Rise Above:

Rise Above Greg Little, 2011-09-01 *Rise Above* is a detailed description of one man's journey of conquering adversity. You will read how the writer survived a near fatal motor vehicle accident which resulted in three skull fractures, a bruised brain, an eight-day coma, and having to relearn how to walk and talk made all the more challenging by a lingering speech impediment acquired in childhood. Stuttering is an awful burden for a person to carry throughout life. Children can be cruel. The writer's utmost fear, speaking in public, would one day be an ally and allow him to present programs extensively throughout the United States. This book is not about surviving adversity; it's about thriving beyond adversity. Greg Little, a nationally renowned speaker and motivator, has presented to diverse groups including health care, business, and professional organizations and educational institutions. His programs emphasize active involvement by participants. Whether teaching professionals to cope with stress, bond as a productive group, or realize their hidden strengths, his seminars and keynote addresses are hard hitting and memorable. During one of Greg's presentations, I was laughing so hard that tears were literally streaming down my face. Dr. Ed Kesgen, Sylva, NC. One of the most energized, creative, and innovative presentations I have ever experienced. Jim Brennan, National Consultant, Wilbraham, MA. Dr. Greg Little is a superb speaker. This is an excellent investment in continuing education. Nancy DeBolt, Torrington, WY.

Rise Above Greg Justice, Kelli Watson, Jeremy Belter, Donna Fatigato, Gonzalo Helguero, Tiffany Gustafson, Nancy Troast, Jenn Arnold, 2018-05-15 As a mentor and coach, I am fortunate to be able to IMPACT and transform lives. My purpose to create, motivate, and inspire people to greatness means that I have an opportunity to change people's lives for the better. That mission inspires and motivates me every single day. In my roles as a performance coach, trainer, speaker, and business owner, I have had the opportunity to work with some of the world's best athletes including NFL MVPs, MLB and NBA All Stars, Super Bowl champions, and Olympic gold medalists. I have worked with business owners and executives worth billions of dollars, and as a Mastermind coach, I mentor, coach, and work with all types of leaders in the sports, training, health, and fitness industries. One thing I tell everyone I work with is that when you have a deep desire to maximize potential and help people become the best version of themselves, then you have the power to transform lives. That is an incredible gift, and it's one that really fires me up. This book that you are holding in your hands has the power to transform your life as well. These eight authors are going to share their stories with you. They are teachers, business owners, fitness professionals, entrepreneurs, and coaches. Although they come from all walks of life, they have one thing in common: they are all real people who made a choice to RISE ABOVE the challenges in their lives and use what they have learned to make a meaningful contribution to the world. In these pages, you will read about the heartache, the physical pain, and the emotional challenges that each of these authors have faced, and you will learn the steps they have taken to overcome their circumstances. You will discover that even in times of deep sorrow, there is hope. You will learn that there are some universal truths about overcoming the odds, steps that every one of us can take when we are faced with something

Vanden Bossche,2014-02-01 How Victorian novels imagined the idea of social agency Reform Acts offers a new approach to prominent questions raised in recent studies of the novel By examining social agency from a historical rather than theoretical perspective Chris R Vanden Bossche investigates how particular assumptions involving agency came into being Through readings of both canonical and noncanonical Victorian literature he demonstrates that the Victorian tension between reform and revolution framed conceptions of agency in ways that persist in our own time Vanden Bossche argues that Victorian novels sought to imagine new forms of social agency evolving from Chartism the dominant working class movement of the time Novelists envisioned alternative forms of social agency by employing contemporary discourses from Chartism's focus on suffrage as well as the means through which it sought to obtain it such as moral versus physical force land reform and the cooperative movement Each of the three parts of Reform Acts begins with a chapter that analyzes contemporary conversations and debates about social agency in the press and in political debate Succeeding chapters examine how novels envision ways of effecting social change for example class alliance in Barnaby Rudge landed estates as well as finely graded hierarchy and politicians in Coningsby and Sybil and reforming trade unionism in Mary Barton and North and South By including novels written from a range of political perspectives Vanden Bossche discovers patterns in Victorian thinking that are easily recognized in today's assumptions about social hierarchy *Information Circular* ,1993

One of the significant advantages of Rise Above books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes.
