Eighteenth-Century Poetry and the Rise of the Novel Reconsidered Kate Parker, Courtney Weiss Smith, 2013-12-24 Eighteenth Century Poetry and the Rise of the Novel Reconsidered begins with the brute fact that poetry jostled up alongside novels in the bookstalls of eighteenth century England Indeed by exploring unexpected collisions and collusions between poetry and novels this volume of exciting new essays offers a reconsideration of the literary and cultural history of the period The novel poached from and featured poetry and the modern subjects and objects privileged by rise of the novel scholarship are only one part of a world full of animate things and people with indistinct boundaries Contributors Margaret Doody David Fairer Sophie Gee Heather Keenleyside Shelley King Christina Lupton Kate Parker Natalie Phillips Aran Ruth Wolfram Schmidgen Joshua Swidzinski and Courtney Weiss Smith **Parody, Scriblerian Wit and the Rise of the Novel**

Przemysław Uściński, 2017-03-31 Parody was a crucial technique for the satirists and novelists associated with the Scriblerus Club The great eighteenth century wits Alexander Pope John Gay Henry Fielding Laurence Sterne often explored the limits of the ugly the droll the grotesque and the insane by mocking distorting and deconstructing multiple discourses genres modes and methods of representation This book traces the continuity and difference in parodic textuality from Pope to Sterne It focuses on polyphony intertextuality and deconstruction in parodic genres and examines the uses of parody in such texts as The Beggar's Opera The Dunciad Joseph Andrews and Tristram Shandy The book demonstrates how parody helped the modern novel to emerge as a critical and artistically self-conscious form **Revolution and the Word : The Rise of the Novel in America** Cathy N. Davidson Professor of English Duke University, 1987-02-19 Revolution and the Word offers a unique perspective on the origins of American fiction looking not only at the early novels themselves but at the people who

produced them sold them and read them It shows how in the aftermath of the American Revolution the novel found a special place among the least privileged citizens of the new republic As Cathy N Davidson explains early American novels most of them now long forgotten were a primary means by which those who bought and read them especially women and the lower classes moved into the higher levels of literacy required by a democracy This very fact Davidson shows also made these people less amenable to the control of the gentry who naturally enough derided fiction as a potentially subversive genre Combining rigorous historical methods with the newest insights of literacy theory Davidson brilliantly reconstructs the complex interplay of politics ideology economics and other social forces that governed the way novels were written published distributed and understood Davidson also shows in almost tactile detail how many Americans lived during the Constitutional era She depicts the life of the traveling book peddler the harsh lot of the printer the shortcomings of early American schools the ambiguous politics of novelists like Brackenridge and Tyler and the lost lives of ordinary women like Tabitha Tenney and Patty Rogers Drawing on a vast body of material the novels themselves as well as reviews inscriptions in cherished books letters and diaries and many other records Davidson presents the genesis of American literature in its fullest possible context

Robinson Crusoe After 300 Years Andreas K. E. Mueller, Glynis Ridley, 2021-04-16 This wide ranging collection brings together eleven scholars who suggest new and unfamiliar ways of thinking about the 1719 publications *The Life and Strange Surprising Adventures of Robinson Crusoe* and *The Farther Adventures of Robinson Crusoe* and who ask us to consider the enduring appeal of Crusoe more recognizable today than ever before

The Counterhuman Imaginary Laura Brown, 2023-11-15 The *Counterhuman Imaginary* proposes that alongside the historical social and institutional structures of human reality that seem to be the sole subject of the literary text an other than human world is everywhere in evidence Laura Brown finds that within eighteenth century British literature the human cultural imaginary can be seen equally as a counterhuman imaginary an alternative realm whose scope and terms exceed human understanding or order Through close readings of works by Daniel Defoe Jonathan Swift and Alexander Pope along with lapdog lyrics circulation narratives that give agency to inanimate objects like coins and carriages and poetry about the Lisbon earthquake of 1755 Brown traces the ways presence and power of the nonhuman weather natural disasters animals even the concept of love not only influence human creativity subjectivity and history but are inseparable from them Traversing literary theory animal studies new materialism ecocriticism and affect theory *The Counterhuman Imaginary* offers an original repudiation of the centrality of the human to advance an integrative new methodology for reading chaos fluidity force and impossibility in literary culture

