Royce Clark,2021-09-02 The proximity of many different religions each with its own unique metaphysics and ethics did not exist in the ancient world when those religions came into existence Many went uncontested for centuries and many merged with governments to shape the laws for the entire people of a culture or nation Theocracies can exist only where there is no plurality of religions or where the minor religions do not mind the dominant one dictating policy for all citizens In the world's two greatest democracies the U S and

India despite the diversity that a democratic society presupposes a majoritarian religion continues to assert an advantage over others to shape the social contract An Ethic of Trust Mutual Autonomy and the Common Will to Live addresses this problem moving beyond sheer utilitarianism W Royce Clark argues that because of religious pluralism a nation s ethic must be grounded on freestanding principles This means that its base must be universally obvious and its principles must be agreeable to all citizens The base is instinctual the will to live which is present in all living creatures and the recognition of that can influence people to agree to a voluntary unity and a couple of other basic principles to which all would agree principles which embrace differences within relationships whether in a marriage or a constitutional republic But to voluntarily agree to these requires a genuine mutual trust and mutual autonomy which can maximize unity while allowing individual liberties To arrive at this point Clark blends scholars who are often cast as opposites Albert Schweitzer Friedrich Nietzsche and John Rawls to forge a new path for an inclusive ethic for a nation within which both the religious and non religious will have equal freedom and stability

The Metaphysics of Trust Philip Goodchild,2021-06-29 Following Credit and Faith and Economic Theology this third volume in the series develops a metaphysics which is missing when trust is ordered around economic theories and institutions Human existence may be conceived according to its temporal dimensions of appropriation participation and offering Engaging with the Western philosophical tradition from the Neo Pythagoreans and Plato to Heidegger and Arendt drawing especially from Augustine and Weil Goodchild offers striking reconstructions of the meanings of economic political and religious dimensions of life The outcome is an elaboration of conceptions of wealth power contingency necessity and grace which give a new orientation to human life and endeavour Goodchild situates this discussion within the current historical era of the breakdown of global financial capitalism He draws from the Financial Revolution in England as a time of crisis which illuminates our own Faced with a range of global crises Goodchild proposes an alternative between strategies for survival either submission before a Great Machine of Credit as an autonomous unthinking system for regulating human behaviour or accession to the necessity of grace as a way of empowering the pursuit of wealth justice and thought

Breach of Trust Peter Birks,Arianna Pretto-Sakmann,Arianna Pretto,2002-07-05 Recent leading cases have demonstrated the urgent need to modernize the learning on breach of trust which has lagged behind the flourishing scholarship on the creation of trusts Since breach of trust or fiduciary duty occupies the centre of the legal stage it comes as a surprise that although one or two novelists have chosen Breach of Trust as the title to their book no lawyer has so far thought it necessary to produce a specialized work on the subject To fill the gap this book written by a team of leading trust lawyers from a number of common law jurisdictions investigates all the principal aspects of the subject The nature of the trustee s duties and of the liability for breach is closely examined and all available defences and excuses are reviewed Two substantial chapters consider the consequences of assisting a breach or receiving trust property from a trustee acting in breach The book closes with a critical overview of the entire topic

Solomon, Fernando Flores, 2003-05-01 In business politics marriage indeed in any significant relationship trust is the essential precondition upon which all real success depends But what precisely is trust How can it be achieved and sustained And most importantly how can it be regained once it has been broken In *Building Trust* Robert C Solomon and Fernando Flores offer compelling answers to these questions They argue that trust is not something that simply exists from the beginning something we can assume or take for granted that it is not a static quality or social glue Instead they assert that trust is an emotional skill an active and dynamic part of our lives that we build and sustain with our promises and commitments our emotions and integrity In looking closely at the effects of mistrust such as insidious office politics that can sabotage a company s efficiency Solomon and Flores demonstrate how to move from naive trust that is easily shattered to an authentic trust that is sophisticated reflective and possible to renew As the global economy makes us more and more reliant on strangers and as our political and personal interactions become more complex *Building Trust* offers invaluable insight into a vital aspect of human relationships
