## **Modern African Political Leaders:**

*Modern African Political Leaders* R. Kent Rasmussen, 1998 This title profiles eight modern African political leaders including Nelson Mandela and Haile Selassie      Political Leadership in Africa Giovanni Carbone, Alessandro Pellegata, 2020-03-19 An innovative analysis of political leadership in Africa between 1960 and 2018 drawing on an entirely new dataset      *Government Leaders, Military Rulers and Political Activists* David W. Del Testa, 2014-01-27 In each volume an introductory essay outlines the history of the disciplines under discussion and describes how changes and innovations in these disciplines have affected our lives The biographies that follow are organized in an A Z format each biography is divided into a life section describing the individual's life and influences and a legacy section summarizing the impact of that individual's work throughout history These biographies cover a diverse group of men and women from around the globe and throughout history Franklin Delano Roosevelt Mao Tse tung and Genghis Khan are among the 200 well known historical figures included in this volume Examples of other lesser known yet important individuals covered in this work are Gustavus Adolphus Swedish empire creator Hatshepsut queen of ancient Egyptian dynasty and Jean Jaurès French socialist leader and pacifist Each synopsis provides information on each individual's enduring impact on the common understanding of fundamental themes of human existence      *The Oxford Handbook of Political Leadership* R. A. W. Rhodes, Paul 't Hart, 2014 Political leadership has returned to the forefront of research in political science in recent years after several years of neglect This Handbook provides a broad ranging and cohesive examination of the study of political leadership      *The Oxford Handbook of Modern African History* John Parker, Richard Reid, 2013-10 Provides the latest insights into and interpretations of the history of Africa      **Africa in Contemporary Perspective** Manuh, Takyiwaa, Sutherland-Addy, Esi, 2014-05-08 An important feature of Ghanaian tertiary education is the foundational African Studies Programme which was initiated in the early 1960s Unfortunately hardly any readers exist which bring together a body of knowledge on the themes issues and debates which inform and animate research and teaching in African Studies particularly on the African continent This becomes even more important when we consider the need for knowledge on Africa that is not Eurocentric or sensationalised but driven from internal understandings of life and prospects in Africa Dominant representations and perceptions of Africa usually depict a continent in crisis Rather than buying into external representations of Africa with its lacks and aspirations for Western modernities we insist that African scholars in particular should be in the forefront of promoting understanding of the pluri lingual overlapping and dense reality of life and developments on the continent to produce relevant and usable knowledge Continuing and renewed interest in Africa's resources including the land mass economy minerals visual arts and performance cultures as well as bio medical knowledge and products by old and new geopolitical players obliges African scholars to transcend disciplinary boundaries and to work with each other to advance knowledge and uses of those resources in the interests of Africa's people      **Global Geopolitical Power and African Political and Economic Institutions** John

James Quinn,2015-12-30 *Global Geopolitical Power and African Political and Economic Institutions When Elephants Fight* describes the emergence and nature of the prevailing African political and economic institutions in two periods In the first most countries adopted political and economic institutions that funneled significant levels of political and economic power to the political elites usually through one or no party military political systems inward oriented development policies and or state led and often state owned industrialization In the second period most countries adopted institutions that diluted the overarching political and economic power of ruling elites through the adoption of de jure multiparty electoral systems more outward oriented trade policies and the privatization of many state owned or controlled sectors though significant political and economic power remains in their hands The choices made in each period were consistent with prevailing ideas on governance and development the self interests of political elites and the perceived availability of support or autonomy vis vis domestic regional and international sources of power at the time This book illustrates how these two region wide shifts in prevailing political and economic institutions and practices of Africa can be linked to two prior global geopolitical realignments the end of WWII with the ensuing American and Soviet led bipolar system and the end of the Cold War with American primacy Each period featured changed or newly empowered international and regional leaders with competing national priorities within new intellectual and geopolitical climates altering the opportunities and constraints for African leaders in instituting or maintaining particular political and economic institutions or practices The economic and political institutions of Africa that emerged did so as a result of a complex mix of contending domestic regional and international forces material and intellectual all which were themselves greatly transformed in the wake of these two global geopolitical realignments

