Mjema,2001 Civil Society in the Global South Palash Kamruzzaman,2018-12-07 In recent years civil society has been seen as a key route for democracy promotion and solving development problems in low income countries However the very concept of civil society is deeply rooted in European traditions and values In pursuing civil society reform in non Western countries many scholars along with well meaning international agencies and donor organisations fail to account for non Western values and historical experiences Civil Society in the Global South seeks to redress this balance by offering diverse accounts of civil society from the global South authored by scholars and researchers who are reflecting on their observations of civil society in their own countries The countries studied in the volume range from across Africa Latin America Asia and the Middle East to give a rich account of how countries from the global south conceptualise and construct civil society The book demonstrates how local conditions are often unsuited to the ideal type of civil society as delineated in Western values for instance in cases where numerous political racial and ethnic sub groups are fighting for autonomy By disentangling local contexts of countries from across the global South this book demonstrates that it is important to view civil society through the lens of local conditions rather than viewing it as something that needs to be discovered or manufactured in non Western societies Civil Society in the Global South will be particularly useful to high level students and scholars within development studies sociology anthropology social policy politics international relations and human geography *Governance of Natural Resources* Anasooya Verma,2025-01-24 Governance of Natural Resources provides a comprehensive overview of the critical role natural resources play in national development and sustainable growth With growing populations and increasing pressure on resources such as fossil fuels

NGOs and Governance in the Arab World Sarah Ben Néfissa, Carlos Milani, 2005 Most non governmental organizations NGOs in the Arab world have traditionally been active in the areas of social work and charity often within a religious or communal framework But recently many of these organizations have become the forum for conflicts between different political trends while others tackle political problems such as human rights or democratic issues Facing the rejuvenated NGO scene in the Arab world public authorities remain torn between support for the concerns of civil society and the traditional mode of management which does not delegate consult or decentralize Can NGOs in the Arab world be considered full fledged actors of governance and of national and local development Is the relationship between NGOs and public authorities at the national and local level one of partnership or opposition and competition Are NGOs perceived to be palliatives to the shortcomings of the public authorities How is the relationship between NGOs and society to be defined Do Arab NGOs highlight the issues that remain undetected by the classical methods of action of the public authorities The studies in this collection arising out of the Conference on NGOs and Governance in the Arab World held in Cairo in March 2000 attempt to answer these and other areas of concern Contributors Sylvia Chiffolleau Dina Craissati Guilain Denoeux Mona Fawaz Vivian Fouad Sari Hanafi Karam Karam Samir Marcos Nicola Pratt Nadia Refat Pierre Jean Roca Muhamad Al Sayyid Said Salma Aown Shawa Abd Al Ghaffar Shukr

Wild Sardinia Tracey Heatherington, 2011-07-01 Winner of the 2010 Victor Turner Prize in Ethnographic Writing presented by the American Anthropological Association Shared concern for nature can be a way of transcending national ethnic religious and cultural boundaries yet conservation efforts often pit the interests of historically rooted or indigenous peoples against the state and international environmental organizations eroding local autonomy while saving rural land for animals and tourists Wild

Sardinia's examination of the cultural politics around nature conservation and the traditional Commons on an Italian island illustrates the complexities of environmental stewardship. Long known as the home of fiercely independent shepherds often typecast as rustics, bandits or eco vandals as well as wild mouflon, sheep, magnificent eagles and rare old oak forests, the town of Orgosolo has for several decades received notoriety through local opposition to Gennargentu National Park. Interweaving rich ethnographic description of highland central Sardinia with analysis grounded in political ecology and reflexive cultural critique, *Wild Sardinia* illuminates the ambivalent and open-ended meanings of many Sardinians' acts and memories of resistance to environmental projects. This groundbreaking case study of the tension between living cultural landscapes and the emerging ecological imaginaries envisioned through policy discourses and new media, the global dreamtimes of environmentalism has relevance far beyond its Mediterranean locale.

The Indian Ocean Tsunami Pradyumna Prasad Karan, Shanmugam P. Subbiah, 2011-01-01 December 2004 a tsunami swept over the coasts of Indonesia, Sri Lanka, India, Thailand and other South Asian countries leaving hundreds of thousands dead and many more without the resources to rebuild their lives. With casualties as far away as Africa, the aftermath was overwhelming: ships could be spotted miles inland, cars floated in the ocean, legions of the unidentified dead, an estimated 225,000 were buried in mass graves, relief organizations struggled to reach rural areas and provide adequate aid to survivors. *The Indian Ocean Tsunami: The Global Response to a Natural Disaster* is the first comprehensive assessment of the environmental, social and economic costs of this tragedy. Soon after the tsunami, an international team of geographers, geologists, anthropologists and political scientists traveled to the most damaged areas to observe and document the tsunami's impact. *The Indian Ocean Tsunami* draws on data collected by this team. Editors Pradyumna P. Karan and Shanmugam P. Subbiah, along with contributors from multiple disciplines, examine numerous issues that arose in the aftermath of the tsunami, such as inequities in response efforts, unequal distribution of disaster relief aid and relocation and housing problems. *The Indian Ocean Tsunami* is organized into several sections, the first of which deals with the ecological destruction of the tsunami. It includes case studies and photographs of the damage in Japan, Indonesia, South India and other areas. The second section analyzes the economic and social aspects of the aid responses, specifically discussing the role of NGOs in tsunami relief, the strengths and weaknesses of the reconstruction process and the lessons the tsunami offers to those who are responsible for dealing with future disasters. In the tsunami's aftermath, the inadequacies of governmental and privately funded aid and the challenge of rehabilitating devastated ecosystems quickly became apparent. With this volume, Karan and Subbiah illuminate the need for the development of efficient, socially and environmentally sustainable practices to cope with environmental disasters. They suggest that education about the ongoing process of recovery will mitigate the effects of future natural disasters. Including maps, photographs and statistical analyses, *The Indian Ocean Tsunami* is a clear and definitive evaluation of the tsunami's impact and the world's response to it.
