Rogue Trader:

Rogue Trader: The Omnibus Andy Hoare, 2018-01-23 Explore the stars and the farthest reaches of the galaxy with the complete Rogue Trader omnibus containing the novels *Rogue Star*, *Star of Damocles* and *Savage Scars*. Licensed by ancient charter, Rogue Traders explore the uncharted regions of the galaxy seeking new worlds to exploit on behalf of the Imperium. The fortunes of Rogue Trader Lucian Gerrit and his family are in decline, and his inheritance amounts to little more than a pile of debt and misery. In a final desperate gamble to restore his family's former glory, Gerrit strikes a deal on a forgotten Imperial world in the Eastern Fringe, but his timing could not be worse. The alien tau are seeking to expand their empire across the Damocles Gulf, and soon Gerrit is caught in the middle of a clash between two mighty star-spanning empires, neither of which is willing to back down.

Rogue Trader, 1998 *Rogues of Wall Street* Andrew Waxman, 2017-04-07 Reduce or prevent risk failure losses with new and emerging technologies. *Rogues of Wall Street* analyzes the recent risk failures and errors that have overwhelmed Wall Street for the past decade. Written by a veteran risk compliance and governance specialist, this book helps bank leaders and consultants identify the tools they need to effectively manage operational risk. Citing different types of risk events such as Rogue and Insider Trading, cyber security, AML, the Mortgage Crisis, and other major events, chapters in the first half of the book detail each operational risk type along with its causative and contributing factors. The second half of the book takes an overarching approach to the tools and solutions available to financial institutions to manage such events in the future. From technology to culture to governance and more, this book does more than simply identify the problem; it provides real-world solutions with actionable insight. Expert discussion identifies the tools financial institutions have at their disposal and how these tools can be leveraged to create an environment in which catastrophic events are prevented or mitigated. In-depth insight from an industry specialist provides thought-provoking guidance for leaders seeking more effective risk management and specifically addresses how to analyze major operational risk incidents and their underlying causes. Investigate the tools that allow organizations to prevent and mitigate catastrophic events. Learn how culture and governance can be optimized to support effective risk management. Identify ways in which cognitive technologies could help your firm avoid losses. Cognitive technologies have the potential to revolutionize the way business is done, eliminating the speed-cost-quality trade-off. These new and emerging tools are heralding the next leap in the evolution of risk management. *Rogues of Wall Street* shows you how to bring these tools into your organization and how they can contribute to your financial success.

The Deceptive Trader Pasquale De Marco, 2025-05-20 In the heart of London's financial district, Barings Bank, a venerable institution with a history stretching back over two centuries, crumbled under the weight of one man's reckless actions. Nick Leeson, a young and ambitious trader fueled by a combination of hubris and unchecked ambition, brought down one of the world's most respected financial institutions in a matter of months. This book is the definitive account of the rise and fall of Nick Leeson, the rogue trader whose unauthorized and unrestrained trading

brought Barings Bank to its knees With unprecedented access to exclusive interviews confidential documents and firsthand accounts this book unravels the intricate web of events that led to the bank's demise exposing the systemic failures regulatory lapses and personal hubris that paved the way for disaster Beyond the gripping narrative this book delves into the human cost of financial greed It tells the stories of the countless individuals whose lives were upended by the collapse of Barings Bank the investors who lost their life savings the employees who lost their jobs and the families who were torn apart by the ensuing scandal This book is not just a story of financial ruin it is a cautionary tale with profound implications for the global financial system It exposes the fragility of a system built on trust and leverage and it highlights the urgent need for stronger oversight more robust risk management systems and a renewed focus on ethical leadership In a world where financial crises continue to erupt with alarming regularity this book serves as a stark reminder of the importance of learning from past mistakes It is a compelling and cautionary tale that should be required reading not just for those in the financial industry but for anyone who wants to understand the forces that shape our economic world This book is a testament to the resilience of the human spirit in the face of adversity and a call for a more just and equitable financial system that serves the interests of all not just the few If you like this book write a review on google books **Rogue Trader** Edward
