich Honecker and Saddam Hussein Laughland shows that the guilt of the accused has always been assumed in advance that the judges are never impartial that the process is always unfair and biased in favor of the prosecution that the defense is not permitted to use all the arguments at its disposal and that often the accusers have done exactly what they accuse the defence of having done All the trials he recounts were marked by arbitrariness and injustice often gross injustice Although the chapters are short and easy to read they are the fruit of formidable erudition and wide reading The general reader will be forced by this book to re-examine the ideas on this subject and will be much less sanguine about the possibility of bringing dictators and other leaders to genuine justice John Laughland lives in Bath and is an author journalist and has been a university lecturer in France He has published The Tainted Source The Undemocratic Origins of the European Idea Time Warner Paperbacks and has written for the Spectator the Economist and The New York Times Table of Contents Introduction The Trial of Charles I and the Last Judgement The Trial of Louis XVI and the Terror War Guilt after World War I Defeat in the Dock the Riom Trial Justice as Purge Marshal Peacetime faces his Accusers Treachery on Trial the Case of Vidkun Quisling Nuremberg Making War Illegal Creating Legitimacy the Trial of Marshal Antonescu Ethnic Cleansing and National Cleansing in Czechoslovakia 1945-1947 Peoples Justice in Liberated Hungary From Mass Execution to Amnesty and Pardon Postwar Trials in Bulgaria Finland and Greece Politics as Conspiracy the Tokyo Trials The Greek Colonels the Emperor Bokassa and the Argentine Generals Transitional Justice 1975-2007 Revolution Returns the Trial of Nicolae Ceausescu A State on Trial Erich Honecker in Moabit Jean Kambanda Convicted without Trial Kosovo and the New World Order the Trial of Slobodan Milosevic Regime Change and the Trial of Saddam Hussein Conclusion Notes Bibliography and Further Reading Index

**International Relations Theory and International Law** Adriana Sinclair, 2010-10-28 International law is playing an increasingly important role in international politics However international

relations theorists have thus far failed to conceptualise adequately the role that law plays in politics. Instead IR theorists have tended to operate with a limited conception of law. An understanding of jurisprudence and legal methodology is a crucial step towards achieving a better account of international law in IR theory. But many of the flaws in IR's idea of law stem also from the theoretical foundations of constructivism, the school of thought which engages most frequently with law. In this book, Adriana Sinclair rehabilitates IR theory's understanding of law using cases studies from American English and international law to critically examine contemporary constructivist approaches to IR and show how a gap in their understanding of law has led to inadequate theorisation.

International Law Wade Mansell, Karen Openshaw, 2019-08-22. This new edition provides a critical introduction to the concepts, principles and rules of international law through a consideration of contemporary international events. It examines both the possibilities and limitations of the legal method in resolving international disputes and notes the actual effects of international law upon international disagreements. Such an approach remains sceptical rather than cynical and is intended to provide the means by which the role of international law may be evaluated. This entails discussion of the legal quality of international law, the relationship between international law and international relations, the Eurocentricity of international law and the connection between political power and the ability to use or abuse or ignore international law. The new edition explores the impact of the United States' latest direction in foreign policy, arguably an intensification of pre-existing neo-conservative trends, considers in greater depth the issue of economic self-determination in relation to ex-colonial nations, expands the discussion of jurisdiction to cover immunity from jurisdiction and covers recent developments at the International Criminal Court. Underlying the book is the assertion that international law is political in content in the sense of being concerned with the exercise of power, but that it draws much of its effectiveness from its self-portrayal as being apolitical or at least politically neutral.

**Memory Laws, Memory Wars** Nikolay Koposov, 2017-10-12. Laws against Holocaust denial are perhaps the best known manifestation of the present-day politics of historical memory. In *Memory Laws, Memory Wars*, Nikolay Koposov examines the phenomenon of memory laws in Western and Eastern Europe, Ukraine and Russia, and exposes their very different purposes in the East and West. In Western Europe, he shows how memory laws were designed to create a common European memory, centred on the memory of the Holocaust, as a means of integrating Europe, combating racism and averting national and ethnic conflicts. In Russia and Eastern Europe, by contrast, legislation on the issues of the past is often used to give the force of law to narratives which serve the narrower interests of nation-states and protect the memory of perpetrators rather than victims. This will be essential reading for all those interested in ongoing conflicts over the legacy of the Second World War, Nazism and communism.

