# Rise Of The Imperial Self Americas Culture Wars In Augustinian Perspective

**David W. Henderson**

## **Rise Of The Imperial Self Americas Culture Wars In Augustinian Perspective:**

**The Rise of the Imperial Self** Ronald William Dworkin, 1996      **The Rise of the Imperial Self** Ronald William Dworkin, 1996 The Rise of the Imperial Self establishes a genealogy of aristocracy and places America firmly within an aristocratic tradition originally articulated by St Augustine but adapted to American society by Alexis de Tocqueville Ronald W Dworkin then traces the evolution of American culture from Tocqueville's America when American aristocracy was defined by a love of something beyond the self to today's preoccupation with individuality self expression autonomy and self esteem the imperial self      **Cultural Wars in American Politics** Rhys H. Williams, That contemporary American politics is divided into two differing ideological moral and lifestyle groups a divide so severe as to constitute a cultural war is a widely held popular belief The most systematic academic version of the culture wars claim has appeared in two influential books by sociologist James Davison Hunter the earlier dating from 1991 Hunter's formulation of the myth serves the contributors to this volume as a point of departure They add more measured analyses to the rhetorical overstatement in Hunter's claim assessing its accuracy with a broad range of evidence based on individual attitudes subcultural values political party dynamics and culture wide ideological currents On every level of analysis the contributors find that Hunter's bipolar axis obscures the variety of ways in which culture actually functions in current politics That variety receives the nuanced treatment it deserves in this collection Examining the full range of sources of cultural politics and offering competing models for understanding the current ideological landscape this volume will be useful in a variety of classroom and seminar settings from political sociology and social movements to contemporary American culture and the sociology of religion      Religion and Reality TV Mara Einstein, Katherine Madden, Diane Winston, 2018-04-17 Why is reality television flourishing in today's expanding media market Religion and Reality TV Faith in Late Capitalism argues that the reality genre offers answers to many of life's urgent questions Why am I important What gives my life meaning How do I present my best self to the world Case studies address these questions by examining religious representations through late capitalist lenses including the maintenance of the self the commodification of the sacred and the performance of authenticity The book's fourteen essays explore why religious themes proliferate in reality TV audiences fascination with lived religion and the economics that make religion and reality TV a successful pairing Chapters also consider the role of race gender and religion in the production and reception of programming Religion and Reality TV provides a framework for understanding the intersection of celebrity media attention beliefs and values The book will be of interest to students and scholars of religion and media studies communication American studies and popular culture      **Culture Shift** David W. Henderson, 1998-11-01 A map of today's cultural landscape guiding Christians toward more effective communication with the postmodern world      Law, Person, and Community John J. Coughlin, 2012-04-19 This publication takes up the fundamental question What is law through a comparative study of canon law and secular legal theory The book also includes comparative consideration of the failure of

canon law to address the clergy sexual abuse crisis the canon law of marriage administrative law the rule of law and much more     Sanctuary Ordinances Nicholas P. Lovrich, John C. Pierce, Christopher A. Simon, 2021-04-30 The book examines contemporary immigration policy and immigrant assimilation with a focus on the adoption of sanctuary ordinances in US local governments in connection with Latino in migration It also investigates the adoption of anti immigrant settlement local ordinances in many local governments with particular focus on local law enforcement positions taken on enforcement of federal immigration laws The book investigates a wide range of county level characteristics of 3 000 U S counties e g socio economic and demographic traits political culture social capital religious denominations present etc to identify correlates of pro and anti immigrant settlement The book also features the analysis of a national survey and three targeted surveys in pro immigration San Francisco divided Maricopa and anti immigration Tulsa counties to explore the individual level factors associated with sentiments on immigration policy Finally the book presents findings from two case studies where active encouragement of Latino settlement Twin Falls ID and active opposition Hazleton PA characterize local reaction to Latino in migration The mixed methods study leads the authors to conclude that a funnel of causality concept path dependency pro social attitudes and the concepts of moral panic and moral dialogue collectively lead to great insight into the question of why some communities are open and accepting while others are exclusionary     **The Modern Construction and Postmodern Deconstruction of Self** Kire Sharlamanov, Mia Kostovska, 2025-02-21 This book aims to explain the self as understood decades ago and its evolution in the time of postmodernism Approaching it primarily from a sociological perspective while incorporating insights from psychology and philosophy it portrays the modern self as a unitary coherent unified subject created in the time of modernity which during postmodernism has evolved into a fluid decentralized and fragmented subject with increasingly independent multiple identities The creation of the modern self has been influenced by individualization rationalization and power Each factor is explored in a separate chapter detailing its impact on the development of the modern Cartesian self The authors draw on the theories of Goffman Bauman and Baudrillard to illustrate the changing nature of the self viewing it as a performer a fluid entity and a simulacrum While Goffman is not strictly a postmodern author his ideas foreshadow postmodernism particularly regarding the transformation of the self Bauman and Baudrillard as key figures in postmodern thought provide valuable insights into this transformation of the self in contemporary times The book uniquely connects two time periods in which the self evolves arguing that social factors influence its changing characteristics As these social factors shift over time so does the self Key aspects of the self and its evolution are examined through an original multidimensional approach that spans a longer time interval     Heresy Alister McGrath, 2010-11-02 Why the Church must defend the truth Our ongoing fascination with alternative Christianities is on display every time a never before seen gospel text is revealed an archaeological discovery about Jesus makes front page news or a new work of fiction challenges the very foundations of the church Now in a timely corrective to this trend renowned church historian Alister McGrath examines the

