Teaching Mathematics Through Cross-Curricular Projects Elizabeth A. Donovan, Lucas A. Hoots, Lesley W. Wigglesworth, 2024-07-22 This book offers engaging cross curricular modules to supplement a variety of pure mathematics courses Developed and tested by college instructors each activity or project can be integrated into an instructor s existing class to illuminate the relationship between pure mathematics and other subjects Every chapter was carefully designed to promote active learning strategies The editors have diligently curated a volume of twenty six independent modules that cover topics from fields as diverse as cultural studies the arts civic engagement STEM topics and sports and games An easy to use reference table makes it straightforward to find the right project for your class Each module contains a detailed description of a cross curricular activity as well as a list of the recommended prerequisites for the participating students The reader will also find suggestions for extensions to the provided activities as well as advice and reflections from instructors who field tested the modules Teaching Mathematics Through Cross Curricular Projects is aimed at anyone wishing to demonstrate the utility of pure mathematics across a wide selection of real world scenarios and academic disciplines Even the most experienced instructor will find something new and surprising to enhance their pure mathematics courses

Resources in Education ,1992-10 The Basis of Belief Steven J. Keillor, 2008 The Basis of Belief tells the story of the University of Minnesota s unofficial educational agenda Steven Keillor considers selected controversies that have been energetically debated by educators administrators and students for over a century at the University Keillor describes the clash between an experimental scientific basis for knowledge and a reliance on testimony as in stories and first hand accounts Which means of obtaining knowledge was best Which direction should a university take in influencing and promoting one or the other These arguments concern the place in the University curriculum and student life of such matters as science religion psychology literature evolution American Studies academic freedom and loyalty as well as less scholarly activities such as student protests and strikes Keillor carefully draws upon diaries letters published accounts and interviews to assess how religion affected these subjects in academic life
