Robot Ecology and the Science Fiction Film J. P. Telotte, 2016-01-22 This book offers the first specific application in film studies of what is generally known as ecology theory shifting attention from history to the in this case media environment It takes the robot as its subject because it has attained a status that resonates not only with some of the key concerns of contemporary culture over the last century but also with the very nature of film While the robot has given us a vehicle for exploring issues of gender race and a variety of forms of otherness and increasingly for asking questions about the very nature and meaning of life this image of an artificial being typically anthropomorphic also invariably implicates the cinema's own and quite fundamental artificing of the human Looking across genres across specific media forms and across closely linked conceptualizations Telotte sketches a context of interwoven influences and meanings The result is that this study of the cinematic robot while mainly focused on science fiction film also incorporates its appearance in for example musicals cartoons television advertising toys and literature

Robot Zombies Xaviant Haze, Estrella Equino, 2015-09-28 How advanced is the technology that exists today what are we using it for and can machines turn on their human creators What is transcendence and why will we all be familiar with it Technology is growing exponentially and the moment when it merges with the human mind called The Singularity is visible in our imminent future Can humans limited by slow biological evolution compete with synthetic intelligence Science and technology are pushing forward transforming life as we know it perhaps even giving humans a shot of immortality Who will benefit from this Where did the idea of robots originate and why are humans fearful of decision making robots that may be able to create goals and objectives and work toward achieving them This book examines the history and future of robotics artificial intelligence zombies and a Transhumanist utopia dystopia integrating man with machine How did it all begin and what's in store for humans today in the near future and in the distant future Haze and Equino explore the fascinating role of artificial intelligence from a practical human perspective and discover that the mind altering process necessary to accept and integrate with the inevitable is already underway molding human consciousness

The Truth About Us Sanjoy Chakravorty, 2019-05-07 India has an information space packed with numerous sources and agents from politicians and activists to profiteers and extortionists all competing for attention and legitimacy in a growing information market Whom does one believe The political manipulation and simplification of information about a dizzyingly

complex society have fashioned certain truths about India. These truths have resulted in the creation of major religious and caste identities which have been the defining features of the country's politics and history for over 200 years. An unsparing study of how this situation has come about. *The Truth about Us* explores answers to crucial questions: Is India a homogenous Hindu nation sprinkled with minorities or a pluralistic heterogeneous one? Is our knowledge of the inequalities in our society founded on facts or perceptions? What are the real origin stories of India's social categories and how are they being constructed and challenged today? At a time when India is in the throes of an existential debate convulsed by contesting claims over identity and history, Hindutva and Dalit consciousness, nationalism and freedom of speech and the rights and realities of minorities, this deeply provocative book is urgent reading for every thinking Indian. **The Handbook of the Psychology of Communication Technology** S. Shyam Sundar, 2015-01-20. The Handbook of the Psychology of Communication Technology offers an unparalleled source for seminal and cutting edge research on the psychological aspects of communicating with and via emergent media technologies with leading scholars providing insights that advance our knowledge on human technology interactions. A uniquely focused review of extensive research on technology and digital media from a psychological perspective. Authoritative chapters by leading scholars studying psychological aspects of communication technologies. Covers all forms of media from Smartphones to Robotics from Social Media to Virtual Reality. Explores the psychology behind our use and abuse of modern communication technologies. New theories and empirical findings about ways in which our lives are transformed by digital media. ***WE: ROBOT*** David Hambling, 2018-06-07. For someone interested in practical present day robotics, it's a treasure trove. A book sized Top Trumps rove across the technical domain with each section containing a photo of the precise robot, an overview of its main components and some context for its aims and purposes. *Electronics Weekly*. Robots exist all around us. They populate our factories, assist our surgeons and have become an integral part of our armed forces. But they are not just working behind the scenes: impressive inventions such as free roaming hoovers, take care of your household chores and the iPal is set to become your closest friend. David Hambling reveals the groundbreaking machines, once the realm of science fiction, that are by our sides today and those that are set to change the future forever. From the Reem robocop that polices the streets of Dubai to the drones that deliver our parcels and even the uncanny Gemonoid Hi 4 built to look just like you, here are fifty unique robots that reach into every aspect of our daily lives. *We Robot* examines why robots have become embedded in our culture, how they work and what they tell us about our society and its future. ***Research Handbook on Meaningful Human Control of Artificial Intelligence Systems*** Giulio Mecacci, Daniele Amoroso, Luciano Cavalcante Siebert, David Abbink, Jeroen van den Hoven, Filippo Santoni de Sio, 2024-07-05.