**African Philosophy** Lajul, Wilfred,2014-01-16 African philosophy has for long been rejected on the basis that it is not known or has not been written down Behind this view is the idealist presumption that for something to exist it must first be

perceived However for something to be perceived it must first exist African Philosophy Critical Dimensions examines what constitutes African philosophy in terms of its meaning foundation sources methodology characteristics and relevance The book analyses traditional African philosophy from the political social ethical epistemological and metaphysical angles The book further critically discusses modern African political philosophy modern African social philosophy modern African economic philosophy and modern African philosophy of religion It ends with the identification of the different conclusions that were derived from the study and general recommendations some specifically for researchers and writers especially in the area of African philosophy Wilfred Lajul joins other authentic voices examining African Philosophy African Feminism Gwendolyn Mikell,2010-08-03 African feminism this landmark volume demonstrates differs radically from the Western forms of feminism with which we have become familiar since the 1960s African feminists are not by and large concerned with issues such as female control over reproduction or variation and choice within human sexuality nor with debates about essentialism the female body or the discourse of patriarchy The feminism that is slowly emerging in Africa is distinctly heterosexual pronatal and concerned with bread butter and power issues Contributors present case studies of ten African states demonstrating that as they fight for access to land for the right to own property for control of food distribution for living wages and safe working conditions for health care and for election reform African women are creating a powerful and specifically African feminism AFRICAN POLITICAL PHILOSOPHY Godfrey O. Ozumba & Elijah O. John (Edited),2017-01-07 African Political Philosophy has come to dismiss the bogey myth of non existence of the great and noble ideas of African philosophy African theology and African history It has rather come to justify the reality and existence of African philosophy espoused in the early 1970s by people like Professor Innocent Onyewuenyi who propounded the notion of Egyptian African origin of Greek philosophy This has also added to its academic merit and market potential It is indeed a necessary addition to the growing volumes of brilliant books by a number of indigenous African scholars and writers This book is endorsed by Edioms Research and Innovation Centre E RIC Government in West Africa W.E.F. Ward,2023-05-03 Government in West Africa 1968 examines the practical working of modern government and the constitutional history of West Africa It looks at various political thinkers and their application to the issues of civil government in West Africa modern constitutional struggles on the continent and problems associated with different political systems in the region *Africa Unchained* G. Ayittey,2016-04-30 In Africa Unchained George Ayittey takes a controversial look at Africa's future and makes a number of daring suggestions Looking at how Africa can modernize build and improve their indigenous institutions which have been castigated by African leaders as backward and primitive Ayittey argues that Africa should build and expand upon these traditions of free markets and free trade Asking why the poorest Africans haven't been able to prosper in the Twenty first century Ayittey makes the answer obvious their economic freedom was snatched from them War and conflict replaced peace and the infrastructure crumbled In a book that will be pondered over and argued about as much as his previous

volumes Ayithey looks at the possibilities for indigenous structures to revive a troubled continent Routledge International Handbook of Charisma José Pedro Zúquete,2020-11-29 The Routledge International Handbook of Charisma provides an unprecedented multidimensional and multidisciplinary comparative analysis of the phenomenon of charisma first defined by Max Weber as the irrational bond between deified leader and submissive follower It includes broad overviews of foundational theories and experiences of charisma and of associated key issues and themes Contributors include 45 influential international scholars who approach the topic from different disciplinary perspectives and utilize examples from an array of historical and cultural settings The Handbook presents up to date concise thought provoking innovative and informative perspectives on charisma as it has been expressed in the past and as it continues to be manifested in the contemporary world by leaders ranging from shamans to presidents It is designed to be essential reading for all students researchers and general readers interested in achieving a comprehensive understanding of the power and potential of charismatic authority in all its varieties subtleties dynamics and current and potential directions **Explorations in African Political Thought** Teodros

