The Politics of Progressive Education Dennis Shirley, 1992 In March 1933 Nazi storm troopers seized control of the Odenwaldschule a small German boarding school near Heidelberg Founded in 1910 by educational reformer Paul Geheeb the Odenwaldschule was a crown jewel of the progressive education movement renowned for its emancipatory pedagogical innovations and sweeping curricular reforms In the tumultuous year that followed that fateful spring Geheeb moved from an initial effort to accommodate Nazi reforms to an active opposition to the Third Reich s transformation of the school Convinced at last that humanistic education was all but impossible under the new regime he emigrated to Switzerland in March 1934 There he opened a new school the Ecole d Humanit which became a haven for children escaping the horrors of World War II In this intimate chronicle of the collision between a progressive educator and fascist ideology during Hitler s rise to power Dennis Shirley explores how Nazi school reforms catalyzed Geheeb s alienation from the regime and galvanized his determination to close the school and leave Germany Drawing on a wealth of unpublished documents such as Geheeb s exhaustive correspondence with government officials and transcripts of combative faculty meetings Shirley is able to reconstruct in

detail the entire drama as it unfolded Others have examined the intellectual antecedents of Nazism and the regime's success at developing themes from popular culture for its political purposes Shirley goes further by analyzing the many ways in which German educators could and did respond to Nazi reforms In the process he identifies the myriad forces that led individuals to accept or resist the regime's transformation of education The Politics of Progressive Education offers a richly rewarding examination of how education in general and progressive education in particular fared in the turbulent political currents of Nazi Germany It brings to light a remarkable story hitherto untold of one individual's successful attempt to uphold humanistic values in the darkest of circumstances

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish Scott, 2015-07-23 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume II is devoted to Cultures and Power opening with chapters on philosophy science art and architecture music and the Enlightenment Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments notably the expansion of state power

International Handbook of Comparative Education Robert

Cowen, Andreas M. Kazamias, 2009-08-22 A big project like this Handbook means that you incur debts and not only to your authors and your publisher As editors we along with our colleague Elaine Unterhalter who edited the section on postcolonialism would like to thank most warmly those authors who delivered on time and who did not fuss but just got on and did a r rate job We would also like to thank all authors who did deliver which was almost everyone we asked We know that some of our authors worked in very dif cult private circumstances as they were nishing their chapters and we hope the publication of the Volumes will later be for them a happy reminder of dif culties and disasters overcome The only sad theme is that some very close colleagues with whom we were wo ing and for whom we had the greatest respect and liking became very ill and died while the volumes were being prepared We decided to ask for copyright permissions to publish something of theirs These permissions were graciously given by two major journals and with the agreement also of our publishers Springer Rolland Paulston and Terry McLaughlin have examples of their writing in this Handbook *The Christian Teacher*, 1835
