of Kentucky Fred E. Coy, Jr., Thomas C. Fuller, Larry G. Meadows, James F. Swauger, 1997 Following the Japanese invasion of the islands in 1942 North Luzon was the staging area for several Filipino American guerrilla bands who sought to gather intelligence and to destroy enemy military installations or supplies Bernard Norling focuses on the Cagayan Apayao Forces or CAF commanded by Maj Ralph Praeger Their bravery was unquestionable but by September 1943 all but one member of Troop C had been claimed by combat enemy capture or disease The only survivor Capt Thomas S Jones remembered Defeat is a terrible thing It brings down with it the whole structure about which a nation or an army has been built It subjects men to the most severe of moral tests at a time when they are physically least able to meet them Based primarily upon unpublished sources The Intrepid Guerrillas of North Luzon includes the diary of Praeger s executive officer Jones and draws on transcripts of radio communications between Praeger and General MacArthur s headquarters in Australia The struggles of the men of the CAF tell a harrowing tale of valor determination and occasional successes mixed with the wildcat schemes rivalries mistrust and betrayals that characterized the intramural relations of guerrilla forces all over the Pacific islands

Killarney Bay David S. Brose, Patrick Julig, John M. O'Shea, 2021-11-16 The archaeological site at Killarney Bay on the northeast side of Georgian Bay in Ontario Canada has attracted and mystified archaeologists for decades The quantities of copper artifacts exotic cherts and long distance trade goods all highlight the importance of the site during its time of occupation Yet researchers have struggled to date the site or assign it to a particular cultural tradition since the artifacts and mortuary components do not precisely match those of other sites and assemblages in the Upper Great Lakes The history of archaeological investigation at Killarney Bay stretches across parts of three centuries and involves field schools from universities in two countries Laurentian University in Canada and the University of Michigan in the United States This volume pulls together the results from all prior research at the site and represents the first comprehensive report ever published on the excavations and finds at Killarney Bay Heavily illustrated *Kentucky's Last Cavalier* Peter J.

Sehlinger, 2004-05-07 As this biography shows Preston was Kentucky s last cavalier the beau ideal of the Old South a dashing defender of the old aristocracy both in the political realm and on the battlefield His is a multidimensional story of power and privilege family connections and gender roles public service and proslavery politics As Kentucky state historian James C Klotter declares in the foreword Preston s life reveals much about his entire generation and his world **BOOK JACKET**

Discovering South Carolina's Rock Art Tommy Charles, 2012-08-31 An adventure tale of archaeological research discovery and preservation in the South Carolina upcountry For years Tommy Charles searched South Carolina s upcountry for examples of ancient rock art carvings and paintings efforts conducted on behalf of the South Carolina Institute of Archaeology and Anthropology SCIAA As SCIAA s collections coordinator Charles amassed considerable field experience in both prehistoric and historic archaeology and had firsthand involvement in cataloging sixty four sites of South Carolina rock art Charles chronicles his adventures in exploration and preservation in *Discovering South Carolina s Rock Art* Although

Native American rock art is common in the western United States and even at many sites east of the Mississippi it was believed to be almost nonexistent in South Carolina until the 1980s when several randomly discovered petroglyphs were reported in the upstate. These discoveries set in motion the first organized endeavor to identify and document these ancient examples of human expression in South Carolina. Over the ensuing years and assisted by a host of volunteers and avocational collectors, Charles scoured the Piedmont and mountains of South Carolina in search of additional rock art. Frustrated by the inability to find these elusive artifacts, many of which are eroded almost beyond visibility, Charles began employing methods still considered unorthodox by current scientific standards for archaeological research to assist with his search and documentation. Survey efforts led to the discovery of rock art created by Native Americans and Europeans. Of particular interest are the many circle and line petroglyphs the survey found in South Carolina. Seeking a reason for this repetitive symbol, Charles's investigation into these finds led to the discovery that similar motifs had been identified along the Appalachian Mountains from Alabama to New York as well as in the American Southwest and Western Europe. This engrossing account of the search for South Carolina's rock art brings awareness to the precarious state of these artifacts threatened not only by natural attrition but also by human activities. Charles argues that if left unprotected, rock art is ultimately doomed to exist only in our historical records.

Native American Landscapes Cheryl Claassen, 2024-01-12 This collection of essays focuses on what Cheryl Claassen terms the multi-vocal landscape: the idea that different groups and genders look upon the same natural features but perceive different meanings and potential in what they are seeing. Through ten chapters, various contributors showcase the ways in which native peoples see and interact with the natural world. At the heart of this book is the idea that Europeans associated nature with the feminine and saw the natural world as a passive frontier to be dominated. Native Americans, however, looked at landscape differently. They saw nature as a place in which to engage in complex negotiations between spirits and humans. This approach to nature cemented a relationship to the land based more on a partnership rather than subjugation. These essays deepen our understanding of the interaction between native people and the land. While other books focus on the gendered gaze of European men upon the landscape, this collection emphasizes that native men and native women looked upon natural formations and constructed landscapes differently from one another, a difference in perception that is important for archaeologists and anthropologists to understand. While there have been advances toward admitting this more complex view in the rest of the world, *Native American Landscapes* is the first to focus on how native men and women viewed the world around them. *Native American Landscapes* is organized by region, taking readers across the country from the rock

shelters of the Cumberland Plateau in the east to the Mojave Desert and the Mexican Gulf Coast then north to what is now British Columbia and farther west to Hawaii Readers of this collection through a study of creation myths vision quests fertility shrines and other ritualized uses of landscape will learn more about the land and about humans perception of our natural surroundings which forms the bedrock of our present relationship with the natural world CHERYL CLAASSEN is professor of anthropology at Appalachian State University She is the author or editor of six books on Native American prehistory including *Feasting with Shellfish in the Southern Ohio Valley Shells Rituals and Beliefs in Archaic North America* and *Women in Prehistory North America and Mesoamerica* , **Hobbies** ,1958 **Signal to Noise** ,2004

water and central heating that became known to his friends as Taylor's Folly. The historic Giltner Holt House which was built in 1859 and sits close by the Elkhorn Creek a few miles outside of Frankfort became the poet's entrance into the area's history and culture and the Elkhorn became a source of inspiration for his writing. Driven by topophilia (love of place) Taylor focuses on the eight mile stretch of the creek from the Forks of the Elkhorn to Knight's Bridge to provide a glimpse into the economic, social and cultural transformation of Kentucky from wilderness to its current landscape. He explores both the natural history of the region and the formation of the Forks community. Taylor recounts the Elkhorn Valley's inhabitants from the earliest surveyors and settlers to artist Paul Sawyier who memorably documented the creek in watercolors, oils and pastels. Interspersed with photographs and illustrations, contemporary and historic and intermixed with short vignettes about historical figures of the region, *Elkhorn: Evolution of a Kentucky Landscape* delivers a history that is by turns a vibrant and meditative personal response to the creek and its many wonders. Flowing across four counties in central Kentucky, Elkhorn Creek is the second largest tributary of the Kentucky River. Known for its beauty and recreational opportunities, Elkhorn Creek has become an increasingly popular location for canoeing, kayaking and camping and is one of the state's best known streams for smallmouth bass, bluegills and crawfish. Like Walden Pond for Henry David Thoreau, the Elkhorn has been a touchstone for Taylor. A beautiful blend of creative storytelling and historical exploration of one of the state's beloved waterways, *Elkhorn* celebrates a gem in the heart of central Kentucky.
