Human Robots in Myth and science John Cohen, 2025-05-30 First published in 1966 in *Human Robots in Myth and Science* the author traces the idea of the robot from antiquity until the present day 1960s and sketches the lines of its likely development in the future Modern science like science fiction is deeply concerned with the idea of a robot or self regulating artifact which operates without human aid Ultra rapid computers pilotless planes and automated factories straight away come to mind but there are numberless other automatic devices As John Cohen probes this exciting theme it becomes increasingly clear that the notion of a robot has had far reaching repercussions in the history of science philosophy and literature and in the growth of industry In his analysis of the motives of robot makers throughout the ages the author distinguishes the impulse which challenges the gods themselves from the merely utilitarian urge There is a vast difference between the age old quest for technical skill and the desire to wrest from the gods the secret of making a man The topic is treated historically beginning with Biblical Egyptian Greek and other antique robots and their significance and followed by a description of the man made men of medieval science alchemy and fiction The theory of robots come into its own in the seventeenth century and its

application in craftsmanship in industry in the eighteenth century It is only in the recent past however that the world of robots has begun to flourish in an ever growing scale In the age of AI this historical reference work is a must read for scholars and researchers of history philosophy and literature *New York Magazine* ,1986-05-26 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Children's Literature in India** Navin Menon,Bhavana Nair,1999 Contributed articles *The Time Out Film Guide* Tom Milne,1989
