Kathryn E. O'Rourke,2024-05-07 Major buildings many designed by regionally and nationally prominent architects followed
the money in the state as the influence and image of Texas grew Relentless ambition a forward looking attitude and a strong
sense of place combined to make Texans particularly receptive to modern architecture s implication of newness its future
oriented image and its capacity to reinterpret historical forms in novel ways While many books on Texas architecture focus
on one building type residential architecture courthouses and so on this project adopts a broader lens A dozen chapters
presented under four thematic headings explore buildings through a variety of frameworks there are the inescapable forces
of heat and money essential functions like caregiving and government and groupings for leisure and multi building sites such
as museums and campuses In each of these sections the authors present a constellation of buildings with one central
example and several supporting ones **Art Deco Chicago** Robert Brueggmann,2018-10-02 An expansive take on American
Art Deco that explores Chicago s pivotal role in developing the architecture graphic design and product design that came to
define middle class style in the twentieth century Frank Lloyd Wright s lost Midway Gardens the iconic Sunbeam Mixmaster
and Marshall Field s famed window displays despite the differences in scale and medium each belongs to the broad current
of an Art Deco style that developed in Chicago in the first half of the twentieth century This ambitious overview of the city s
architectural product industrial and graphic design between 1910 and 1950 offers a fresh perspective on a style that would
come to represent the dominant mode of modernism for the American middle class Lavishly illustrated with 325 images the
book narrates Art Deco s evolution in 101 key works carefully curated and chronologically organized to tell the story of not
just a style but a set of sensibilities Critical essays from leading figures in the field discuss the ways in which Art Deco
created an entire visual universe that extended to architecture advertising household objects clothing and even food design
Through this comprehensive approach to one of the 20th century s most pervasive modes of expression in America Art Deco
Chicago provides an essential overview of both this influential style and the metropolis that came to embody it Record
Houses of ... Plus Apartments of the Year ,1999 **A House in the Sun** Daniel A. Barber,2016-10-13 A House in the Sun
describes a number of experiments in solar house heating in American architectural engineering political economic and
corporate contexts from the beginning of World War II until the late 1950s Houses were built across the Midwest Northeast
and Southwestern United States and also proposed for sites in India South Africa and Morocco These experiments developed
in parallel to transformations in the discussion of modern architecture relying on new materials and design ideas for both

energy efficiency and claims to cultural relevance Architects were among the myriad cultural and scientific actors to see the solar house as an important designed element of the American future These experiments also developed as part of a wider analysis of the globe as an interconnected geophysical system Perceived resource limitations in the immediate postwar period led to new understandings of the relationship between energy technology and economy The solar house both as a charged object in the milieu of suburban expansion and as a means to raise the standard of living in developing economies became an important site for social technological and design experimentation This led to new forms of expertise in architecture and other professions Daniel Barber argues that this mid century interest in solar energy was one of the first episodes in which resource limitations were seen as an opportunity for design to attain new relevance for potential social and cultural transformations Furthermore the solar discussion established both an intellectual framework and a funding structure for the articulation of and response to global environmental concerns in subsequent decades In presenting evidence of resource tensions at the beginning of the Cold War the book offers a new perspective on the histories of architecture technology and environmentalism one more fully entangled with the often competing dynamics of geopolitical and geophysical pressures

Modern in the Middle Susan Benjamin, Michelangelo Sabatino, 2020-09-01 The first survey of the classic twentieth century houses that defined American Midwestern modernism Famed as the birthplace of that icon of twentieth century architecture the skyscraper Chicago also cultivated a more humble but no less consequential form of modernism the private residence *Modern in the Middle Chicago Houses 1929-75* explores the substantial yet overlooked role that Chicago and its suburbs played in the development of the modern single family house in the twentieth century In a city often associated with the outsize reputations of Frank Lloyd Wright and Ludwig Mies van der Rohe the examples discussed in this generously illustrated book expand and enrich the story of the region's built environment Authors Susan Benjamin and Michelangelo Sabatino survey dozens of influential houses by architects whose contributions are ripe for reappraisal such as Paul Schweikher Harry Weese Keck Keck and William Pereira From the bold early example of the Battledock House by Henry Dubin 1930 to John Vinci and Lawrence Kenny's gem the Freeark House 1975 the generation spanning residences discussed here reveal how these architects contended with climate and natural setting while negotiating the dominant influences of Wright and Mies They also reveal how residential clients typically middle class professionals progressive in their thinking helped to trailblaze modern architecture in America Though reflecting different approaches to site space structure and materials the examples in *Modern in the Middle* reveal an abundance of astonishing houses that have never been collected into one study until now

