Hearings United States. Congress. House, 1948 *Hearings* United States. Congress. House. Committee on Armed Services, 1948 **Milton's Places of Hope** Mary C. Fenton, 2017-03-02 In early modern culture and in Milton's poetry and prose this book argues the concept of hope is intrinsically connected with place and land Mary Fenton analyzes how Milton sees hope as bound both to the spiritual and the material the internal self and the external world Hope as Fenton demonstrates comes from commitment to literal places such as the land ideological places such as the nation and sacred interior places such as the human soul Drawing on an array of materials from the seventeenth century including emblems legal treatises political pamphlets and prayer manuals Fenton sheds light on Milton's ideas about personal and national identity and where people should place their sense of power and responsibility Milton's politics and where he thought the English nation was and where it should be heading and finally Milton's theology and how individuals relate to God

Milton and the Ends of Time Juliet Cummins, 2003-05 In *Milton and the Ends of Time* a team of leading international scholars addresses Milton's treatment of millennial and apocalyptic ideas topics of major importance in the religious and philosophical thought of his day The subject has wide ranging ramifications for the interpretation of Milton's poetry and prose as his speculations on the ends of time played a vital part in shaping the Miltonic quest and vision This collection provides a broad range of approaches to Milton including Milton and the visual arts Milton's politics and theology and Milton and science *The State of the Dead* Anson West, 1871 *The Rise of the Kingdom of Heaven, Volume 1 (Paperback)* Gerhard Alm, 2008-10-25 Living in a Hippie Community in the Australian rainforest I in January 1992 started to write about my visions and spiritual experiences I described ten places in our heads as homes of the human spirit There are many publicly known people who are involved in the move of the Earth to a higher dimension in 2013 More than 200 000 people live on Earth and at the same time on a parallel world which is a home for immortal people The evangelist John spoke with a Cross of Light I believe that a new Cross of Light will appear on Earth soon In July 1979 I met the devil and his wife on the inner German border I name some people who have been the devil of previous Earth like planets in older universes Alex Collier wrote in 95 that since my 40th birthday on 3 23 1994 vibrations leave all black holes of our local universe changing its nature lifting all planets into higher dimensions I believe these frequencies come from the Immortals living on Earth now including me **The Cambridge Introduction to Milton** Stephen B. Home Matters R. Rubenstein, 2001-02-23 Despite its typically regressive associations with homesickness the longing associated with nostalgia may also function progressively as a vehicle for imaginatively fixing the past in two senses securing and mending or repairing. Considering fiction by two British and six American women writers of different generations and ethnicities this study explores tensions between home and exile insider and outsider longing and belonging loss and recovery. Rubenstein argues that nostalgia functions narratively as a strategy for interrogating not only notions of home homesickness and homeland but also cultural historical dislocation aging and moral responsibility. These narratives reframe a significant locus of concern in contemporary female experience personal and or cultural displacement and longing for home are ultimately transmuted imaginatively at least by a restorative vision that enables healing and emotional repair.

Studies in Philology, 1927

Milton, Evil and Literary History Claire Colebrook, 2008-02-28 Milton Evil and Literary History addresses the ways in which we read literary history according to quite specific images of growth development progression flourishing and succession. Goodness has always been aligned with a life of expansion creation production and fruition while evil is associated with the inert non relational static and stagnant. These associations have also underpinned a distinction between good and evil notions of capitalism where good exchange enables agents to enhance their living potential and is contrasted with the evils of a capitalist system that circulates without any reference to life or spirit. Such images of a ghostly and technical economy divorced from animating origin are both central to Milton's theology and poetry and to the theories of literary history through which Milton is read. Regarded as a radical precursor to Romanticism Milton's poetry supposedly requires the release of his radical spiritual content from the fetters of received orthodoxy. This literary and historical imagery of releasing the radical spirit of a text from the dead weight of received tradition is this book argues the dominant doxa of historicism and one which a counter reading of Milton ought to question.

The Unimagined in the English Renaissance Andrew Mattison,2013 When we read poetry we tend to believe that we are getting a glimpse of the interior of the poet s mind pictures from the poet s imagination relayed through the representative power of language But poets themselves sometimes express doubt usually indirectly that poetic language has the capability or the purpose of revealing these images This book examines description in Renaissance poetry aiming to reveal its complexity and variability its distinctiveness from prose description and what it can tell us about Renaissance ways of thinking about the visible world and the poetic mind Recent criticism has tended to address representation as a product of culture The Unimagined in the English Renaissance argues to the contrary that attention to description as a literary phenomenon can complicate its cultural context by recognizing the persistent problems of genre and literary history The book focuses on Sidney Spenser Donne and Milton who had very different aims as poets but shared a degree of skepticism about imagistic representation For these poets description can obscure as much as it makes visible and can create whole categories of existence that are outside of visibility altogether *Outlooks* Peter Horne,Reina Lewis,2002-09-09 Outlook explores the relationship of lesbian and gay sexualities to visual representation It reflects the richness of lesbian and gay ways of producing and reading visual cultures at the same time as it tackles such burning issues as the advantage of adopting

a queer perspective on past art the responses of lesbian and gay artists to the AIDS crisis and society's attempts to censor homosexual art This volume provides a space for lesbian and gay artists to exhibit their work and discuss its relationship to sexuality It allows for a wide ranging theoretical and historical discussion of the place of lesbian and gay men within visual cultures and shows how much has been missed by a heterosexist approach to art history and the study of culture Richly illustrated this book includes statements by contemporary lesbian and gay artists photographers and performers as well as articles by art historians cultural theorists and lesbians and gay activists
