Mother of God Miri Rubin, 2009-04-21 A sweeping ambitious study of the Virgin Mary's emergence and role throughout Western history How did the Virgin Mary about whom very little is said in the Gospels become one of the most powerful and complex religious figures in the world To arrive at the answers to this far reaching question one of our foremost medieval historians Miri Rubin investigates the ideas practices and images that have developed around the figure of Mary from the earliest decades of Christianity to around the year 1600 Drawing on an extraordinarily wide range of sources including music poetry theology art scripture and miracle tales Rubin reveals how Mary became so embedded in our culture that it is impossible to conceive of Western history without her In her rise to global prominence Mary was continually remade and reimagined by wave after wave of devotees Rubin shows how early Christians endowed Mary with a fine ancestry why in early medieval Europe her roles as mother bride and companion came to the fore and how the focus later shifted to her humanity and unparalleled purity She also explores how indigenous people in Central America Africa and Asia remade Mary and so fit her into their own cultures Beautifully written and finely illustrated this book is a triumph of sympathy and intelligence It demonstrates Mary's endless capacity to inspire and her profound presence in Christian cultures and beyond

Rethinking the Dialogue between the Verbal and the Visual Ingrid Falque, Agnès Guiderdoni, 2022-11-14 Intermediality figurability iconotext visual exegesis these are some of the many new ways in which the relationship between text and image has been explored in recent decades Scholars have benefited from theoretical work in the fields of anthropology

psychoanalysis and semiotics alongside more traditional fields such as literature art history and cultural history Focusing on religious texts and images between 1400 and 1700 the essays gathered in this volume contribute to these developments by grounding their case studies in methodology In considering various relations between the visual and the verbal the editors have adopted the broadest position possible emphasizing the phenomenological point of view from which the objects under discussion are examined Contributors to this volume Ralph Dekoninck Anna Dlabová Gregory Ems Ingrid Falque Agnès Guiderdoni Walter S Melion Kees Schepers Paul J Smith and Elliott D Wise Erudite Eyes Tine Luk Meganck, 2017-06-12 This book is also available in Paperback Erudite Eyes explores the network of the Antwerp cartographer Abraham Ortelius 1527-1598 a veritable trading zone of art and erudition Populated by such luminaries as Pieter Bruegel Joris Hoefnagel Justus Lipsius and Benedictus Arias Montanus among others this vibrant antiquarian culture yielded new knowledge about local antiquities and distant civilizations and offered a framework for articulating art and artistic practice These fruitful exchanges undertaken in a spirit of friendship and collaboration are all the more astonishing when seen against the backdrop of the ongoing wars Based on a close reading of early modern letters *alba amicorum* printed books manuscripts and artworks this book situates Netherlandish art and culture between Bruegel and Rubens in a European perspective **Now God Is Flesh: Poems and Pictures for Christmastide** Kathryn Ann Hill, 2013-11-19 **Now God Is Flesh** Poems and Pictures for Christmastide contains ESV Scripture selections from the Gospel According to St Luke and the Gospel According to St Matthew 22 original poems and 25 full color paintings from the Western masters Four longer poems in alliterative verse highlight the events of Luke 1 The book's title is taken from a poem by Robert Southwell **Albrecht Dürer and the Embodiment of Genius** Jeffrey Chipps Smith, 2020-10-09 During the nineteenth century Albrecht Dürer's art piety and personal character were held up as models to inspire contemporary artists and it was hoped to return Germany to international artistic eminence In this book Jeffrey Chipps Smith explores Dürer's complex posthumous reception during the great century of museum building in Europe with a particular focus on the artist's role as a creative and moral exemplar for German artists and museum visitors In an era when museums were emerging as symbols of civic regional and national identity dozens of new national princely and civic museums began to feature portraits of Dürer in their elaborate decorative programs embellishing the facades grand staircases galleries and ceremonial spaces Most of these arose in Germany and Austria though examples can be seen as far away as St Petersburg Stockholm London and New York City Probing the cultural political and educational aspirations and rivalries of these museums and their patrons Smith traces how Dürer was painted sculpted and prominently placed to accommodate the era's diverse needs and aspirations He investigates what these portraits can tell us about the rise of a distinct canon of famous Renaissance and Baroque artists addressing the question of why Dürer was so often paired with Raphael who was considered to embody the greatness of Italian art and why with the rise of German nationalism Hans Holbein the Younger often replaced Raphael as Dürer's partner Accessibly written and

