Rise Of Romanticism

Stephen Bann

Rise Of Romanticism:

Romanticism and the Rise of History Stephen Bann, 1995 In *Romanticism and the Rise of History* Bann argues that history came of age in Europe during the period following the French Revolution through the end of the nineteenth century becoming an object of widespread desire As one perhaps mildly astonished scholar noted later it was a time when the most simple minded farmhand was able to distinguish an old belfry from a new one and Bann might add perceive value in the old one To draw the reader into his exploration of the nineteenth century's discovery of history Bann presents twenty five images from the period engravings oil paintings sculptures watercolors that appear to both represent and interact with the past Does the suit of armor standing at Walter Scott's shoulder in Sir John Watson Gordon's portrait validate the image of the author as rightful custodian of the past and its relics or is it Scott who through his imaginative interpretation of history imbues this shell of knighthood with lasting significance

Political Liberalism and the Rise of American Romanticism Scott M. Reznick, 2024-07-18 *Political Liberalism and the Rise of American Romanticism* explores how American Romanticism developed in response to pervasive conflicts over democracy's moral dimensions in the early republic and antebellum eras By recovering the long under examined tradition of political liberalism for literary studies it traces how US writers reacted to ongoing moral and political conflict by engaging with liberal thinkers and ideas as they endeavored to understand how individuals beholden to a divergent array of moral convictions might nevertheless share a stable and just political world the very dilemma at the core of political liberalism This study demonstrates how those philosophical engagements sparked Romanticism's rise and eventual flourishing as US writers increasingly embraced Romantic literary modes emphasizing the imagination's capacity for creative synthesis and the role it plays in shoring up the habits of mind and feeling that are vital to a meaningful democratic culture It offers revisionary readings of works by Charles Brockden Brown Robert Montgomery Bird James Fenimore Cooper Harriet Beecher Stowe Frederick Douglass and Nathaniel Hawthorne to show how these Romantic writers were preoccupied with how individuals come to embrace their deepest convictions and what happens when they encounter others who see the world differently

The Emergence of Romanticism Nicholas V. Riasanovsky, 1995-05-18 Although primarily known as an eminent historian of Russia Nicholas Riasanovsky has been a longtime student of European Romanticism In this book Riasanovsky offers a refreshing and appealing new interpretation of Romanticism's goals and influence He searches for the origins of the dazzling vision that made the great early Romantic poets in England and Germany Wordsworth Coleridge Novalis and Friedrich Schlegel look at the world in a new way He stresses that Romanticism was produced only by Western Christian civilization with its unique view of humankind's relationship to God The Romantic's frantic and heroic striving after unreachable goals mirrors Christian beliefs in human inability to adequately address God speak to God or praise God Further Riasanovsky argues that Romantic thought had important political implications playing a key role in the rise of nationalism in Europe Offering a historical examination of an area often limited to literary analysis this

Fuller,2010-04-05 In an era when the cult of personality has overtaken the task of preaching Charles W Fuller offers an engaging query into the necessary boundaries between the person of the preacher and the message preached By thoroughly evaluating Phillips Brooks s classic truth through personality de nition of preaching Fuller brings to light a substantial error that remains in contemporary homiletics namely the tenuous correlation between Christ s incarnation and Christian preaching Ultimately Fuller asserts a sound evangelical framework for preaching on revelational ontological rhetorical and teleological grounds Preachers who desire to construct pulpit practice upon a robust evangelical foundation will bene t from Fuller s contribution *Aesthetics of Fraudulence in Nineteenth-Century France* Scott Carpenter,2016-03-16 In his engagingly written and original book Scott Carpenter analyzes multiple manifestations of the false in nineteenth century France Under Carpenter s thorough and systematic analysis fraudulence emerges as a cultural preoccupation in nineteenth century literature and society whether it be in the form of literary mystifications the thematic portrayal of frauds or the privileging of falseness as an aesthetic principle Focusing particularly on the aesthetics of fraudulence in works by M rim e Balzac Baudelaire Vidocq Sand and others Carpenter places these literary representations within the context of other cultural phenomena such as caricature political history and ceremonial events As he highlights the special relationship between literary fiction and fraudulence Carpenter argues that falseness arises as an aesthetic preoccupation in post revolutionary France where it introduces a blurring of limits between hitherto discrete categories This transgression of boundaries challenges notions of authenticity and sincerity categories that Romantic aesthetics championed at the beginning of the nineteenth century in France Carpenter s study makes an important contribution to the cultural significance of

mystification in nineteenth century France and furthers our understanding of French literature and cultural history The Enigma of Enlightenment Pasquale De Marco,2025-07-10 In an era defined by the Enlightenment's triumphant march across Europe there arose a chorus of dissenting voices that challenged its dominant paradigms and offered alternative visions of human existence and societal organization This book brings to light the lives and ideas of three such critics Giambattista Vico Johann Georg Hamann and Johann Gottfried Herder Vico a Neapolitan philosopher and historian rejected the Enlightenment's linear view of progress arguing instead that history moved in cyclical patterns He emphasized the importance of myth and poetry in understanding the human past and criticized the Enlightenment's reliance on abstract rationalism Hamann a German theologian and philosopher was a staunch critic of the Enlightenment's exaltation of reason He believed that faith language and revelation were more reliable sources of knowledge than rational inquiry Hamann's writings are characterized by their paradoxical nature reflecting his belief in the limitations of human reason and the importance of embracing mystery Herder a German philosopher linguist and literary critic celebrated the diversity of human cultures and languages He argued that each culture possesses its own unique value and significance challenging the Enlightenment's universalist tendencies Herder's work had a profound influence on the development of Romanticism and nationalism in the 19th century Together these three thinkers offer a powerful critique of the Enlightenment's dominant narrative revealing its blind spots and limitations Their writings remind us of the importance of tradition diversity and the limits of human reason They also challenge us to rethink our assumptions about progress knowledge and the nature of human understanding This book is an invitation to explore the intellectual landscape of the 18th century through the lens of these three remarkable critics Their ideas though often marginalized provide a valuable corrective to the Enlightenment's rationalist worldview and continue to resonate in contemporary debates about the nature of knowledge progress and human identity Delving into the lives and works of Vico Hamann and Herder this book offers a fresh perspective on a pivotal era in intellectual history It is a must read for anyone interested in the history of ideas philosophy or the complex relationship between reason and faith If you like this book write a review *Unveiling the Hidden: Rediscovering the Roots of American Literature* Pasquale De