Paradise Planned Robert A.M. Stern, David Fishman, Jacob Tilove, 2013-12-03 *Paradise Planned* is the definitive history of the development of the garden suburb a phenomenon that originated in England in the late eighteenth century was quickly adopted in the United States and northern Europe and gradually proliferated throughout the world These bucolic settings offered an ideal lifestyle typically outside the city but accessible by streetcar train and

automobile Today the principles of the garden city movement are once again in play as retrofitting the suburbs has become a central issue in planning Strategies are emerging that reflect the goals of garden suburbs in creating metropolitan communities that embrace both the intensity of the city and the tranquility of nature Paradise Planned is the comprehensive encyclopedic record of this movement a vital contribution to architectural and planning history and an essential recourse for guiding the repair of the American townscape *David Adler, Architect* David Adler, Richard Guy Wilson, Pauline C. Metcalf, Art Institute of Chicago, Kisho Kurokawa Gallery of Architecture, Ghenete Zelleke, 2002-01-01 A collection of photocopied articles published about the David Adler exhibition held at the Art Institute of Chicago December 6 2002 to May 18 2003 **Outside In** Jocelyn Gibbs, Debi Howell-Ardila, Anthony Denzer, Lilian Pfaff, Alan Hess, 2015-03-01 From 1946 to 1973 Whitney Rowland Smith and his partner Wayne Williams designed more than 800 projects from residential commercial and public buildings to housing tracts multi use complexes and parks and master plans for cities Working in the wake of the first generation of avant garde architects in Southern California and riding the postwar building boom their firm Smith and Williams developed a pragmatic modernism that through remarkable planning and design integrated landscapes with buildings and decisively shaped the modern vocabulary of architecture in Los Angeles Through a breathtaking array of images Outside In unveils the core of Smith and Williams s architectural practice Their most influential designs the authors show are compositions of balanced opposites shelter and openness private and public restraint and exuberance light and shadow Smith and Williams created spaciousness in their buildings by layering spaces and manipulating the relationship between structure and landscape This spaciousness expressed modern ideas about the relationship of architecture to environment of building to site and ultimately of outside to in *American Decades: 1990-1999* Vincent Tompkins, Judith Baughman, Victor Bondi, Richard Layman, Eric L. Barger, James F. Tidd, 1994 Examines the changes in American civilization from the beginning of the twentieth century to the present **Under Pressure** Hina Jamelle, 2021-09-29 Under Pressure is about instigation and design in urban housing Urban housing is a bellwether for economic social and political change It varies widely in quality typology and audience and lies between the formal systems of urban infrastructure and the informal systems of daily life Housing s complexity offers unique and exciting opportunities to architects Its entwinement with private equity and public agencies presents important challenges amplified by urbanization This book gathers and contextualizes relevant conversations in urban housing unfolding today across architecture through four topics Learning from History Changing Domesticities Housing Finance and Policy and Design and Material Innovation The result is a multi disciplinary amalgam of research and design intelligence from thought leaders in the fields of architecture real estate economics policy material design and finance **Affordable Housing in New York** Nicholas Dagen Bloom, Matthew Gordon Lasner, 2019-12-31 A richly illustrated history of below market housing in New York from the 1920s to today A colorful portrait of the people places and policies that have helped make New York City livable Affordable Housing in New York is a

comprehensive authoritative and richly illustrated history of the city's public and middle income housing from the 1920s to today. Plans, models, archival photos and newly commissioned portraits of buildings and tenants by sociologist and photographer David Schalliol put the efforts of the past century into context and the book also looks ahead to future prospects for below market subsidized housing. A dynamic account of an evolving city, *Affordable Housing in New York* is essential reading for understanding and advancing debates about how to enable future generations to call New York home.

Duke House and the Making of Modern New York, 2022-10-17. Featuring new archival research and previously unpublished photographs and architectural plans, this volume fundamentally revises our understanding of the development of modern New York, focusing on elite domestic architecture within the contexts of social history, urban planning, architecture, interior design and adaptive re-use. Contributions from emerging and established scholars, art historians and practitioners offer a multi-faceted analysis of major figures such as Horace Trumbauer, Julian Francis Abele, Robert Venturi and Richard Kelly. Taking the James B. Duke House, now home to NYU's Institute of Fine Arts as its point of departure, this collection provides fresh perspectives on domestic spaces, urban forms and social reforms that shaped early twentieth century New York into the modern city we know today. ***The Country Houses of John F. Staub*** Stephen Fox, 2007. This ambitious study of Staub's work by architectural historian Stephen Fox goes beyond a description of Staub's houses. Fox analyzes the roles of space, structure and decoration in creating, defining and maintaining social class structures and expectations and shows how Staub was able to incorporate these elements and understandings into the elegant buildings he designed for his clients. In the process, he contributes greatly to a fuller understanding of Houston's emergence as a premier American city.
