Risk Management, Derivatives and Financial Analydsis Under SFAS Gary Gastineau, Donald Smith, 2001-04-18

Senior Vice President New Products Development at the American Stock Exchange Risk management is concerned with the tradeoffs between financial risk and reward that inevitably face a firm s managers its board of directors and ultimately its shareholders Although risk management itself is not new what is new are the complicated financial instruments being used to manage risk instruments that are frequently classified under the seemingly simple category of derivatives Use of these instruments have largely gone unreported in financial statements much to the dismay of financial analysts and in contrast to their ideal of transparency This volume explains firm s use of risk management practices and how those practices can be accounted Coverage includes a practical and theoretical basis for risk management information on how a firm s use of derivatives affects financial analysts recent reforms in accounting for derivatives Fundamentals of Futures and options markets John Hull, Sirimon Treepongkaruna, David Colwell, Richard Heaney, David Pitt, 2013-09-12 This first Australasian edition of Hull s bestselling Fundamentals of Futures and Options Markets was adapted for the Australian market by a local

team of respected academics Important local content distinguishes the Australasian edition from the US edition including the unique financial instruments commonly traded on the Australian securities and derivatives markets and their surrounding conventions In addition the inclusion of Australasian and international business examples makes this text the most relevant and useful resource available to Finance students today Hull presents an accessible and student friendly overview of the topic without the use of calculus and is ideal for those with a limited background in mathematics Packed with numerical examples and accounts of real life situations this text effectively guides students through the material while helping them prepare for the working world For undergraduate and post graduate courses in derivatives options and futures financial engineering financial mathematics and risk management