The Routledge History of U.S. Foreign Relations Tyson Reeder, 2021-12-30. The Routledge History of U.S. Foreign Relations provides a comprehensive view of U.S. diplomacy and foreign affairs from the founding to the present. With contributions from recognized experts from around the world, this volume unveils America's long and complicated history on the world stage. It

presents the United States evolution from a weak player even a European pawn to a global hegemonic leader over the course of two and a half centuries The contributors offer an expansive vision of U S foreign relations from U S Native American diplomacy in eighteenth and nineteenth centuries to the post 9 11 war on terror They shed new light on well known events and suggest future paths of research and they capture lesser known episodes that invite reconsideration of common assumptions about America s place in the world Bringing these discussions to a single forum the book provides a strong reference source for scholars and students who seek to understand the broad themes and changing approaches to the field This book will be of interest to students and scholars of U S history political science international relations conflict resolution and public policy amongst other areas

**Human Rights in the Twentieth Century** Stefan-Ludwig Hoffmann,2010-12-13 Has there always been an inalienable right to have rights as part of the human condition as Hannah Arendt famously argued The contributions to this volume examine how human rights came to define the bounds of universal morality in the course of the political crises and conflicts of the twentieth century Although human rights are often viewed as a self evident outcome of this history the essays collected here make clear that human rights are a relatively recent invention that emerged in contingent and contradictory ways Focusing on specific instances of their assertion or violation during the past century this volume analyzes the place of human rights in various arenas of global politics providing an alternative framework for understanding the political and legal dilemmas that these conflicts presented In doing so this volume captures the state of the art in a field that historians have only recently begun to explore

**The Great War and the Origins of Humanitarianism, 1918-1924** Bruno Cabanes,2014-03-13 Pioneering study of the transition from war to peace and the birth of humanitarian rights after the Great War

**The Cambridge History of the Cold War: Volume 3, Endings** Melvyn P. Leffler,Odd Arne Westad,2012-01-26 Volume III of The Cambridge History of the Cold War examines the evolution of the conflict from the Helsinki Conference of 1975 until the Soviet collapse in 1991 A team of leading scholars analyzes the economic social cultural religious technological and geopolitical factors that ended the Cold War and discusses the personalities and policies of key leaders such as Brezhnev Reagan Gorbachev Thatcher Kohl and Deng Xiaoping The authors show how events throughout the world shaped the evolution of Soviet American relations and they explore the legacies of the superpower confrontation in a comparative and transnational perspective Individual chapters examine how the Cold War affected and was affected by environmental issues economic trends patterns of consumption human rights and non governmental organizations The volume represents the new international history at its best emphasizing broad social economic demographic and strategic developments while keeping politics and human agency in focus

*Exporting Freedom* Anna Su,2016-01-04 Religious freedom is recognized as a basic human right guaranteed by nearly all national constitutions Anna Su charts the rise of religious freedom as an ideal firmly enshrined in international law and shows how America s promotion of the cause of individuals worldwide to freely practice their faith advanced its ascent as a global power

