Network Governance in Education Yuan Tao,2024-12-31 This book explores and theorizes the complexity of network governance in school turnaround in China drawing on an interpretive qualitative paradigm School turnaround provides a useful perspective for understanding network governance in education as it involves interactions among multiple parties of actors all aiming to improve school quality Based on a case study of three school turnaround networks in Shanghai this book analyzes the complexity of interactions among schools local governments and third party actors The study goes beyond a simple description of the plurality of state and non state actors involved in education It places particular emphasis on the power of network actors and the power dynamics among them that shape their interactions and positions in educational governance The power perspective adopted in this book provides insight into which network actors matter in education governance and how network governance should be applied in education particularly in school turnaround The book will appeal to scholars and students of education and will be particularly useful to policymakers and practitioners interested in educational administration management and leadership educational improvement and Chinese education **The Third Birth of Confucius** Kashi Ram Sharma,2022-04-27 The Third Birth of Confucius deals with the Chinese sage and philosopher Confucius and his philosophical and politico cultural legacies As the title suggests Confucius has once again taken birth in China Confucius died for the first time when he gave way to Buddhism in the tenth century but was reinvented again Neo Confucianism This was the second birth of Confucius In the twentieth century under the influence of western ideas China s liberals and Marxists abandoned Confucius again But how long can a civilization live without any ideational orientation Hence the third birth of Confucius from AD 2000 onwards Confucius is emerging as a proxy word for cultural

nationalism In fact it is not one Confucius who is taking birth in China but two One is the common man's Confucius which is authentic and genuine The other Confucius is promoted by the Chinese Government The author believes that soon either China will embrace democracy or it may implode and disintegrate like the former Soviet Union This book is an attempt to unravel the muddled reality of China and will definitely prove a landmark work in the field of Chinese Studies *General Catalogue of the Public Library of Detroit, Mich. China: Its People, Its Society, Its Culture Changdu Hu, 1960 The Chinese Idea of a University Rui Yang, 2022-09-02 In

The Chinese Idea of a University Phoenix Reborn Rui Yang conceptualizes the cultural foundations of modern university development in Chinese societies Instead of focusing on the uniqueness of the societies this book aims to prove that one educational purpose could be fulfilled via many paths and that most of the characteristics the university could be found in other institutions of higher learning Citing the practices of four selected Chinese societies Yang opposes the existence of an impassable chasm between Chinese and Western ideas of a university and argues that it is possible to combine Chinese and Western ideas of a university Also this book is one of the first in English to theorize the Chinese idea of a university It links the historical events to the present in a context of an enormous impact of Western academic models and institutions from the beginning of modern universities in Chinese societies to the contemporary period The scholarship is of high quality based on a thorough critical reading of relevant literature in both English and Chinese as well as detailed empirical research carried out on the campuses of eight leading universities in the four Chinese societies under consideration Ruth Hayhoe professor University of Toronto Yang Rui has produced an academic masterwork China has arrived as a global power and the East Asian university has achieved or largely achieved the long project of catch up to the West The future begins now and question of the Chinese idea of a university should trigger much discussion Professor Yang favors the development of hybrid East West higher education in the Chinese civilizational zone noting that to an extent existing universities have taken this path already He develops these challenging issues with a depth of scholarship far exceeding the current journal papers in the topic area and a style of exposition that reads really well A book of lasting importance Highly recommended Simon Marginson professor University of Oxford joint editor in chief Higher Education
