Daniel A. Nathan, 2013-05-01 Rooting for the Home Team examines how various American communities create and maintain a sense of collective identity through sports Looking at large cities such as Chicago Baltimore and Los Angeles as well as small rural towns suburbs and college towns the contributors consider the idea that rooting for local athletes and home teams often symbolizes a community's preferred understanding of itself and that doing so is an expression of connectedness public pride and pleasure and personal identity Some of the wide ranging essays point out that financial interests also play a significant role in encouraging fan bases and modern media have made every seasonal sport into yearlong obsessions Celebrities show up for big games politicians throw out first pitches and taxpayers pay plenty for new stadiums and arenas The essays in Rooting for the Home Team cover a range of professional and amateur athletics including teams in basketball football baseball and even the phenomenon of no glove softball Contributors are Amy Bass Susan Cahn Mark Dyreson Michael Ezra Elliott J Gorn Christopher Lamberti Allison Lauterbach Catherine M Lewis Shelley Lucas Daniel A Nathan Michael Oriard Carlo Rotella Jaime Schultz Mike Tanier David K Wiggins and David W Zang No Game for Boys to Play

Kathleen Bachynski, 2019-11-25 From the untimely deaths of young athletes to chronic disease among retired players roiling debates over tackle football have profound implications for more than one million American boys some as young as five years old who play the sport every year In this book Kathleen Bachynski offers the first history of youth tackle football and debates over its safety In the postwar United States high school football was celebrated as a moral sport for young boys one that promised and celebrated the creation of the honorable male citizen Even so Bachynski shows that throughout the twentieth century coaches sports equipment manufacturers and even doctors were more concerned with saving the game than young boys safety even though injuries ranged from concussions and broken bones to paralysis and death By exploring sport masculinity and citizenship Bachynski uncovers the cultural priorities other than child health that made a collision sport the most popular high school game for American boys These deep rooted beliefs continue to shape the safety debate and the possible future of youth tackle football *King Football* Michael Oriard, 2005-12-15 This landmark work explores the vibrant world of football from the 1920s through the 1950s a period in which the game became deeply embedded in American life

Though millions experienced the thrills of college and professional football firsthand during these years many more encountered the game through their daily newspapers or the weekly Saturday Evening Post on radio broadcasts and in the newsreels and feature films shown at their local movie theaters Asking what football meant to these millions who followed it either casually or passionately Michael Oriard reconstructs a media created world of football and explores its deep

entanglements with a modernizing American society Football claims Oriard served as an agent of Americanization for immigrant groups but resisted attempts at true integration and racial equality while anxieties over the domestication and affluence of middle class American life helped pave the way for the sport's rise in popularity during the Cold War Underlying these threads is the story of how the print and broadcast media in ways specific to each medium were powerful forces in constructing the football culture we know today

Discipline and Indulgence Jeffrey Montez de Oca, 2013-07-31 The early Cold War 1947-1964 was a time of optimism in America Flushed with confidence by the Second World War many heralded the American Century and saw postwar affluence as proof that capitalism would solve want and poverty Yet this period also filled people with anxiety Beyond the specter of nuclear annihilation the consumerism and affluence of capitalism's success were seen as turning the sons of pioneers into couch potatoes In *Discipline and Indulgence* Jeffrey Montez de Oca demonstrates how popular culture especially college football addressed capitalism's contradictions by integrating men into the economy of the Cold War as workers warriors and consumers In the dawning television age college football provided a ritual and spectacle of the American way of life that anyone could participate in from the comfort of his own home College football formed an ethical space of patriotic pageantry where men could produce themselves as citizens of the Cold War state Based on a theoretically sophisticated analysis of Cold War media *Discipline and Indulgence* assesses the period's institutional linkage of sport higher education media and militarism and finds the connections of contemporary sport media to today's War on Terror
