Naval Peacekeeping and Humanitarian Operations James J. Wirtz, Jeffrey A. Larsen, 2008-10-29 This edited volume explores stability security transition and reconstruction operations SSTR highlighting the challenges and opportunities they create for the US Navy The book argues that SSTR operations are challenging because they create new missions and basing modes and signal a return to traditional naval methods of operation Mission accomplishment requires collaboration with a wide range of actors representing governmental non governmental and commercial organizations which often creates politically and bureaucratically charged issues for those involved However although from a traditional warfighting perspective stability operations might be viewed as having little to do with preparing for high intensity conventional combat these kinds of operations in fact correspond to traditional missions related to diplomacy engagement maritime domain awareness piracy and smuggling and intervention to quell civil disturbances SSTR operations can be therefore depicted as a return to traditional naval operations albeit operations that might not be universally welcomed in all quarters

South East Asia: Colonial History V1 Paul Kratoska, 2022-01-26 First published in 2004 The six volumes that make up this set provide an overview of colonialism in South East Asia The first volume deals with Portuguese Spanish and Dutch Imperialism before 1800 the second with empire building during the Nineteenth Century and the third with the imperial heyday in the early Twentieth Century The remaining volumes are devoted to the decline of empire covering nationalism and the Japanese challenge to the Western presence in the region and the transition to independence The authors whose works are anthologised include both official participants and scholars who wrote about events from a more detached perspective Wherever possible authors have been chosen who had first hand experience in the region Volume I includes Imperialism in South East Asia before 1800
