Curtiss, 1961 **Comparative Analysis of Department Stores and Shopping Centers in Germany and Spain** Christoph Wappler, 2006-09-07 Inhaltsangabe Abstract Why are traditional German department stores close to bankruptcy in a time when so many new shopping centers with a similar offering of goods are being built Is this phenomenon just a problem of German companies or do other countries have the same situation For comparison the situations in different countries Germany and Spain are picked Most of the literature in the field of retail management is written about US American companies Thus this thesis cannot totally ignore it E commerce despite its growing importance is not part of this comparison as both retail formats are faced with the same opportunities and threats by it The starting point of this thesis is the difficult situation Karstadt was facing in the last two years and the story about the successful department store concept of El Corte Ingles in Spain hence these two companies play a major role throughout this thesis The introduction provides the reader with an overview of the thesis Furthermore the question is addressed if department stores and shopping centers can be compared The main body of this thesis consists of three parts which are structured after the same pattern country level industry level and company level First data is collected for a later analysis Chapter 2 gathers all relevant information about Germany and Spain and then narrows down to the history of department stores and shopping centers The company data is shown in its own chapter 3 as a major part of this thesis should be the company comparison of Karstadt and El Corte Ingles The market leaders in the respective markets are shown in case studies and complemented by data of the two companies that emphasizes the final analysis and conclusion The theoretical background of company analysis is given in chapter 4 Again the first part about the macro environment concentrates on the country level Then the micro environment forces comparing the attractiveness of industries are explained The last part contains the fundamentals of the internal environment analysis which reflects the company level In chapter 5 the findings are used to construct profiles point out differences between the different countries industries and companies and to find ideas for improving the existing management strategies of the given companies The conclusion not only provides a summary of the thesis it also gives a forecast and identifies sources and possibilities for further Shopping Centers Peter Viereck, 2017-07-05 Are there potentials in central city revitalization What role will the federal government play in determining future retail locational choices Shopping center development has never been more popular or more hazardous than it is today Retail distribution in the United States has greater efficiency than anywhere else in the world a tribute to the adaptability and rationalization of systems which have characterized the field The pressures of the future however require greater exertion if they are to be adequately met The industry drive to the new middle markets may change the face of small city America or it may lead to a blind alley As central cities aided by EDA Economic Development Administration and UDAG

Urban Development Action Grant gird up for revitalization in the face of reduced real buying power these issues take on increased vigor A whole new legal fabric is evolving in the development of major commercial facilities Does it mark the path of the future or is it an ineffectual last gasp effort to reshape the basic overwhelming trend lines of American life How do we get a grasp on these parameters Whether city planner economic or marketing consultant investor or developer much of our future depends on the answers The authorities brought together for these specially sponsored papers are the best in the business and provide key insights into this dynamic field Demographics and consumer response that challenge marketing and planning professionals are also included