Muhammad 'Ali's Soft Power in Europe Hala Ghoname,2024-12-16 The profusion of literature on Muhammad Al s Egypt 1805 1849 makes the B sh s epoch significantly well documented however one facet is perceptibly brushed out or rather overlooked Published in 1945 Gaston Wiet s Mohammed Ali et Les Beaux Arts has been the only book deliberating the visual and artistic aspects of Muhammad Al s reign and while it offers an extended survey of the Ottoman governor s iconography and visual relics the book wants the rudiments of critical analysis The trivial number of works covering this facet of the B sh s sovereignty has made it barely examined rendering the research field with a significant epistemological gap namely regarding art and historiography patronage for political triggers Embarking from where Wiet s work has halted this book attempts to critically analyze the artistic component of Muhammad Al s reign by dealing with the pictorial crops of the nineteenth century s orientalist travelers assessing their role within the context of contemporaneous trends in Ottoman and European diplomacy and tracing Muhammad Al s early attempts for using pictorial propaganda and historiography in order to claim political legitimacy and to attain European recognition The book conducts an in depth analysis of the B sh s historiographic making process with a focus on how text worked art and visual politics The book takes an innovative and interdisciplinary approach which commingles tools of visual analysis and contextual investigation in its consideration of the aspects of Muhammad Al B sh s foreign policy this book closely examines topics associated with cultural systems modernization traditionalism and changeability in Egypt of the nineteenth century while assessing the impact of global connectedness not only on Muslim cultures and societies but also on European public opinion through highlighting how Muslim rulers had adapted appealing themes and employed cultural magnets in their visual propaganda to fit within the pervasive international diplomatic trends

Byzantine Art and Renaissance Europe Angeliki Lymberopoulou,Rembrandt Duits,2016-12-05 Byzantine Art and Renaissance Europe discusses the cultural and artistic interaction between the Byzantine east and western Europe from the sack of Constantinople by the Fourth Crusade in 1204 to the flourishing of post Byzantine artistic workshops on Venetian Crete during the fifteenth and sixteenth centuries and the formation of icon collections in Renaissance Italy The contributors examine the routes by which artistic interaction may have taken place and explore the reception of Byzantine art in western Europe analysing why artists and patrons were interested in ideas from the other side

of the cultural and religious divide In the first chapter Lyn Rodley outlines the development of Byzantine art in the Palaiologan era and its relations with western culture Hans Bloemsma then re assesses the influence of Byzantine art on early Italian painting from the point of view of changing demands regarding religious images in Italy In the first of two chapters on Venetian Crete Angeliki Lymberopoulou evaluates the impact of the Venetian presence on the production of fresco decorations in regional Byzantine churches on the island The next chapter by Diana Newall continues the exploration of Cretan art manufactured under the Venetians shifting the focus to the bi cultural society of the Cretan capital Candia and the rise of the post Byzantine icon Kim Woods then addresses the reception of Byzantine icons in western Europe in the late Middle Ages and their role as devotional objects in the Roman Catholic Church Finally Rembrandt Duits examines the status of Byzantine icons as collectors items in early Renaissance Italy The inventories of the Medici family and other collectors reveal an appreciation for icons among Italian patrons which suggests that received notions of Renaissance tastes may be in need of revision The book thus offers new perspectives and insights and re positions late and post Byzantine art in a broader European cultural context
