*The Re-Enchantment of the West, Vol 2* Christopher Partridge, 2006-06-20 Challenging some assessments of religion in the West this study argues that although much organized religion particularly Christianity is in numerical decline in actual fact we are witnessing an alternative spiritual re enchantment of society and culture The World Turned Upside Down Melanie Phillips, 2011-12-13 In what we tell ourselves is an age of reason we are behaving increasingly irrationally An astonishing number of people subscribe to celebrity endorsed cults Mayan armageddon prophecies scientism and other varieties of new age anti enlightenment philosophies Millions more advance popular conspiracy theories AIDS was created in a CIA laboratory Princess Diana was assassinated and the 9 11 attacks were an inside job In *The World Turned Upside Down* Melanie Phillips explains that the basic cause of this explosion of irrationality is the slow but steady marginalization of religion We tell ourselves that faith and reason are incompatible but the opposite is the case It was Christianity and the Hebrew Bible Phillips asserts that gave us our concepts of reason progress and an orderly world on which science and modernity are based Without its religious traditions the West has drifted into mass derangement where truth and lies right and wrong victim and aggressor are all turned upside down Scientists skeptical of global warming are hounded from their posts Israel is demonized and the US is vilified over the war on terror all on the basis of blatant falsehoods and obscene propaganda Worst of all asserts Phillips this abandonment of rationality leaves the West vulnerable to its legitimate threats Faced with the very real challenges of spiraling demographics and violent confrontational Islamism the West is no longer willing or able to defend the modernity and rationalism that it once brought into being Phenomenal World Joan D'Arc, 2000-11 For centuries mankind has been exploring the nature of reality The materialistic scientific worldview would have us believe that physically measurable phenomena are all that exist Yet the answers to the key of reality go far beyond this mindset This book explores the clues we have about the nature of reality especially those aspects that cannot yet be proven If we can understand the most baffling aspects of reality then we will move closer toward understanding its ultimate cause and nature **Linguistics and the Third Reich** Christopher Hutton, 2012-10-12 This book presents an insightful account of the academic politics of the Nazi era and analyses the work of selected linguists including Jos Trier and Leo Weisgerber Hutton situates Nazi linguistics within the politics of Hitler's state and within the history of modern linguistics