Kiros,2013-10-23 This rich collection brings together many of the leading authorities on African political philosophy to present a variety of perspectives on this rapidly growing field They seek to show that African philosophy can serve African people as a moral activity guided by the principles of practical reason in addressing problems of the basic structures of social political and economic institutions **African Political Systems Revisited** Aleksandar Bošković,Günther Schlee,2022-04-08 Reexamining a classical work of social anthropology African Political Systems 1940 edited by Fortes and Evans Pritchard this book looks at the colonial and academic context from which the work arose as well as its reception and its subject matter and looks at how the work can help with analysis of current politics in Africa This book critically reflects upon the history of anthropology It also contributes to a political anthropology which is aware of its antecedents self reflexive as a discipline conscious of pitfalls and biases and able to locate itself in its academic social and political environment

The Political Impact of African Military Leaders Sabella Ogbobode Abidde,Felix Kumah-Abiwu,2023-06-28 This edited volume examines the cases of four African military leaders who had enormous impact on the continent and beyond These military officers and later heads of state Jerry Rawlings of Ghana Moammar Gaddafi of Libya Thomas Sankara of Burkina Faso and Gamal Abdel Nasser of Egypt were provocative and polarizing figures beloved domestically but mostly viewed with suspicion and hostility by foreign governments This volume studies these leaders as a group engaging in a critical but systematic examination of their personalities leadership styles official performance legacies and their continuing impact on the future and political destiny of the continent Providing a survey of controversial but important African political figures this volume will be of use to scholars and students in the social sciences especially those interested in African history African studies military science Black studies political science leadership studies and the politics of developing nations A Theological Examination of Symbolism in Ezekiel with Emphasis on the Shepherd Metaphor Joel K. T. Biwul,2013-12-14 This

book addresses one of the ever aching problems of human society failed leadership in secular and sacred domains It points out from Ezekiel s use of symbolism and shepherd motif what society stands to suffer and or lose under a bad human leadership structure and bad governance This plays out in the book s x ray of the characteristics of sheep needing a shepherd Dr Biwul contends that Ezekiel used symbolic sign acts to indict both Israel s bad and imperfect human shepherds as well as the Babylonian exiles as being responsible for their plight for not upholding the norms of Deuteronomic theology Particularly he argues forcefully from Ezekiel s shepherd motif that a major factor responsible for the exile of Israel as a covenant community is the massive failure of its bad and imperfect human shepherds who did not possess the requisite shepherding qualities inherent in Yahweh as chief shepherd of Israel Biwul therefore draws particular attention to the reality of Ezekiel s use of the recognition formula when Yahweh acts at last to restore his people This is rooted in the theological eschatological motif which would come to its full reality in the anticipated eschatological community when Yahweh would shepherd his people

A World History of Political Thought James Babb,2025-02-12 In this revised and improved second edition of A World History of Political Thought the comprehensive comparative analysis of political thought from 600 BC to the present day is given even more depth and context The result is an intriguing and accessible journey through world history and culture

Traditional Leadership and Democratisation in Southern Africa Sandra Düsing,2002 What are the impacts of ethnically based traditional political institutions on democratic state and nation building in Southern Africa and how do heterogeneous sources of legitimacy affect the prospects of long term democratic regime consolidation What are the impacts of traditionalism employed for purposes of party political mobilization An indicator for the political influence of traditional leadership in Southern Africa is the fact that a considerable number of democratically elected politicians in high office originate from aristocratic families representing hereditary traditional leadership structures for centuries This is evident for the charismatic founding president of the new South Africa Nelson Mandela as well as for his adversary the prime minister in office Mangosuthu Buthelezi The careful reconsideration of this state behind the state has been identified as crucial in this study to make any realistic assessments of the prospects for sustainable democratization in Southern African countries in the near future
