The Anglo Files: A Field Guide to the English (Second Edition) Sarah Lyall, 2020-02-25 New York Times Bestseller An exquisite hilarious and devastating dissection Malcolm Gladwell Why do the English keep apologizing Why are they so unenthusiastic about enthusiasm Why does rain surprise them When are they being ironic and how can you tell Even after eighteen years in London New York Times reporter Sarah Lyall remained perplexed and intrigued by its curious inhabitants and their curious customs She s since returned to the United States but this distillation of incisive and irreverent insights now updated with a new preface is just as illuminating today And perhaps even more so in the wake of Brexit and the attendant national identity crisis While there may be no easy answer to the question of how exactly to understand the English The Anglo Files part anthropological field study part memoir helps point the way

Dubeck,Yasmin Sitabkhan,Christopher Cummiskey,Devanshi Unadkat,2023-05-15 This paper contains a new analysis of gender differences in early grade reading and mathematics outcomes in 19 USAID funded studies over the past decade from 14 locations in Africa Asia Latin America and the Middle East The paper addresses gaps in the literature related to learning patterns for girls and boys in lower and middle income countries and in early primary school We analyzed the results from reading and mathematics assessments in grades 2 and 3 including differences in oral reading fluency ORF and quantitative comparison scores between boys and girls as well as differences in score distributions by gender In line with results from assessments in upper grades and in wealthier countries we found that girls consistently outperformed boys in reading In mathematics boys slightly outperformed girls although the differences were typically not large Global experience has shown that patterns in poor performance become more entrenched the further learners progress through the grades suggesting that early interventions for boys in reading and girls in mathematics could have long term benefits At the same time both girls and boys typically score below expectations in the two subjects across countries necessitating targeted strategies to improve outcomes for both genders early in their educational trajectories **Substance Misuse Prevention Program Attendance** Marni L.
