Statement of Disbursements of the House ,1998 **Rocky Mountain Druggist** ,1928 **The Bird Cage Theater** Michael Paul Mihaljevich,2024-11-15 Tombstone Arizona is forever associated with Wyatt Earp Bat Masterson Doc Holliday and the legendary OK Corral gunfight that made it a cultural symbol of the Old West The town s most iconic and storied original building is the Bird Cage Theater a stunning example of late nineteenth century variety theaters that were a staple in entertainment around the globe The modest interior that was once filled with orchestra music cigar smoke laughter and whistles and cheers and jeers is now an empty canvas for the echoes of the past Every year tens of thousands of tourists are welcomed through its doors to experience an atmosphere that begs wonder and imagination Private and public tours of its

interior have inspired questions evolving lore and conflicting stories In recent decades its history has been fabricated from modern myth romantic fiction and pure fantasy Now for the first time historical researcher and author Michael Paul Mihaljevich has pieced together the real story of the Bird Cage It began in the months leading up to the OK Corral gunfight in 1881 when property owner William J Hutchinson engaged in a violent three way property war between lot owning citizens a corrupt townsite company and greedy mine owner Ed Field just to erect the building After its construction was completed Hutchinson kicked off a ten year performance run that saw more than 250 world traveling entertainers bring their array of acts to the people of Tombstone in scenes of classic western romance When mines faltered and the local economy edged toward death it was the Bird Cage that became the key player in the twentieth century revival that established Tombstone as a tourist Mecca and rescued it from near desertion Museum Store Colorado Historical Society. Manufacturing National Park Nature J. Keri Cronin,2011-07-01 Jasper National Park is an international travel destination world heritage site and icon of Canadian identity Although national parks occupy a prominent place in the Canadian imagination we are only beginning to understand how their visual imagery has shaped and continues to inform our perception of the natural world ecological issues and ourselves In Manufacturing National Park Nature J Keri Cronin draws on visual images such as postcards and tourist snapshots to show that popular forms of picturing nature can have ecological implications that extend far beyond the frame of the image Adopting an ecocritical approach to visual culture she reveals that packaging Jasper as a series of breathtaking vistas and adorable looking animals masks the real threats to the park s ecosystems In telling the story of how various groups have used photography to shape our ideas about nature this book sets the stage for a re examination of protection policies and acknowledgment of environmental damage in national parks *The Temptation of Saint Redon* Stephen F. Eisenman,Odilon Redon,1992-12-15 Bristling with demons grotesques and bizarre apparitions the graphic work of Odilon Redon has often seemed to be the product of a mind unhinged In *The Temptation of Saint Redon* Stephen F Eisenman argues instead that these works are Redon s conscious and considered response to changing social realities an attempt to find refuge from the forces of modernization in an imaginative world of the macabre and the fantastic Eisenman s careful attention to the circumstances of Redon s life 1840 1916 allows him to bring into focus the interconnections between Redon s complex style and the culture and society of his time Born and raised on a sixteenth century estate near Bordeaux Redon was immersed as a child in traditional rural culture I spent my entire childhood in the M doc completely free among peasant children he recalled in his memoirs I heard them tell supernatural tales witches still exist there Indeed local tales and legends of witches ghosts one eyed monsters evil eyes and wood fairies figure prominently in Redon s graphic works which he called his noirs or blacks After formal training at Bordeaux and Paris in the 1850s and 1860s Redon began to chart his independent artistic course Eisenman shows how rejecting both naturalism and classicism Redon a prototypical Symbolist found in grotesque and epic genres the expression of organic communities and precapitalist societies

He places Redon's desire for this imagined world of superstitious simplicity a desire manifest in his entire mature artistic practice in the context of contemporary avant garde movements Redon's great noirs of the 1870s and 1880s dreamlike configurations of seemingly irreconcilable elements from portraits still lifes and landscapes show an increasingly subtle control of connotation and a complex indebtedness to caricature allegory and puns Many of the noirs also visually interpret works by like minded authors including Baudelaire Flaubert Poe and Mallarm one of Redon's close friends Eisenman's analysis of the noirs underscores Redon's interest in creating an imaginative even fantastic art that could act directly on the human spirit In addition to deepening our understanding of Redon and his art *The Temptation of Saint Redon* exposes a link between place politics personal history and the artistic imagination

