Hardy,2014-03-21 An in depth study of humanity's Anunnaki origins and the Anunnaki battle for an intelligent versus enslaved humanity Explains the genetic engineering of humanity by an Anunnaki scientist Ninmah Shows how the concepts of sin and the inferiority of women arose from Enlil's will to keep humanity underdeveloped clashing with Enki's and Ninmah's plan to make us equal in intelligence Reveals how humanity's long history of conflict was shaped by the battle between Enki and his brother Enlil Further developing the revolutionary work of Zecharia Sitchin Chris Hardy shows that the gods of ancient myth visitors from the planet Nibiru created us using their own divine DNA first through DNA extraction from their own ribs marrow and later by direct relations with early human females Drawing upon multiple sacred texts Hardy details the genetic engineering of humanity by Anunnaki scientist Ninmah with the help of Enki and Hermes She reveals how Ninmah's first female human creation Tiamat Eve contained more alien DNA than the earlier male one Adamu and how the biblical Noah represents the perfection of her work Examining the war between Anunnaki brothers Enki and Enlil Hardy reveals how the concepts of sin and the inferiority of women were born out of Enlil's attempts to enslave and then wipe out humanity repeatedly thwarted by Enki and Ninmah The author further explains how the sacred sexuality taught to humans still seen in Tantric practice became suppressed millennia later by the patriarchal concept of original sin and how innocent Eve took the blame for the expulsion from Eden and fall from Grace Showing that the god who created us was not the same

god who expelled us from Eden Hardy explains that there will be no apocalypse because the Good Evil duality has never truly existed it has been only enemy gods fighting and implicating humanity in the wake of their own competition for power With a full psychological understanding of how the ancient gods have shaped humanity's ongoing history of conflict we can move beyond the framework of my Good versus your Evil imposed by Enlil and begin to steer our own planetary destiny

Pascal's Wager Paul Bartha, Lawrence Pasternack, 2018-10-31 In his famous Wager Blaise Pascal 1623-62 offers the reader an argument that it is rational to strive to believe in God Philosophical debates about this classic argument have continued until our own times This volume provides a comprehensive examination of Pascal's Wager including its theological framework its place in the history of philosophy and its importance to contemporary decision theory The volume starts with a valuable primer on infinity and decision theory for students and non specialists A sequence of chapters then examines topics including the Wager's underlying theology its influence on later philosophical figures and contemporary analyses of the Wager including Alan Hájek's challenge to its validity the many gods objection and the ethics of belief The final five chapters explore various ways in which the Wager has inspired contemporary decision theory including questions related to infinite utility imprecise probabilities and infinitesimals

The God Effect is Real Sujith Ittan, 2025-07-14 Something is really wrong with our reality It appears that our minds are being manipulated Synchronicities and the collective unconscious are clues about the mind manipulation mechanism This mechanism is the God effect according to the author The God effect implies that there is an intelligent entity controlling our minds Who is this intelligent entity manipulating our minds A God must be responsible for the God effect How exactly is this God manipulating our minds in this reality that is based on the principles of materialism that we know so well through our sciences We are unable to account for the God effect within the paradigm of materialism Are we in a reality based on idealism where consciousness is fundamental and an intelligent God exists in this context Or are we living inside a computer simulation What is the nature of our minds In order to account for God we have to question our understanding of our reality and we have to ask if we are truly in control of our minds thoughts and actions This is a gist of the God mind and reality problem that the author tries to discuss in this book In his first book the author wondered if a simulation accounts for the God effect In this book he wonders if idealism with consciousness first principles and an intelligent God solves the problem

Treatise on the Heathen Superstitions that Today Live Among the Indians Native to this New Spain, 1629 Hernando Ruiz de Alarcón, 1984 The Treatise of Hernando Ruiz de Alarcón is one of the most important surviving documents of early colonial Mexico It was written in 1629 as an aid to Roman Catholic churchmen in their efforts to root out the vestiges of pre-Columbian Aztec religious beliefs and practices For the student of Aztec religion and culture is a valuable source of information Hernando Ruiz de Alarcón was born in Taxco Guerrero Mexico in the latter part of the sixteenth century He attended the University of Mexico and later took holy orders Sometime after he was assigned to the parish of Atenango he began writing the Treatise for his fellow priests and church superiors to use as a guide

in suppressing native heresy With great care and attention to detail Ruiz de Alarcón collected and recorded Aztec religious practices and incantations that had survived a century of Spanish domination sometimes in his zeal extracting information from his informants through force and guile He wrote down the incantations in Nahuatl and translated them into Spanish for his readers He recorded rites for such everyday activities as woodcutting traveling hunting fishing farming harvesting fortune telling lovemaking and the curing of many diseases from toothache to scorpion stings Although Ruiz de Alarcón was scornful of native medical practices we know now that in many aspects of medicine the Aztec curers were far ahead of their European counterparts

