Arctic Convoys, 1941-1945 Richard Woodman, 2018-01-30 The story of Allied merchant ships and crews who braved the frigid far north to extend a lifeline to Russia filled with sheer heroism and brazen drama Literary Review During the last four years of the Second World War the Western Allies secured Russian defenses against Germany by supplying vital food and arms The plight of those in Murmansk and Archangel who benefited is now well known but few are aware of the courage determination and sacrifice of Allied merchant ships which withstood unremitting U boat attacks and aerial bombardment to maintain the lifeline to Russia In the storms fog and numbing cold of the Arctic where the sinking of a ten thousand ton freighter was equal to a land battle in terms of destruction the losses sustained were huge Told from the perspective of their crews this is the inspiring story of the long suffering merchant ships without which Russia would almost certainly have fallen to Nazi Germany

The Mammoth Book of Losers Karl Shaw, 2014-06-05 This compendious celebration of ineptitude includes some of history s most spectacularly ill conceived expeditions and entirely useless pursuits and features tales of black comedy insane foolhardiness breathtaking stupidity and relentless perseverance in the face of inevitable defeat It rejoices in men and women made of the Wrong Stuff writers who believed in the power of words but could never quite find the rights ones artists and performers who indulged their creative impulse with a passion if not a sense of the ridiculous an eye for perspective or the ability to hold down a tune scientists and businessmen who never quite managed to quit while they were ahead and sportsmen who seemed to manage always to snatch defeat from the jaws of victory Like Walter Oudney one of three men chosen to find the source of the River Niger in Africa who could not ride a horse nor speak any foreign languages and who had never travelled more than 30 miles beyond his native Edinburgh or the explorer priest Michel Alexandre de Baize who set off to explore the African continent from east to west equipped with 24 umbrellas some fireworks two suits of armor and a portable organ or the Scottish army which decided to invade England in 1349 during the Black Death Entries include briefest career in dentistry least successful bonding exercise most futile attempt to find a lost tribe most pointless lines of research by someone who should have known better least successful celebrity

Voices from the Second World War Walker Books,2018-03-20 A collection of personal narrative about World War II as told to children from around the world Sacrifice for Stalin David Wragg,2006-03-19 Operation BARBAROSSA the German invasion of the Soviet Union in 1941 was a turning point second only to Pearl Harbor Russia became an ally overnight but a most difficult dangerous and demanding one Stalin desperately needed oil equipment and modern technology but the only practical route was round the North Cape to the ports of Archangel and Murmansk The dual enemies of the vulnerable merchantmen were the German naval and air forces and the weather While no one questioned that the Russians needed assistance the author finds evidence that the supplies that did get through the gauntlet at great cost were all too often not put to good use Elsewhere the Allies were having to make do with old and insufficient equipment such as aircraft He finds that little mention is made of the impact of British and American weapons and material by Soviet reports Yet at the same time there is evidence that Allied supplies may have made it possible for the Soviets to occupy central and Eastern Europe and so dominate those countries for half a century of the Cold War **The Gun, Ram, and Torpedo** Sir Gerard Henry Uchtred Noel,1874

Naval Science Joseph Woolley,1872 Royal Marines Musicians at War Brian Short,2025-01-30 The peerless musicians of the Royal Marines Band Service are no strangers to war as the Author Brian Short himself a musician reminds us in his book Brian Short has an engaging style and sense of humour combined with a shrewd assessment of his fellow human beings His description of his training and early years in the Band Service provide a vivid and necessary prelude to what follows setting the scene and introducing the reader to aspects of life in the Royal Marines Band Service and the Band s experiences at war From time to time the future existence of Royal Marines Bands is questioned by politicians They should read this book perhaps they will come to appreciate what a splendid contribution the Royal Marines Band Service has made to our country by land and sea and will continue to do so Major General Julian Thompson Royal Marines The Royal Marines Band Service are well known for their professional musical performances around the world and at all Royal and

