Orientalism Robert G. Lee, 2011-01-19 Sooner or later every Asian American must deal with the question Where do you come from It is probably the most familiar if least aggressive form of racism It is a tip off to the persistent notion that people of Asian ancestry are not real Americans that Orientals never really stop being loyal to their foreign homeland no matter how long they or their families have been in this country Confronting the cultural stereotypes that have been attached to Asian Americans over the last 150 years Robert G Lee seizes the label Oriental and asks where it came from The idea of Asians as mysterious strangers who could not be assimilated into the cultural mainstream was percolating to the surface of American popular culture in the mid nineteenth century when Chinese immigrant laborers began to arrive in this country in large numbers Lee shows how the bewildering array of racialized images first proffered by music hall songsters and social commentators have evolved and become generalized to all Asian Americans coalescing in particular stereotypes Whether represented as Pollutant Coolie Deviant Yellow Peril Model Minority or Gook the Oriental is portrayed as alien and a threat to the American family the nation writ small Refusing to balance positive and negative stereotypes Lee connects these stereotypes to particular historical moments each marked by shifting class relations and cultural crises Seen as products of history and racial politics the images that have prevailed in songs fiction films and nonfiction polemics are contradictory and complex Lee probes into clashing images of Asians as for instance seductively exotic or devious despoilers of white racial purity admirably industrious or an insidious threat to native laborers When Lee dissects the ridiculous villainous or pathetic characters that amused or alarmed the American public he finds nothing generated by the real Asian American experience whether they come from the Gold Rush camps or Hollywood films or the cover of Newsweek these inhuman images are manufactured to play out America's racial myths Orientalism comes to grips with the ways that racial stereotypes come into being and serve the purposes of the dominant culture
