*Aspects of the Maritime Silk Road* Ralph Kauz, 2010 In the recent years trade cultural exchange and transfer of knowledge in the Indian Ocean have come increasingly into the scope of various scholarly disciplines The previous perception that the exploitation of this sea did only start with the European colonial expansion at the end of the 15th century had to be abandoned The Europeans absorbed the long existing structures rather than creating new ones This concept of the Indian Ocean as a coherent space of transfer is also adopted in this volume Some of the articles were presented at a conference held in Vienna while the others were supplied independently The contributions are arranged around the two poles represented by the western and the eastern part of the Indian Ocean especially Iran and China but also other cultures and the manifold relations with the land based Silk Road are discussed The time frame ranges from the 14th to the 17th century Thai Art and Culture Henry Ginsburg, 2000-01-01 In this lavishly illustrated new study Henry Ginsburg describes a wide range of Thai manuscripts and other documents in European and North American collections discussing each in its religious and historical context It contains an impressive compilation of maps letters photographs and manuscripts that will make it a valuable reference tool for the Southeast Asia scholar while its colorful illustrations will appeal to a wider audience interested in Thai culture *Prelude to Colonialism* Jurrien van Goor, Foskelien van Goor, 2004 Catalog of Copyright Entries. presents early Siam as a commercial society not the peasant society usually assumed Baker and Phongpaichit attribute the fall of the city not to internal conflict or dynastic decline but failure to manage the social and political consequences of prosperity This book is essential reading for all those interested in the history of Southeast Asia and the early modern world

**Creolization and Diaspora in the Portuguese Indies** Stefan Halikowski Smith,2011-09-20 This book provides an original study of the sizeable Portuguese community in Ayutthaya the chief river state in Siam during a period of apparent decline 1640 1720 Portuguese populations were displaced from their chief settlements like Melaka and Makassar and attracted to the river states of mainland South East Asia by a protective model of kingship hopes of international trade and the opportunity to harvest souls A variety of sources will be used to shed light on the fortunes and make up of this displaced mixed race tribe which was largely independent of the matrices of Portuguese colonial power and fared poorly alongside other foreign communities in this remarkably open dynamic environment Circumstances changed for the better after the National Revolution of 1688 when Portuguese started to fill many of the jobs at court and in commerce previously occupied by Frenchmen and northern Europeans