**Explaining the History of American Foreign Relations** Frank Costigliola, Michael J. Hogan, 2016-03-07 A longtime classic in its first and second editions *Explaining the History of American Foreign Relations* 3rd edition presents substantially revised and new essays on traditional themes such as national security corporatism borderlands history and international relations theory The book also highlights such innovative conceptual approaches and analytical methods as computational analysis symbolic borders modernization and technopolitics nationalism non state actors domestic politics exceptionalism legal history nation branding gender race political economy memory psychology emotions and the senses Each chapter is written by a highly respected scholar in the field many of whom have risen to prominence since the second edition s publication This collection is an indispensable volume for teachers and students in foreign relations history international relations history and political science The essays are written in accessible jargon free prose thus also making the book appropriate for general readers seeking an introduction to history and political science     *Routledge Handbook of Peace, Security and Development* Fen Osler Hampson, Alpaslan Özerdem, Jonathan Kent, 2020-06-04 This Handbook offers a comprehensive examination of the peace security and development nexus from a global perspective and investigates the interfaces of these issues in a context characterised by many new challenges By bringing together more than 40 leading experts and commentators from across the world the Handbook maps the various research agendas related to these three themes taking stock of existing work and debates while outlining areas for further engagement In doing so the chapters may serve as a primer for new researchers while also informing the wider scholarly community about the latest research trends and innovations The volume is split into three thematic parts Concepts and approaches New drivers of conflict insecurity and developmental challenges Actors institutions and processes For ease of use and organisational consistency each chapter provides readers with an overview of each research area a review of the state of the literature a summary of the major debates and promising directions for future research This Handbook will be of much interest to students of peace and conflict studies development studies security studies and International Relations     **The Palgrave Dictionary of Transnational History** A. Iriye, P. Saunier, 2016-04-30 Written and edited by many of the world s foremost scholars of transnational history this Dictionary challenges readers to look at the contemporary world in a new light Contains over 400 entries on transnational subjects such as food migration and religion as well as traditional topics such as nationalism and war     *Research Handbook on the Theory and History of International Law* Alexander Orakhelashvili, 2020-12-25 This updated and revised second edition with contributions from renowned experts provides a comprehensive scholarly framework for analyzing the theory and history of international law Featuring an array of legal and interdisciplinary analyses it focuses on those theories and developments that illuminate the central and timeless basic concepts and categories of the international legal system highlighting the interdependency of various aspects of theory and history and demonstrating the connections between theory and practice     Third Force, The; The Rise of Transnational Civil Society Florini, Ann M., Nihon Kokusai

Kōryū Sentā,2000-10 From the landmines campaign to the Seattle protests against the WTO to the World Commission on Dams transnational networks of civil society groups are seizing an ever greater voice in how governments and corporations are managed This volume addresses the issues raised by this change      *Education and the Rise of the Global Economy* Joel Spring,1998-09 Documents and analyzes the role and functions of educational policy in the context of today's global economic system and the consequences of educational policies designed to align educational systems with the needs of international corporations      *The Global Rise of Social Cash Transfers* Lutz Leisering,2018-12-06 The Universal Declaration of Human Rights 1948 proclaimed the equality of all human beings in dignity and rights The right to social security however has been taken more seriously only since the 2000s through calls for Social Security for All and Leaving no one behind The book investigates a major response social cash transfers to the poor The idea of simply giving money to the poor had been rejected by all major development organizations but since the early 2000s social cash transfers have mushroomed in the global South and on agendas of international organizations How come What programmes have emerged in which countries How inclusive are the programmes What models have international organizations devised Based on unique quantitative and qualitative data and on newly created concepts and indicators the book takes stock of all identifiable cash transfers in all Southern countries and of the views of all major international organizations The volume argues that cash transfers reflect broader changes new understandings of development of human rights of global risks of the social responsibility of governments and of universalism Social cash transfers have turned the poor from objects of charity into rights holders and agents of their own lives and of development A repertoire of cash transfers has evolved that has enhanced social citizenship but is limited by weak political commitments The book also contributes to a general theory of social policy in development contexts through a constructivist sociological approach that complements the dominant approaches from welfare economics and political economy and includes a theory of social assistance      **The Sage Handbook of Sociology of Education** Mark Berends,Barbara Schneider,Stephen Lamb,2023-12-06 The Sage Handbook of Sociology of Education is an international and comprehensive groundbreaking text that serves as a touchstone for researchers and scholars interested in exploring the intricate relationships between education and society Leading sociologists from five different continents examine major topics in sociology from a global perspective This timely thought provoking Handbook features contributions from leading and emerging sociology scholars who provide their own cultural and historical perspectives on diverse yet universal topics these include educational policy social stratification and cross national research 39 Chapters delve into the pressing issues faced by our global society such as the effects of residential mobility on educational outcomes gender and ethnic inequalities and the impact of COVID 19 on early childhood education Readers will gain a multifaceted view of the contours of educational inequality from various international perspectives and focusing on country differences as well as recommendations for expanding the practices programs and policies that could reduce the rising tide of inequities especially

for populations most at risk This Handbook offers rich diverse perspectives on the interplay between education social inequality and human rights around the world making it an invaluable resource for students researchers and practitioners across a range of fields including sociology education and social policy PART 1 Education and Persistent Inequality PART 2 Social Family Contexts PART 3 Schools Educational Policy PART 4 Neighborhoods Community PART 5 Education Innovation in a Global Context
