Matins, Lauds, and Vespers for St. David's Day Owain Tudor Edwards, 1990 This book looks at the only Welsh antiphonal known and discusses in particular the material for services celebrating the memory of the Welsh patron saint The book has a full listing and description of the contents of the Penpont Antiphonal National Library of Wales MS 20541 E and discusses the significance of the Office of St David The chants and the literary text are described and discussed supported by full transcriptions of the musical and literary texts and by facsimile reproduction of the manuscript folios The office is considered in its historical perspective as evidence of the active cultivation of music in Wales during the Middle Ages and for its relationship to other similar late medieval offices and to Rhigyfarch's Life of St David

**The Use of Hereford** William Smith, 2017-05-15 The Use of Hereford a local variation of the Roman rite was one of the diocesan liturgies of medieval England before their abolition and replacement by the Book of Common Prayer in 1549 Unlike the widespread Use of Sarum the Use of Hereford was confined principally to its diocese which helped to maintain its individuality until the Reformation This study seeks to catalogue and evaluate all the known surviving sources of the Use of Hereford with particular reference to the missals and gradual which so far have received little attention In addition to these a variety of other material has been examined including a number of little known or unknown important fragments of early Hereford service books dismembered at the Reformation and now hidden away as binding or other scrap in libraries and record offices This is the fullest examination of Hereford liturgical sources ever undertaken and may stimulate similar and much needed studies of other diocesan uses in particular Sarum and York As well as describing in detail the various manuscript sources the rare single edition printed Hereford texts the missals and breviaries are also discussed Unlike books of the Sarum and York rites these one offs were never revised and reissued In addition to the examination of these sources William Smith discusses the possible origins of the rite and provides an analysis of the Hereford liturgical calendar of the festa including those of the cathedral's patron St Ethelbert and the no less famous St Thomas Cantilupe that helped to make Hereford use so distinctive

Music in Welsh Culture Before 1650 Sally Harper, 2017-07-05 Music in Wales has long been a neglected area Scholars have been deterred both by the need for a knowledge of the Welsh language and by the fact that an oral tradition in Wales persisted far later than in other parts of Britain resulting in a limited number of sources with conventional notation Sally Harper provides the first serious study of Welsh music before 1650 and draws on a wide range of sources in Welsh Latin and English to illuminate early musical practice This book challenges and refutes two widely held assumptions that music in Wales before 1650 is impoverished and elusive and that the extant sources are too obscure and fragmentary to warrant serious study Harper demonstrates that there is a far wider body of source material

than is generally realized comprising liturgical manuscripts archival materials chronicles and retrospective histories inventories of pieces and players vernacular poetry and treatises This book examines three principal areas the unique tradition of cerdd dant literally the music of the string for harp and crwth the Latin liturgy in Wales and its embellishment and Anglicised sacred and secular materials from c 1580 which show Welsh music mirroring English practice Taken together the primary material presented in this book bears witness to a flourishing and distinctive musical tradition of considerable cultural significance aspects of which have an important impact on wider musical practice beyond Wales

Power, 2017-07-05 The experience of music performance is always far more than the sum of its sounds and evidence for playing and singing techniques is not only inscribed in music notation but can also be found in many other types of primary source materials This volume of essays presents a cross section of new research on performance issues in music of the Middle Ages and Renaissance The subject is approached from a broad perspective drawing on areas such as dance history art history music iconography and performance traditions from beyond Western Europe In doing so the volume continues some of the many lines of inquiry pursued by its dedicatee Timothy J McGee over a lifetime of scholarship devoted to practical questions of playing and singing early music Expanding the bases of inquiry to include various social political historical or aesthetic backgrounds both broadens our knowledge of the issues pertinent to early music performance and informs our understanding of other cultural activities within which music played an important role The book is divided into two parts Viewing the Evidence in which visually based information is used to address particular questions of music performance and Reconsidering Contexts in which diplomatic commercial and cultural connections to specific repertories or compositions are considered in detail This book will be of value not only to specialists in early music but to all scholars of the Middle Ages and Renaissance whose interests intersect with the visual aural and social aspects of music performance

Among the many different forms of Welsh traditional music discussed are seasonal music including wassail songs, Christmas and May carols, and Plygain carols, folk drama, ballad singing, the relevance of the eisteddfod and the musical journals of the nineteenth century. Additionally, the book includes a history of song collecting from the eighteenth century to the establishment and ongoing activities of the Welsh Folk Song Society in the twentieth, both the instrumental and the vocal traditions are examined as well as the uniquely Welsh tradition of cerdd dant. **Cambrian Medieval Celtic Studies**, 2004     A Companion to Britain in the Later Middle Ages S. H. Rigby, 2008-04-15 This authoritative survey of Britain in the later Middle Ages comprises 28 chapters written by leading figures in the field. Covers social, economic, political, religious, and cultural history in England, Ireland, Scotland, and Wales. Provides a guide to the historical debates over the later Middle Ages. Addresses questions at the leading edge of historical scholarship. Each chapter includes suggestions for further reading.     Essays on the History of English Music in Honour of John Caldwell Emma Hornby, David Nicholas Maw, 2010 The major themes of the essays in this collection reflect the work of the distinguished scholar John Caldwell, professor of music at Oxford University and a composer in his own right. There is a strong focus on early music with contributions considering the medieval carol, sources for seventeenth and eighteenth century harpsichord music, and the transmission of fifteenth century English music to the Continent, but they range right up to the twentieth century with an examination of music in Oxford. All are concerned in one way or another with themes which recur in Professor Caldwell's scholarship: sources, style, performance, and historiography. Pub desc     **Cambridge Medieval Celtic Studies**, 2005     **Western Plainchant** David Hiley, 1995 Plainchant is the oldest substantial body of music that has been preserved in any shape or form. It was first written down in Western Europe in the wake of the Carolingian renaissance of the 8th and 9th centuries. Many thousands of chants have been sung at different times or places in a multitude of forms and styles, responding to the differing needs of the church through the ages. This book provides a clear and concise introduction designed both for those to whom the subject is new and those who require a reference work for advanced studies. It begins with an explanation of the liturgies which plainchant was designed to serve. All the chief genres of chant, different types of liturgical book, and plainchant notations are described. The later chapters are complemented by plates with commentary and transcriptions. After an exposition of early medieval theoretical writing on plainchant, a historical survey follows the constantly changing nature of the repertory through from the earliest times to the restoration of medieval chant a century ago. The historical relations between Gregorian, Old Roman, Milanese, Spanish, and other repertories is considered. Important musicians and centres of composition are discussed together with the establishment of Gregorian chant in all the lands of

medieval Europe and the reformations and revisions carried out by the religious orders and the humanists Copiously illustrated with over 200 musical examples transcribed from original sources the book highlights the diversity of practice and richness of the chant repertory characteristic of the Middle Ages As both a self contained summary and also with its many pointers to further reading a handbook for research it will become an indispensable reference book on this vast subject