history of subversive ideas overturning common misconceptions that heresy is somehow more spiritual or liberating than traditional dogma In so doing he presents a powerful compassionate orthodoxy that will equip the church to meet the challenge from renewed forms of heresy today The Politics of Truth and Other Untimely Essays Ellis Sandoz,1999 This volume explores the historical and theoretical underpinnings of personal liberty and free government and provides an analysis of the crisis of civic consciousness endangering both Human Dignity and Contemporary Liberalism Brad Stetson,1998-01-21 The author of Human Dignity and Contemporary Liberalism argues that the nature and application of contemporary liberalism is significantly dissonant with the deepest inclinations and most persistent moral sentiments of human beings and it therefore distorts human self understanding and defaces human dignity This mismatch between human nature and the essence of contemporary liberalism hobbles our public life and the author suggests is the Gordian knot that must be loosed if the new millennium is to manifest a more humane and satisfying American civitas This wide ranging book begins with a discussion of certain consequences and implications of contemporary liberalism s heavy emphasis on individual rights moving into a reflection on two general categories of human dignity suggesting that there is in contemporary liberal thought a lack of clarity concerning the meaning and gravity of this concept The focus then shifts to the idea of desert or deservingness The viability of desert rightly understood is advanced as a useful general concept for understanding American public life and as an important tool for restoring a measure of common sense to our politics The second section of the book concentrates on the actual application of contemporary liberalism s values as it has occurred since the 1960s particularly in the culturally contentious areas of race and abortion Emerging from this survey is an unflattering image of a political paradigm which according to the author must be abandoned or at least radically revised if America is to strike a posture of moral intensity and genuine social understanding Religion and Personal Law in Secular India Gerald James Larson,2001-11-28 Though a directive principle of the constitution a uniform civil code of law has never been written or instituted in India As a result in matters of personal law the segment of law concerning marriage dowry divorce parentage legitimacy wills and inheritance individuals of different backgrounds must appeal to their respective religious laws for guidance or rulings But balancing the claims of religious communities with those of a modern secular state has caused some intractable problems for India as a nation Religion and Personal Law in Secular India provides a comprehensive look into the issues and challenges that India faces as it tries to put a uniform civil code into practice Contributors include Granville Austin Robert D Baird Srimati Basu Kevin Brown Paul Courtright Rajeev Dhavan Marc Galanter Namita Goswami Laura Dudley Jenkins Jayanth Krishnan Gerald James Larson John H Mansfield Ruma Pal Kunal M Parker William D Popkin Lloyd I Rudolph Susanne Hoeber Rudolph Sylvia Vatuk and Arvind Verma **Red and Blue Nation?** Pietro S. Nivola,David W. Brady,2007-05-01 A Brookings Institution Press and the Hoover Institution publication Analysts and pundits increasingly perceive a widening gulf between red states and blue states Yet the research to support that perception is scattered and

sometimes difficult to parse America's polarized politics it is said poses fundamental dangers for democratic and accountable government Heightened partisanship is thought to degrade deliberation in Congress and threaten the integrity of other institutions from the courts to the media But how deep do the country's political divisions actually run Are they truly wreaking havoc upon the social fabric Has America become a house divided This important new book *Red and Blue Nation* gets to the bottom of this perplexing issue The first of two volumes cosponsored by Brookings and the Hoover Institution carefully considers the extent to which polarized views among political leaders and activists are reflected in the population at large It pays particular attention to factors such as the increased influence of religion and the changing nature of the media The authors show that while the severity of the country's culture wars is often overstated significant fissures have opened In *Red and Blue Nation* leading journalists and scholars combine their different insights to enrich our understanding of the issue offering thoughtful analyses of the underlying problems This comprehensive and accessible discussion of the polarization debate will be an essential resource for policymakers scholars and anyone interested in the health of American public discourse Contributors include Alan I Abramowitz Emory University David W Brady Hoover Institution Peter Beinart The New Republic Sarah A Binder Brookings Institution James Campbell State University of New York at Buffalo Carl Cannon National Journal E J Dionne Jr Brookings Institution Gregg Easterbrook Brookings Institution Thomas B Edsall Washington Post Morris P Fiorina Hoover Institution William A Galston *Culture Wars* Mary E. Williams, 2003 Authors offer various opinions on the state of America's culture wars and on whether or not government should regulate cultural values *The Routledge Handbook of Heritage and Gender* Jenna C. Ashton, 2025-05-30 The Routledge Handbook of Heritage and Gender offers an exceptional range of international contributions that interrogate and analyse the interactions within and between heritage and gender Taking an intersectional and global approach the Handbook opens up space for a more critical and situated consideration of how gender comes into contact with heritage as a concept and practice The volume considers heritage in the broadest sense as a concept performance and materialisation The contributions also consider how heritage impacts identity power people values politics and ethics as well as processes and sites across material culture nature and intangible practices The volume and its contributions are inclusive of cisgender trans non binary agender and intersex identities Reflecting the multidisciplinary and transnational voices of its authors the collection challenges readers to consider what a focused analysis of heritage and gender can offer heritage studies as an evolving discipline and field of study The Routledge Handbook of Heritage and Gender will be of interest to academics and students working in Heritage Studies Museum Studies Art History History Anthropology Gender and Women's Studies and International Development *Current Contents*, 1999 *The Legal Studies Forum*, 1998 ***Waseda Journal of Asian Studies***, 2002 *Blessed are the Cynical* Mark Ellingsen, 2003 This timely analysis shows how America's therapeutic feel good culture has corrupted politics education and business A must read for socially conscious Christians *The Conscious Reader* Allyn & Bacon, Incorporated, 2000-08