Questions of Faith Peter Berger, 2015-11-04 Leading religious and cultural commentator Peter Berger explores how and what we can believe in modern times Deals clearly with questions such as Does God exist What was so special about Jesus How can one be Christian in a pluralistic society Structured around key phrases from the Apostles Creed Draws on the Christian theological tradition and the work of other relevant thinkers such as Freud and Simone Weil The author takes the position of an open minded sceptic exploring his own beliefs

Hosea Francis Landy, 1995-10-01 This reading of Hosea explores the book from a feminist psychoanalytical and poetic perspective What is God doing with a prostitute How does the theme of prostitution relate to the abjection of the woman as the other and the fantasy of sexual ecstasy precisely because she escapes patriarchal order Where is the prophet situated in the dialectic of rage and desire that both seduces and condemns Israel His voice is both masculine and feminine and poetically embodies the sensuality of wayward Israel The ambiguity of voice is also that of the prophet's role which is both to nurture Israel as on its Exodus from Egypt and to be the trap that destroys it The problematic of voice and prophetic function is evident in the vivid dissection of Israel's social institutions whose disintegration is inversely related to the centrality of the discussion in the structure of the book and in the violent swings from despair to impossible hope The focus on immediate and uncontrollable entropy manifest in extended tangled metaphors that occupies the centre of the book is framed in the outer chapters by intertextual references to Israel's primordial vision and the romantic distantiation of the Song of Songs in which the erotic and poetic contradictions of the book find their perhaps ironic resolution

Clones of God Michael Inuit, 2017-01-22 Reader you may wonder Is this a science fiction story with human clones Or is this a spiritual novel related to God It is both Two ETs come to Earth for a vacation They analyze and they worry about what is happening on our planet They don't understand why the elite control the lives of people They don't comprehend why ordinary Humans so feebly react to that But the beginning of the 21st century was a time of Great Awakening The pivotal moment was the subtle split of Earth's magnetic field It allowed the creation of two densities two worlds Follow the thrilling events that lead to that moment Read the story of people who softly act and change their worldview Read about Humans as spiritual beings in a material world Those two ETs teach them to have a dialogue with the Divine Self Within They help Humans to be aware like themselves of being clones of God Then they can be empowered and change the world for good With those two ETs and enlightened Humans embark on this odyssey

Sparrow Jacob BOEHME,1656 *The Rise of the Goddess in the Hindu Tradition* Tracy Pintchman,1994-10-28 This book explores the rise of the Great Goddess by focusing on the development of sakti creative energy maya objective illusion and prakrti materiality from Vedic times to the late Puranic period clarifying how these principles became central to her theology Introduction to Classical Nahuatl James Richard Andrews,2003 Nahuatl is the language used by the ancient Aztecs and the Nahua Indians of Central Mexico This text introduces the language using an anthropological approach teaching learners to understand Nahuatl according to its own distinctive grammar and to reject translationalist descriptions based on English or Spanish notions of grammar In particular the author emphasizes the nonexistence of words in Nahuatl except for the few so called particles and stresses the nuclear clause as the basis for Nahuatl linguistic organization *From Moon Goddesses to Virgins* Pete Sigal,2013-12-06 For the preconquest Maya sexuality was a part of ritual discourse and performance and all sex acts were understood in terms of their power to create maintain and destroy society As postconquest Maya adapted to life under colonial rule they neither fully abandoned these views nor completely adopted the formulation of sexuality prescribed by Spanish Catholicism Instead they evolved hybridized notions of sexual desire represented in the figure of the Virgin Mary as a sexual goddess whose sex acts embodied both creative and destructive components This highly innovative book decodes the process through which this colonization of Yucatan Maya sexual desire occurred Pete Sigal frames the discussion around a series of texts including the

Books of Chilam Balam and the Ritual of the Bacabs that were written by seventeenth and eighteenth century Maya nobles to elucidate the history religion and philosophy of the Yucatecan Maya communities Drawing on the insights of philology discourse analysis and deconstruction he analyzes the sexual fantasies fears and desires that are presented often unintentionally in the margins of these texts and shows how they illuminate issues of colonialism power ritual and gender
