Smith, 2012-08-10 Who gets to say what counts as contemporary art Artists critics curators gallerists auctioneers collectors
or the public Revealing how all of these groups have shaped today's multifaceted definition Terry Smith brilliantly shows that
an historical approach offers the best answer to the question What is Contemporary Art Smith argues that the most
recognizable kind is characterized by a return to mainstream modernism in the work of such artists as Richard Serra and
Gerhard Richter as well as the retro sensationalism of figures like Damien Hirst and Takashi Murakami At the same time
Smith reveals postcolonial artists are engaged in a different kind of practice one that builds on local concerns and tackles
questions of identity history and globalization A younger generation embodies yet a third approach to contemporaneity by
investigating time place mediation and ethics through small scale closely connective art making Inviting readers into these
diverse yet overlapping art worlds Smith offers a behind the scenes introduction to the institutions the personalities the
biennials and of course the works that together are defining the contemporary The resulting map of where art is now
illuminates not only where it has been but also where it is going **Cremaster 3** Musée d'art moderne de la ville de

November 1998 and winter 2003 Jerry Saltz is the best informed and hair trigger liveliest of contemporary art critics

people's long views Peter Schjeda Jerry Saltz looks at art from the perspective of the viewer the ignorant the lover and the