major high profile public engagements in the UK Arguably one of the finest military bands perhaps they are less well known for their military deployments in war zones around the globe along with their humanitarian work in times of need These fine musicians can turn their talented hands to a multitude of non musical taskings bringing enthusiasm and musical intellect to whatever is asked of them Held in high regard by Royalty the Royal Marines and the anyone in the public who has seen them perform the book Royal Marines musicians at war shows them in a different light as they show their worth in the likes of Afghanistan Kosovo The Falklands and many more areas of conflict besides *The War at Sea, 1939-1945* Stephen Wentworth Roskill,1954 British Fiji Class Cruisers and their Derivatives Conrad Waters,2024-05-30 A follow up to the author s highly regarded history of British Town class cruisers this book takes the same approach combining coverage of the development design details and career highlights of the original class as well as the Uganda Minotaur and Tiger designs that were derived from them Often called the Colony class they were an attempt to incorporate the characteristics of the preceding Town class within the reduced 8 000 ton limit agreed under the 1936 London Treaty In general layout they resembled the earlier class but adopted upright rather than raked funnels and masts The use of a flat transom stern conferred both hydrodynamic and internal space advantages Not surprisingly they turned out to be very cramped ships which struggled to accommodate all the wartime additions of extra electronics and light AA guns as well as the increased crew needed to man them Many of the later modifications to existing ships and alterations to the succeeding designs were attempts to alleviate these issues most visibly the reduction of the main armament from four to three turrets Nevertheless they were available in significant numbers and gave sterling service across all theaters of the naval war In this major study Conrad Waters makes extensive use of archive material to provide a technical evaluation of the Fiji class design and its subsequent performance He outlines the class s origins in the context of inter war cruiser policy explains the design and construction process and describes the characteristics of the resulting ships and how these were adapted in the light of wartime developments An overview of service focuses on major engagements assessing the extent to which the class met its designers expectations and detailing the consequences of action damage Later chapters continue the story into the Cold War era examining the various post war modernization programs and concluding with the radical redesign of the Tiger class that produced the Royal Navy s last conventional cruisers Heavily illustrated with contemporary photographs original plans and drawings by Dave Baker John Jordan and George Richardson British Fiji Class Cruisers provides a definitive reference to one of the Royal Navy s most important Second World War warship designs Torpedoes Away! Maxwell Hawkins,2018-11-16 Torpedoes Away details US Navy submarine operations during the first 18 months of World War Two Author Maxwell Hawkins breathlessly covers the tense dangerous missions of submarines USS Trout Sea Raven Pollack Skipjack Cuttlefish and others Between these first hand reports stitched together from interviews with crewmen Hawkins describes the mechanical workings of submarines as well as the history of submersibles beginning in the 17th Century He spent over a

year sifting through the archives of the Navy Department and conducted extensive interviews with many veteran submariners about their experiences in the Pacific during World War Two The result is a classic study of underwater warfare a must read for military historians and World War 2 buffs **United States Naval Institute Proceedings** ,1909

Torpedoes and Torpedo Warfare Charles William Sleeman,1880 **The British Navy** Earl Thomas Brassey Brassey,1882 **The British Navy. Its Strength, Resources, and Administration** Thomas Brassey,2024-05-30 Reprint of the original first published in 1882 **Kamikaze** Peter C. Smith,2014-11-28 In this brand new publication from eminent historian Peter C Smith we are regaled with the engaging and often incredibly disturbing history of the Kamikaze tradition in Japanese culture Tracing its history right back to the original Divine Wind major natural typhoons that saved Japan from invaders in ancient history Smith explores the subsequent resurrection of the cult of the warrior in the late nineteenth century He then follows this tradition through into the Second World War describing the many Kamikaze suicide attacks carried out by the Emperor s pilots against Allied naval vessels in the closing stages of the Pacific campaign These pilots were at the mercy of an overriding cultural tradition that demanded death over defeat capture or perceived shame Despite often being under trained and ill prepared psychologically for the sacrifices they were about to make they were nonetheless expected to make them The dedication of sacrifice for the Emperor and the Nation is explored by dissecting the traces left behind by these pilots Smith provides a detailed look at the heartbreak of the pilot s families and the men themselves the notes they left and the effects on those who did not share their philosophy The views of individuals under attack are also included in this balanced history Countless attacks carried out over the Philippine Islands including the sinking of the St Lo are analyzed and the Okinawa campaign is afforded particularly strong coverage with the sinking of HMAS Australia explored in detail The collective sacrifice is then summed up with reflections from survivors on both sides appraising events in a humane historical context A detailed appendices then follows featuring units formed sorties mounted ships sunk and damages inflicted *Journal of the Royal United Service Institution* ,1878
