Palestinian Literature and Film in Postcolonial Feminist Perspective Anna Ball, 2012 Palestinian Literature and Film in Postcolonial Feminist Perspective is the first sustained study of gender consciousness in the Palestinian creative imagination Drawing on concepts from postcolonial

feminist theory Ball analyses a range of literary and filmic works by major creative practitioners including Michel Khleifi Liana Badr Annemarie Jacir Elia Suleiman Mona Hatoum and Suheir Hammad and reveals a hitherto unrecognized trajectory in gender consciousness under development in the Palestinian imagination from the start of the twentieth century The book explores how these works resonate with questions of power identity nation resistance and self representation in the Palestinian imagination more broadly and asks how these gender conscious narratives transform our understanding of Palestine s struggle for postcoloniality Working at the cusp of postcolonial feminist and cultural enquiry Ball seeks to open up vital new directions in the interdisciplinary study of Palestine

Robert Greene Kirk Melnikoff,2017-03-02 While Robert Greene was the most prolific and perhaps the most notorious professional writer in Elizabethan England he continues to be best known for his 1592 quip comparing Shakespeare to an upstart crow In his short twelve year career Greene wrote dozens of popular pamphlets in a variety of genres and numerous professional plays At his premature death in 1592 he was a bonafide London celebrity simultaneously maligned as Grub Street profligate and celebrated as literary prodigy The present volume constitutes the first collection of Greene s reception both in the early modern period and in our present era offering in its poems prose passages essays and chapters that which is most singular among what has been written about Greene and his work It also includes a complete list of Greene s contemporary reception until 1640 Kirk Melnikoff s wide ranging and revisionist introduction organizes this reception generically while at the same time situating it in the context of recent critical methodologies

*Literary History: Towards a Global Perspective* Anders Pettersson, Gunilla Lindberg-Wada, Margareta Petersson, Stefan Helgesson,2011-12-22 Literary History Towards a Global Perspective is a research project funded by the Swedish Research Council Vetenskapsr det Initiated in 1996 and launched in 1999 it aims at finding suitable methods and approaches for studying and analysing literature globally emphasizing the comparative and intercultural aspect Even though we nowadays have fast and easy access to any kind of information on literature and literary history we encounter more than ever the difficulty of finding a credible overall perspective on world literary history Until today literary cultures and traditions have usually been studied separately each field using its own principles and methods Even the conceptual basis itself varies from section to section and the genre concepts employed are not mutually compatible As a consequence it is very difficult if not impossible for the interested layperson as well as for the professional student to gain a clear and fair perspective both on the literary traditions of other peoples and on one s own traditions The project can be considered as a contribution to gradually removing this problem and helping to gain a better understanding of literature and literary history by means of a concerted empirical research and deeper conceptual reflection The contributions to the four volumes are written in English by specialists from a large number of disciplines primarily from the fields of comparative literature Oriental studies and African studies in Sweden All of the literary texts discussed in the articles are in the original language Each one of the four volumes is devoted to a special research topic

*Literature and Culture in Modern Britain: Volume*

*Three* Clive Bloom, Gary Day, 2014-06-11 British culture has changed almost beyond recognition since 1956 Angry young men have been displaced by Yuppies Elvis by the Spice Girls and meat and two veg by continental cuisine What is more as the death of Diana Princess of Wales showed the British are now more famous for a trembling lower lip than a stiff upper one This volume the last in the series examines the transformations in literature and culture over the last forty years An introductory essay provides a context for the following chapters by arguing that although there have been significant changes in British life there are also profound continuities It also discusses the rise of theory and its impact on the humanities Each essay in the volume concentrates on a facet of British culture over the last half century from painting to poetry from the seriousness of the novel to the postmodern ironies of the computing age What we get from this selection is not only an informed history of the relations between literature and culture but also a lively sense of cultural change not least of which is the new found relationship between literature and other arts which ushers us into the new millennium

**Women and Early Modern Cultures of Translation** Hilary Brown, 2022 Women and Early Modern Cultures of Translation Beyond the Female Tradition is a major new intervention in research on early modern translation and will be an essential point of reference for anyone interested in the history of women translators Research on women translators has often focused on early modern England the example of early modern England has been taken as the norm for the rest of the continent and has shaped research on gender and translation more generally This book brings a new European perspective to the field by introducing the case of Germany It draws attention to forty women who can be identified as translators in sixteenth and seventeenth century Germany and shows how their work does not fit easily into traditional narratives about marginalization and subversiveness The study uses the example of Germany to argue against reading the work of translating women primarily through the lens of gender and to challenge claims about the existence of a female translation tradition which transcends the boundaries of time and place Broadening our perspective to include Germany provides a more nuanced and informed account of the position of women within European translation cultures and forces us to rethink gender as a category of analysis in translation history The book makes the case for a new woman interrogated approach to translation history to borrow a concept from Carol Maier and as such it will provide a blueprint for future work in the area Provided by publisher
