The Routledge Companion to Surrealism Kirsten Strom, 2022-11-08 This book provides a conceptual and global overview of the field of Surrealist studies Methodologically the companion considers Surrealism's many achievements but also its historical shortcomings to illuminate its connections to the historical and cultural moments from which it originated and to assess both the ways in which it still shapes our world in inspiring ways and the ways in which it might appear problematic as we look back at it from a twenty first century vantage point Contributions from experienced scholars will enable professors to teach the subject more broadly by opening their eyes to aspects of the field that are on the margins of

their expertise and it will enable scholars to identify new areas of study in their own work by indicating lines of research at a tangent to their own. The companion will reflect the interdisciplinarity of Surrealism by incorporating discussions pertaining to the visual arts as well as literature, film and political and intellectual history.

Cosmopolitan Film Cultures in Latin America, 1896-1960 Rielle Navitski, Nicolas Poppe, 2017-06-19 *Cosmopolitan Film Cultures in Latin America* examines how cinema forged cultural connections between Latin American publics and film exporting nations in the first half of the twentieth century. Predating today's transnational media industries by several decades, these connections were defined by active economic and cultural exchanges as well as longstanding inequalities in political power and cultural capital. The essays explore the arrival and expansion of cinema throughout the region from the first screenings of the Lumière Cinématographe in 1896 to the emergence of new forms of cinephilia and cult spectatorship in the 1940s and beyond. Examining these transnational exchanges through the lens of the cosmopolitan, which emphasizes the ethical and political dimensions of cultural consumption, illuminates the role played by moving images in negotiating between the local, national and global, and between the popular and the elite in twentieth-century Latin America. In addition, primary historical documents provide vivid accounts of Latin American film critics, movie audiences and film industry workers' experiences with moving images produced elsewhere: encounters that were deeply rooted in the local context yet also opened out onto global horizons.

Blanton Museum of Art: Latin American Collection Blanton Museum of Art, 2006-03 The Blanton Museum of Art's Latin American catalogue will be the first publication in the museum's history to present a complete and in-depth study of the institution's notable Latin American collection. The Blanton's holdings comprise one of the oldest, largest and most comprehensive collections of modern and contemporary Latin American art in the country and include works by many artists not represented elsewhere in U.S. collections. The collection contains more than 1,800 modern and contemporary paintings, prints, drawings and sculptures reflecting the great diversity of Latin American art and culture. More than six hundred artists from Mexico, South and Central America and the Caribbean are represented in the collection. This beautifully illustrated catalogue features 102 artists from the Blanton's Latin American collection such as Joaquín Torres García, Julio Alpuy, Gonzalo Fonseca, Luis Felipe Noé, Rómulo Macci Jorge de la Vega, Antonio Segú, Luis Camnitzer and Cildo Meireles. New and emerging artists such as Jorge Macchi and Cristóvão Silva are also represented. The catalogue includes essays and object entries by a host of distinguished contributing writers that provide an opportunity for new interpretation and insight into this significant collection and the field of Latin American art in general.
