Manolis Anagnostakis Vangelis Calotychos, 2012-04-19 The book reflects on the life and work of a significant poet public figure and influential commentator of the cultural social and political history of Greece post World War II Manolis Anagnostakis 1925 2005 It considers his oeuvre in relation to the work of his peers and to traditions of writing both Greek and non Greek as it challenges the assumptions and determinations of his critics The volume explores the author's sustained reflection on what it is poetry does if anything and how it goes about this at different historical moments It does so through the framework of his political and social perspectives as well as against principles of committed action above all to leftist ideas and movements For Anagnostakis is vitally important for thinking about the relation of politics to poetics and the complex and in some quarters contradictory relation of leftist politics and the travails of euro communism to poetry and literature This analysis therefore coincides with the larger questioning of the role for the Left post 1989 The volume focuses not only on the poet's canonical poetry up to 1971 but also on the period of his subsequent self imposed silence and his other meta poetic writings after that date Two of Anagnostakis's previously unavailable late collections and a posthumously published interview with the poet appear here in English translation for the very first time Coming but a few years after the poet's death in 2005 this rare book length study of a single Greek poet other than Cavafy features articles by leading critics from the American academy Like Anagnostakis's own work these contributions represent a diverse range of approaches and voices at turns essayistic impressionistic and creative and at others scholarly punctilious and critical

Dangerous Citizens Neni Panourgíá,2009-08-25 This book simultaneously tells a story or rather stories and a history The stories are those of Greek Leftists as paradigmatic figures of abjection given that between 1929 and 1974 tens of thousands of Greek dissidents were detained and tortured in prisons places of exile and concentration camps They were sometimes held for decades in subhuman conditions of toil and deprivation The history is that of how the Greek Left was constituted by the Greek state as a zone of danger Legislation put in place in the early twentieth century postulated this zone Once the zone was created there was always the possibility which came to be a horrific reality after the Greek Civil War of 1946 to 1949 that the state would populate it with its own citizens Indeed the Greek state started to do so in 1929 by identifying ever increasing numbers of citizens as Leftists and persecuting them with means extending from indefinite detention to execution In a striking departure from conventional treatments Neni Panourgi places the Civil War in a larger historical context within ruptures that have marked Greek society for centuries She begins the story in 1929 when the Greek state set up numerous exile camps on isolated islands in the Greek archipelago The legal justification for these camps drew upon laws reaching back to 1871 originally directed at controlling brigands that allowed the death penalty for those accused and the banishment of their family members and anyone helping to conceal them She ends with the 2004 trial of the Revolutionary Organization 17 November Drawing on years of fieldwork Panourgi uses ethnographic interviews archival material unpublished personal narratives and memoirs of political prisoners and dissidents to piece together the various microhistories of a generation stories that reveal how the modern Greek citizen was created as a fraught political subject Her

book does more than give voice to feelings and experiences suppressed for decades It establishes a history for the notion of indefinite detention that appeared as a legal innovation with the Bush administration Part of its roots Panourgis shows lie in the laboratory that Greece provided for neo colonialism after the Truman Doctrine and under the Marshall Plan *Travel, Tourism, and Identity* Gabriel R. Ricci, 2017-09-29 *Travel Tourism and Identity* addresses the psychological and social adjustments that occur when people make contact with others outside their social cultural or linguistic groups Whether such contact is the result of tourism seeking exile or relocating abroad the volume's contributors demonstrate how one's identity cultural assumptions and worldview can be brought into question In some cases the traveller finds that bridging the social and cultural gap between himself and the new society is fairly easy In other cases the traveller discovers that reorienting himself requires absorbing a new cultural history and traditions The contributors argue that making these adjustments will surely enhance the traveller's or tourist's experience otherwise the traveller or tourist will be at risk of becoming a marginalized figure one disconnected from the society that surrounds him This latest volume in the Culture Civilization series features a collection of essays on travel and tourism The essays cover a range of topics from historical travels to modern social identities They discuss ancient travels contemporary travels in Europe Africa and sustainable eco tourism and the politics of tourism Essays also address experiences of Grenada's Spice Island identity and the effects of globalization and migrations on personal identity *When Greeks think about Turks* Dimitrios Theodossopoulos, 2013-09-13 Drawing upon anthropological studies that document culturally specific ways of perceiving ethnic Others in Greece and Cyprus this book explores the cultural boundaries of the categories Greek and Turk and compares views on what it means to be one of these ethnic groups or both The contributors examine the opinions of diverse social groups such as ordinary middle class citizens intellectuals army officers children villagers refugees from Asia Minor and Greek and Turkish Cypriots They also investigate the local attitudes to international politics and highlight the contextual as opposed to immutable and essentialist meaning of evaluations about nations such as Greece Turkey and Cyprus and their citizens *When Greeks think about Turks* carefully unpacks the cultural meaning of popular metaphors stereotypes and versions of history as these are articulated in the context of discussions about the Turks in Greece It sets the template for understanding how local perceptions of resemblance and difference provide a conceptual framework for defining and negotiating ethnic identity at the local national and international level It sheds valuable light on the politics of identity making and the constitution of nationalism in Greece and Cyprus This book was previously published as a special issue of *South European Society and Politics* Literature's Refuge William Stroebel, 2025-03-18 Stories silenced or sequestered by a century of mass displacement between Europe and the Middle East recovered and retold at last In 1923 the Greco Turkish Population Exchange uprooted and swapped nearly two million Christians and Muslims pacifying the so called Near East through ethnic partition and refugeehood This imposition of borders not only uprooted peoples from their place in the world it also displaced many of their stories from a place in world

literature In *Literature's Refuge* William Stroebeel recovers and weaves together work by fugitive writers oral storytellers readers copyists editors and translators dispersed by this massive unmixing of populations and the broader border logic that it set in motion Stroebeel argues that two complementary forces emerged as a template for the Eastern Mediterranean's cultural landscape the modern border which reshuffled people through a system of filters and checkpoints and modern philology which similarly reshuffled their words and works Philologists and publishers defined modern literature by picking apart extracting reformatting or dispossessing refugee and diasporic texts across a racialized borderscape a gray zone of semi inclusion and semi exclusion semimobility and immobility Stroebeel reaches into the chinks and crannies of this borderscape to reconstitute the rich textual geography between Greek Orthodoxy and Sunni Islam between Greek script Arabic script and Latin script literary traditions at the edges of Europe and the Middle East Doing so he offers a new methodological toolkit for rewriting the modern borderscapes of world literature

dismantle the stories we've been told and told ourselves in order to naturalize the forms of injustice we've come to understand as order Leslie Jamison author of *The Empathy Exams* When and how did migration become a crime Why does ancient Greece remain so important to the West's idea of itself How does nostalgia fuel the exclusion and demonization of migrants today In 2021 Lauren Markham went to Greece in search of her own Greek heritage and to cover the aftermath of a fire that burned down the largest refugee camp in Europe Almost no one had wanted the camp not activists not the country's growing neo fascist movement not even the government But almost immediately on scant evidence six young Afghan refugees were arrested for the crime Markham soon saw that she was tracing a broader narrative rooted not only in centuries of global history but also in myth A mesmerizing trailblazing synthesis of reporting history memoir and essay *A Map of Future Ruins* helps us see that the stories we tell about migration don't just explain what happened They are oracles they predict the future