The Family, Marriage, and Radicalism in British Women's Novels of the 1790s Jennifer Golightly, 2012-02-01 This book explores the ways in which five female radical novelists of the 1790s Elizabeth Inchbald Eliza Fenwick Mary Hays Charlotte Smith and Mary Wollstonecraft attempted to use the components of private life to work toward widespread social reform These writers depict the conjugal family as the site for a potential reformation of the prejudices and flaws of the

biological family The biological family in the radical novels of female writers is fraught with problems greed and selfishness pervert the relationships between siblings and neglect and ignorance characterize the parenting received by the heroines Additionally the radical novelists responding to representations of biological families as inherently restrictive for unmarried women develop the notion of marriage to a certain type of man as a social duty Marriage between two properly sensible people who have both cultivated their reason and understanding and who can live together as equals sharing domestic responsibilities is shown to be an ideal with the power to create social change Positioning their depictions of marriage in opposition to earlier feminist depictions of female utopian societies the female radical novelists of the 1790s strive to depict relationships between men and women that are characterized by cooperation individual autonomy and equality What is most important about these depictions is their ultimate failure Most of the female radical novelists find such marriages nearly impossible to conceptualize Marriage for many of the female radical novelists was an institution they perceived as inextricably related to male concerns about property and inescapably patriarchal under the marriage laws of late eighteenth century British society Unions between two worthy individuals outside the boundaries of marriage are shown in the female radical novels to be equally problematic sex inevitably is the basis for such unions yet sex leaves women vulnerable to exploitation by men Rather than the triumph therefore of what comes to be in these novels the male associated values of property and power through marriage the female radical novels end by suggesting an alternative community one that will shelter those members of society who are most frequently exploited in male attempts to accumulate this property and power women servants and children

Defoe's Writings and Manliness Stephen H. Gregg, 2016-05-13 Defoe's Writings and Manliness is a timely intervention in Defoe studies and in the study of masculinity in eighteenth century literature more generally Arguing that Defoe's writings insistently returned to the issues of manliness and its contrary effeminacy this book reveals how he drew upon a complex and diverse range of discourses through which masculinity was discussed in the period It is for this reason that this book crosses over and moves between modern paradigms for the analysis of eighteenth century masculinity to assess Defoe's men A combination of Defoe's clarity of vision a spirit of contrariness and a streak of moral didacticism resulted in an idiosyncratic and restless testing of the forces surrounding his period's ideas of manliness Defoe's men are men but they are never unproblematically so they display a contrariness which indicates that a failure of manliness is never very far away

Defoe's Major Fiction Elizabeth R. Napier, 2016-01-28 This book focuses on the pervasive concern with narrativity and self construction that marks Defoe's first person fictional narratives Defoe's fictions focus obsessively and elaborately on the act of storytelling not only in his creation of idiosyncratic voices preoccupied with

the telling and often the concealing of their own life stories but also in his narrators repeated aversion to other untold stories that compete for attention with their own Defoe's narratives raise profound questions about selfhood and agency as well as demonstrate competing attitudes about narration in his fictive worlds His canon exhibits a broad range of first person fictional accounts from pseudo memoir *A Journal of the Plague Year* *Memoirs of a Cavalier* to criminal autobiography *Moll Flanders* to confession *Roxana* and the narrators of these accounts secretive compulsive fractive exhibit an array of resistances to the telling of their life stories Such experiments with narration evince Defoe's deep involvement in projects of self description and delineation as he interrogates the boundaries of the self and dramatizes the arduousness of self accounting Defoe's fictions are emphatically consciousness centered and the significance of such a focus to the development of the novel is patently as great as is his realistic style Defoe's narrative project in fact challenges current views on the moment at which inwardness and interiority begin as Lukács argued to comprise the subject matter of the novel implicitly attributing to identity and consciousness a place of signal and complex importance in the new genre *The Lives of the Novel* Thomas G. Pavel, 2015-06-30 Reprint Originally published Princeton New Jersey Princeton University Press A 2013

The Comic Turn in Contemporary English Fiction Huw Marsh, 2020-07-09 *The Comic Turn in Contemporary English Fiction* explores the importance of comedy in contemporary literature and culture In an era largely defined by a mood of crisis bleakness cruelty melancholia environmental catastrophe and collapse Huw Marsh argues that contemporary fiction is as likely to treat these subjects comically as it is to treat them gravely and that the recognition and proper analysis of this humour opens up new ways to think about literature Structured around readings of authors including Martin Amis Nicola Barker Julian Barnes Jonathan Coe Howard Jacobson Magnus Mills and Zadie Smith this book suggests not only that much of the most interesting contemporary writing is funny and that there is a comic tendency in contemporary fiction but also that this humour this comic licence allows writers of contemporary fiction to do peculiar and interesting things things that are funny in the sense of odd or strange and that may in turn inspire a funny turn in readers Marsh offers a series of original critical and theoretical frameworks for discussing questions of literary genre style affect and politics demonstrating that comedy is an often neglected mode that plays a generative role in much of the most interesting contemporary writing creating sites of rich political stylistic cognitive and ethical contestation whose analysis offers a new perspective on the present
