**Animal Control Management** Stephen Aronson, 2010 This book is the first of its kind to discuss in detail the actual management of local

animal control programs as opposed to the care of the animals. It covers financial, personnel, legal, health, and safety issues that animal control directors and management staff need to know in providing direction and oversight of animal control programs. Chapters examine selected topics in which the author assesses strengths and weaknesses and offers new insights and strategies for more effective management. For example, the two chapters on contracting discuss the steps in the process, strategies, and suggested provisions in the written agreement to make the program more effective. The animal law chapters explain the basis for the laws and highlight those provisions that if enacted into law can strengthen enforcement options. In addition, the author discusses and assesses interacting with the public and the media, liability issues, wildlife problems, and the politics of animal control.

**Pain Management for Veterinary Technicians and Nurses** Mary Ellen Goldberg, 2014-11-17

**Pain Management for Veterinary Technicians and Nurses** guides readers through the important concepts of animal pain management, providing specific approaches to managing pain in a wide variety of veterinary conditions. Emphasizing the technician's role in advocating for the patient, the book equips technicians with the knowledge needed to manage pain in dogs, cats, horses, livestock, exotics, and zoo animals. Logically and comprehensively covering this difficult subject, **Pain Management for Veterinary Technicians and Nurses** provides both introductory material on the tenets of pain management and specific techniques to apply in the clinical setting. With information on recognizing and understanding pain, the physiology of pain, pharmacology, and analgesia in different settings, the book outlines how to practice good pain management as an integral part of nursing care. **Pain Management for Veterinary Technicians and Nurses** provides both basic and advanced information, allowing students, practicing veterinary technicians and nurses, and veterinary staff alike to take a more active role in pain management and develop a more thorough understanding of this complex subject.

**Pukka's Promise** Ted Kerasote, 2018-06-01

This guide by the author of *Merle's Door* is beneficial for anyone who wants to ensure that their dogs will be healthy and well. Seattle Post Intelligencer: From the bestselling author who offers the most utterly compelling translation of dog to human I have ever seen, Jeffrey Masson, this is a joyful chronicle of a dog and a groundbreaking answer to the question: How can we give our dogs the happiest, healthiest lives? When Ted Kerasote was ready for a new dog after losing his beloved Merle, who died too soon, as all our dogs do, he knew he wanted to give his puppy Pukka the longest life possible. But how to do that? So much has changed in the way we feed, vaccinate, train, and live with our dogs from even a decade ago. In an adventure that echoes *The Omnivore's Dilemma* with a canine spin, Kerasote tackles these subjects, questioning our conventional wisdom and emerging with vital new information that will surprise even the most knowledgeable dog lovers. Can a purebred be as healthy as a mixed breed? How many vaccines are too many? Should we rethink spaying and neutering? Is raw food really healthier than kibble, and should your dog be chewing more bones? Traveling the world and interviewing breeders, veterinarians, and leaders of the animal welfare movement, Kerasote pulls together the

latest research to help us rethink the everyday choices we make for our companions And as he did in Merle's Door Kerasote interweaves fascinating science with the charming stories of raising Pukka among his dog friends in their small Wyoming village Funny revelatory and full of the delights of falling in love with a dog Pukka's Promise will help redefine the potential of our animal partners      *Reimagining Animal Sheltering: Support Services and Community-Driven Sheltering Methods* Julie Levy, Kevin Horecka, Peter Joseph Wolf, E.
