Patriotism and Public Spirit Ian Crowe, 2012-08-22 Patriotism and Public Spirit is an innovative study of the formative influences shaping the early writings of the Irish English statesman Edmund Burke and an early case study of the relationship between the business of bookselling and the politics of criticism and persuasion Through a radical reassessment of the impact of Burke's Irishness and of his relationship with the London based publisher Robert Dodsley the book argues that Burke saw Patriotism as the best way to combine public spirit with the reinforcement of civil order and to combat the use of coded partisan thinking to achieve the dominance of one section of the population over another No other study has drawn so extensively on the literary and commercial network through which Burke's first writings were published to help explain them By linking contemporary reinterpretations of the work of Patriot sympathizers and writers such as Alexander Pope and Lord Bolingbroke with generally neglected trends in religious and literary criticism in the Republic of Letters this book provides new ways of understanding Burke's early publications The results call into question fundamental assumptions about the course of Enlightenment thought and challenge currently dominant post colonialist and Irish nationalist interpretations of the early Burke

The Wanton Jesuit and the Wayward Saint Mita Choudhury, 2015-12-30 This microhistory investigates the famous and scandalous 1731 trial in which Catherine Cadiere a young woman in the south of France accused her Jesuit confessor Jean Baptiste Girard of seduction heresy abortion and bewitchment Generally considered to be the last witchcraft trial in early modern France the Cadiere affair was central to the volatile politics of 1730s France a time when magistrates and lawyers were seeking to contain clerical power Mita Choudhury's examination of the trial sheds light on two important phenomena with broad historical implications the questioning of traditional authority and the growing disquiet about the role of the sacred and divine in French society Both contributed to the French people's ever increasing disenchantment with the church and the king Choudhury builds her story through an extensive examination of archival material including trial records pamphlets periodicals and unpublished correspondence from witnesses The Wanton Jesuit and the Wayward Saint offers new insights into how the eighteenth century public interpreted the accusations and why the case consumed the public for years developing from a local sex scandal to a referendum on religious authority and its place in French society and politics

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish Scott, 2015-07-23 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but

primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing. It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity. Volume I examines Peoples and Place assessing structural factors such as climate, printing and the revolution in information, social and economic developments and religion including chapters on Orthodoxy, Judaism and Islam.

The World's First Full Press Freedom Ulrik Langen, Frederik Stjernfelt, 2022-05-09. The book charts an extraordinary period in Danish history, the Press Freedom Period of 1770-73, in which King Christian 7's physician J. F. Struensee introduced a series of radical enlightenment reforms beginning with the total abolishment of censorship. The book investigates the sudden avalanche of pamphlets and debates initiating the modern public sphere of Denmark. Norway Publications show a surprising variety from serious political, economic and philosophical treatises over criticism, polemics, ridicule, entertainment and to spin campaigns, obscenities, libel threats. A successful coup against Struensee led to his subsequent public execution in Copenhagen and the latter half of the period saw the gradual smothering of the new public sphere as well as an international pamphlet storm over what was happening in Denmark. Readers all over Europe proved curious to learn about the radical experiment with enlightened absolutism in Denmark; interest was heightened by the involvement of the Danish Queen, the English princess Caroline Matilda, to whom Struensee had an intimate relation. The book is a detailed portrayal of a seminal event in the development of the public sphere in Europe.

Columbia Rising John L. Brooke, 2013-08-01. In *Columbia Rising*, Bancroft Prize winning historian John L. Brooke explores the struggle within the young American nation over the extension of social and political rights after the Revolution. By closely examining the formation and interplay of political structures and civil institutions in the upper Hudson Valley, Brooke traces the debates over who should fall within and outside of the legally protected category of citizen. The story of Martin Van Buren threads the narrative since his views profoundly influenced American understandings of consent and civil society and led to the birth of the American party system. Brooke's analysis of the revolutionary settlement as a dynamic and unstable compromise over the balance of power offers a window onto a local struggle that mirrored the nationwide effort to define American citizenship.

A History of the European Restorations Michael Broers, Ambrogio A. Caiani, Stephen Bann, 2019-11-14. The second volume shines a light on the cultural and social changes that took place during the epoch of European Restorations when the death of the Napoleonic empire existed as a crucial moment for contemporaries. Expanding the transnational approach of Volume I, the chapters focus on the transmutation of ordinary experiences of war into folklore and popular culture, the emergence of grassroots radical politics and conspiracies on the Left and Right and the relationship between literacy and religion with new cases included from Spain, Norway and Russia. A wide ranging and impressive work, this book completes a collection on the history of the European Restorations.

Enlightened Religion Joke Spaans,Jetze Touber,2019-03-25 The history of the relation between religion and Enlightenment has been virtually rewritten In recent decades The idea of a fairly unidirectional rise of paganism or secularisation has been replaced by a much more variegated panorama of interlocking changes not least in the nature of both religion and rationalism This volume explores developments in various cultural fields from lexicology to geographical exploration and from philosophy and history to theology media and the arts involved in the transformation of worldviews in the decades around 1700 The main focus is on the Dutch Republic where discussion culture was more inclusive than in most other countries and where people from very different walks of life joined the conversation Contributors include Wiep van Bunge Frank Daudeij Martin Gierl Albert Gootjes Trudelien van t Hof Jonathan Israel Henri Krop Fred van Lieburg Jaap Nieuwstraten Joke Spaans Jetze Touber and Arthur Weststeijn

The Citizenship Experiment René Koekkoek,2020-01-23 The Citizenship Experiment explores the fate of citizenship ideals in the Age of Revolutions While in the early 1790s citizenship ideals in the Atlantic world converged the twin shocks of the Haitian Revolution and the French Revolutionary Terror led the American French and Dutch publics to abandon the notion of a shared Atlantic revolutionary vision of citizenship Instead they forged conceptions of citizenship that were limited to national contexts restricted categories of voters and advanced stages of civilization Weaving together the convergence and divergence of an Atlantic revolutionary discourse debates on citizenship and the intellectual repercussions of the Terror and the Haitian Revolution Koekkoek offers a fresh perspective on the revolutionary 1790s as a turning point in the history of citizenship

Freedom of speech, 1500-1850 Robert G. Ingram,Jason Peacey,Alex W. Barber,2020-04-27 This collection brings together historians political theorists and literary scholars to provide historical perspectives on the modern debate over freedom of speech particularly the question of whether limitations might be necessary given religious pluralism and concerns about hate speech It integrates religion into the history of free speech and rethinks what is sometimes regarded as a coherent tradition of more or less absolutist justifications for free expression Contributors examine the aims and effectiveness of government policies the sometimes contingent ways in which freedom of speech became a reality and a wide range of canonical and non canonical texts in which contemporaries outlined their ideas and ideals Overall the book argues that while the period from 1500 to 1850 witnessed considerable change in terms of both ideas and practices these were more or less distinct from those that characterise modern debates