The Lumiere Autochrome Bertrand Lavédrine, Jean-Paul Gandolfo, 2013-12-15 Louis Lumière is perhaps best known in the U S for his seminal role in the invention of cinema but his most important contribution to the history of photography was the autochrome Engagingly written and marvelously illustrated with over 300 images *The Lumière Autochrome History Technology and Preservation* tells the fascinating story of the first industrially produced form of color photography Initial chapters present the Lumière family enterprise set out the challenges posed by early color photography and recount the invention rise and eventual decline of the autochrome which for the first four decades of the twentieth century was the most widely used form of commercial color photography The book then treats the technology of the autochrome including the technical challenges of plate fabrication described in step by step detail and a thorough account of autochrome manufacture A long final chapter provides in depth recommendations concerning the preservation of these vulnerable objects including proper storage and display guidelines There are also engaging portfolios throughout the book showcasing autochrome photographs from around the world as part of an initiative founded by the French banker Albert Kahn as well as engrossing testimonials by children of men who worked in the Lumière factories in the early twentieth century The appendix includes transcriptions and facsimile reproductions from the Lumière notebooks as well as original patent documents

Vacationland William Philpott, 2013-08-30 Winner of the Western Writers of America 2014 Spur Award for Best Western Nonfiction Contemporary Mention the Colorado high country today and vacation imagery springs immediately to mind mountain scenery camping hiking skiing and world renowned resorts like Aspen and Vail But not so long ago the high country was isolated and little visited *Vacationland* tells the story of the region's dramatic transformation in the decades after World War II when a loose coalition of tourist boosters fashioned alluring images of nature in the high country and a multitude of local state and federal actors built the infrastructure for high volume tourism ski mountains stocked trout streams motels resort villages and highway improvements that culminated in an entirely new corridor through the Rockies Interstate 70 *Vacationland* is more than just the tale of one tourist region It is a case study of how the consumerism of the

postwar years rearranged landscapes and revolutionized American environmental attitudes Postwar tourists pioneered new ways of relating to nature forging surprisingly strong personal connections to their landscapes of leisure and in many cases reinventing their lifestyles and identities to make vacationland their permanent home They sparked not just a population boom in popular tourist destinations like Colorado but also a new kind of environmental politics as they demanded protection for the aesthetic and recreational qualities of place that promoters had sold them Those demands energized the American environmental movement but also gave it blind spots that still plague it today Peopled with colorful characters richly evocative of the Rocky Mountain landscape Vacationland forces us to consider how profoundly tourism changed Colorado and America and to grapple with both the potential and the problems of our familiar ways of relating to environment nature and place

Frank Paul Sauerwein Michael R. Grauer, Elaine Maher Harrison, 2002-06-01 One of the most capable of the late nineteenth century western artists Frank Paul Sauerwein 1871 1910 is also one of the most quietly admired Upon Sauerwein's untimely death friends were many family few only an ageing father And like even the best of friends they had their respective lives to lead There were no sons or daughters to continue that begun no wife to continue the mission embarked upon no war chest to promote his works Records lost diaries gone paintings placed to thwart the attic's draft writings long since misplaced And so for nearly a hundred years the light has been dimly lit perhaps as Sauerwein would have wanted it yet history has a way of locating those pilgrims of the past who in retrospect offered a vibrant message and timeless images Frank Paul Sauerwein the Biography brings to light an impressive quantity of information on the artist as well as an in depth analysis of his works from his early middle and late periods It features in color many of his works that have never been published and focuses on his seminal and epic paintings many of which have rarely been seen Several additional archival and original photographs of both Sauerwein and his works have likewise been located and reproduced Additionally the reader will find critical information on the artist and related data including a chronology a listing of known paintings and a discussion of certain of the techniques utilized by this master artist

Adirondack Vernacular Robert Bogdan, 2003-02-01 Henry M Beach was a prolific and accomplished upstate New York photographer who documented the North Country during the first quarter of the twentieth century Although much less known and celebrated Beach's work is as important to the twentieth century Adirondacks as Seneca Ray Stoddard's is to the nineteenth century Illustrated with over 250 examples of his work including ten panoramic foldouts this book covers the range of Beach's subject matter Robert Bogdan's lively and accessible approach to the photographer's work

encourages the reader to explore the North Country s people and places through Beach s photography and life Although Beach s postcard pictures and other photographs were taken to sell in bulk to hotel managers tourist shop owners and other retail merchants they are not just mass produced stylized pretty pictures Beside the bubbling brooks and shady woodland paths are factory boomtowns and paper mills belching pollution As the rails brought increasing numbers of middle class tourists to the Adirondacks the wealthy created their own exclusive wilderness playground Beach photographed dandy visitors at play as well as manual laborers sweating in the forest logging camps factories mines and construction sites Images of great camps sit next to modest abodes small stores and family owned resorts Pictures of trains in scenic surroundings give way to mangled wrecks after tragic railroad accidents In addition to standard view cards he produced montages and advertisement postcards serious visual commentary as well as lighthearted picture play Beach s best works stir the heart and provoke the imagination and his whimsical down to earth approach to photography produced images that are a treat to the eye
