**Patterns of Bias in Hollywood Movies** John W. Cones, 2012 It s pretty broadly recognized that Hollywood movies contain patterns of bias but it s not just people of color or women who are hurt by this Many groups within America s multicultural society have complained over the years about negative and stereotypical portrayals of their own group

members in motion pictures produced or released through the Hollywood based studios Yet as an expert on the U S film industry points out such complaints have had little impact on consistent patterns of bias in movies This book takes a broader look at the nature of negative and stereotypical movie portrayals and tracks patterns of such one sided depictions over a longer period time As a result the patterns of bias and the source the problem become more clear The problem appears be that most of the people who have green light authority in the U S film industry for either the production and or distribution of a motion picture share a common ethnic religious cultural background Thus the stories of their cohort and those of all other ethnic religious and or cultural groups whose members seldom achieve positions of power Hollywood are being filtered through the cultural sensibilities of a single group John Cones suggests that the solution could lie in increasing diversity at the highest levels in the U S film industry This work grew out of the observed frustration of film industry critics who have pointed out examples of bias and stereotyping in specific movies over the years only to be rebuffed by the simplistic studio arguments that such films reflect the real world and that moviegoers vote with their pocket books It can be shown that there is a consistent pattern to the choices Hollywood studio executives make with respect to the movies produced and released and the specific content of those movies and it becomes obvious that Hollywood is selectively portraying reality Movie goers only have limited options among all of the possibilities that could be portrayed on the silver screen This book differs from other studies touching on bias in motion pictures Most such books focus on the treatment of a single ethnic religious cultural racial or other readily identifiable interest group but this study attempts to provide an overview and to identify patterns over time When the patterns of bias in motion picture content are sufficiently demonstrated and documented it becomes easier to identify the source of the bias and to explain why such bias exists **Roger Ebert's Movie Yearbook 2005** Roger

Ebert,2004 Containing reviews written from January 2002 to mid June 2004 including the films Seabiscuit The Passion of the Christ and Finding Nemo the best and the worst films of this period undergo Ebert s trademark scrutiny It also contains the year s interviews and essays as well as highlights from Ebert s film festival coverage from Cannes *Going for Broke* Jeffrey

W. Dement,1999 Closely analyzes over 20 films of the past five decades that either deal directly with compulsive gambling or contain characters who are compulsive gamblers **The Feature Film Distribution Deal** John W. Cones,1997 John W

Cones whose real goal is to stimulate a long term film industry reform movement shows how the financial control of the film industry in the hands of the major studios and distributors actually translates into creative control of the industry Cones discusses the pros and cons of the debate relating to the industry s so called net profit problem and the way in which the distribution deal plays an integral part in that problem He then breaks down five major film finance distribution scenarios explaining various distribution deals and suggesting ways of negotiating distribution Critically examining the specific terms of the distribution deal itself Cones covers gross receipts exclusions distributor fees and distribution expenses He also investigates the various forms of interest issues of production costs matters of creative control and general contractual

provisions For handy reference Cones includes an extensive checklist for negotiating any feature film distribution deal The list deals with distribution fees distribution expenses interest production costs creative control issues general contractual provisions distributor commitments and the limits of negotiating His nine appendixes present a Motion Picture Industry Overview Profit Participation Audit Firms ADI Top 50 Market Rankings an AFMA Member List 1992 1993 a Production Financing Distribution Agreement a Negative Pickup Distribution Agreement a Distribution Rights Acquisition Agreement a Distribution Agreement Rent a Distributor Deal and a Foreign Distribution Agreement Cones wrote this book for independent producers executive and associate producers and their representatives directors actors screenwriters members of talent guilds distributors and entertainment antitrust and securities attorneys Securities issuers and dealers investment bankers and money finders investors and financiers of every sort also will be interested In addition Cones suggests and hopes that the book will interest Congress their research staff government regulators at the Internal Revenue Service the Securities and Exchange Commission the Federal Trade Commission and law enforcement officials such as the Los Angeles District Attorney and the U S Justice Department

*Writing Horror and the Body* Linda Badley,1996-06-18 In this sequel to *Film Horror and the Body Fantastic* Badley examines horror fiction as a fantastic genre in which images of the body and the self are articulated and modified Badley places horror fiction in its cultural context drawing important connections to theories of gender and sexuality As our culture places increasing importance on body image horror fiction has provided a language for imagining the self in new ways often as ungendered transformed or re generated Focusing on the works of Stephen King Clive Barker and Anne Rice Badley approaches horror as a discourse that articulates the anxieties of our culture **Roger**
