G. Bryson, 2022-02-07 The religious belief in personal immortality depends on the evidence for the existence of God an immaterial soul or mind and human nature We also need to support the view that God will always want to maintain relationships with us in the afterlife So immortality is

a hard sell The suffering of innocent victims suggests that the existence of a loving God is not self evident Furthermore the soul s separation from the body at death raises the troublesome problem of personal identity How can that be me in the afterlife without my body The tradition from Plato to Descartes plants the seed of personal immortality in our rational nature But the deconstruction of human nature suggests that our species is not special Yet the belief in immortality lingers The first step in the reconstruction of personal immortality is found in systems theory or belief that the whole individuates the part This view suggests that we are the outcome of relationships rather than eternal natures entering into relationships We are the product of relationships taking place at three basic levels 1 In psyche where being human is the result of a tendency toward good and evil 2 As social entities where the existence of other human beings individuates us 3 In being s unconcealment where the intelligibility of things provides a foundation for epistemic life Heidegger s view of the nothing or horizon surrounding being allows us to identify God as creator entering into personal relationships with us a view supported by contemporary science That will be me in the afterlife if the relationships that individuate me in my pre mortem state continue into my post mortem existence The reversal in being s unconcealment suggests that human death continues the cycle of personal existence **Start Now. Jagged Truth Emily Kimelman, Robert Maxim s smirk feels a little like home like the scary exciting basement steps with their shadows and hints of unnatural powers A cold wind rushes across the fallow corn field pulling at my cargo pants and dipping into the open neck of my long overcoat It s too large for me drooping off the shoulders and buttoned around my son James as he sleeps against my chest in his baby carrier Blue s nose taps my hip My son s breath warms my chest This is home They say you can t ever go home again but I think they re wrong No matter where I stand as long as I have these two with me I am home Robert Maxim on the other hand I know I don t belong with him although he doesn t agree The man is richer and more powerful than anyone should be He holds as much sway over our world as the basement steps over the imagination of a child it s a death grip that makes no sense Here he stands now the same cold wind bracketing me teasing his hair sable but silvered at the temples just like a real villain His ebony coat fits him perfectly the material the kind of soft black that absorbs light When we are ten feet away Robert stirs moving forward to meet us Sydney he says in that voice of his looking at me with those oceanic eyes smiling with that smirk Robert s gaze drops to Blue Blue he says nodding a greeting Blue s tail wags and he lets out a warble Robert s smirk spreads into a smile Blue doesn t hate Robert Maxim Which is a point in Robert s favor But there are too many checkmarks in the this guy is a dangerous psychopath column to totally trust Blue s assessment that he shouldn t be mauled on sight Robert I say tilting my chin up His gaze shifts to the bulge under my coat My arms circle James The black wool coat reaches past my knees covering James s body keeping him hidden and warm He s asleep I ve so looked forward to meeting him I spent James s entire life all eleven months of it hiding Not just from Robert Maxim but he was one of the key components that made me want to bury myself away from the world I may believe you can find home no matter where you are but that also means you can t ever run away from yourself Wherever you go there you are and in my case Robert Maxim is there too I left you Robert You must realize that I m not going to let you be in my son s life No His gaze drops to the top of James s head He leans forward to get a peek at his face and the emotion that steals over Robert Maxim breaks off a piece of my heart and runs away with it You can have it all Robert says Any thing or person you desire He throws the word desire at me like it s mine like I should own it All of your wants and needs can be met You just have to allow yourself to have them His eyes come back to mine Can you do that Sydney Let yourself have everything you want How do I get you to just leave me alone His nostrils flare and the skin around his eyes tighten You can have that too I m not here to force you into my bed Sydney I m here to save your life P S The dog does not die Beware If you can t handle a few f bombs you can t handle this series

Cancer: 100 Ways to Fight John Roberts,2010-03-29 Cancer 100 Ways to Fight Your own attitude is your brightest guiding star Some of success is doing what you like to do But more of it is doing the things you don t like to do but must It is too easy to make an excuse and not do it and fail John Roberts As this book goes to press early in 2010 I am 75 and into my fifth year with incurable metastatic prostate cancer which had already spread to the bones before cancer was

diagnosed and the prostate removed The statistical prognosis for the current treatments of choice is that one half of these patients will die within three years 75% within five This usually happens after the standard treatments and chemotherapy fail and must be discontinued due to harmful side effects or weakening effectiveness resumed cancer growth and the failure of bones or key organs I am still feeling fine no pain living a normal life and I have completed eight months of chemotherapy with a 63% drop in my PSA prostate cancer blood test without major side affects or rising PSA I have fought this cancer and its personal consequences in more than a hundred ways as described here Above all a lifetime of fitness and my current excellent physical and mental condition supplemented by great medical care and everything else I can learn or think of is partially responsible for my success in living beyond the average life span for my particular fatal disease We cannot know which weapon or how much each one contributes to the extension of life so we must use them all The doctors all say that cancer survival is very unpredictable and I figured that many of the positive outcomes must depend on how comprehensively and how hard the individual fights So I immediately started this book and organized my fight I was extremely unfortunate most prostate cancer either is so slow growing or eliminated by removal that survivors live for many years In my case it had already spread or metastasized to the bones prior to the operation and that cancer is inoperable and incurable But some people in that condition die very early while others like me live much longer This is highly unpredictable in individual cases due to variation in patient condition treatment effectiveness and other unknowns More than half of all people newly diagnosed with cancer will be cured or given extended remission They will die of something else Of the other half a large number have treatable cancer and they still have many years to live The remainder probably including me have learned that they have incurable cancer that has grown too strong or spread and taken root in such places that it cannot be killed or removed and death is likely in the next few months or years Nevertheless normally incurable cancer and conventional predictability sometimes fail and others may prolong life by fighting with strong mental and physical effort As the disease progresses and is treated and science advances sometimes in great leaps we are rarely sure of which group we are in That uncertainty that hope and the dreadful power of cancer call for great strength of character and effort in both patients and those around them This book is about that The animal instinct to survive is in humans alone expanded in our unique cortex to something much greater the intelligent understanding of self awareness and an intense desire to prolong the experience growth and emotion of life The human spirit beyond the mere motivation of existence is largely responsible for all that our species has conquered and achieved It is an essential quality to be trained treasured and put to use and one of the finest ways is to survive continue and improve our exceptional life through our collective and individual intellect In the last century medical science the visibility of living in distant years and the recognition that we are and can be responsible for increasing our own longevity have ad
