Alicia Walker, 2012-04-30 Byzantine imperial imagery is commonly perceived as a static system In contrast to this common portrayal this book draws attention to its openness and responsiveness to other artistic traditions Through a close examination of significant objects and monuments created over a 350 year period from the ninth to the thirteenth century Alicia Walker shows how the visual articulation of Byzantine imperial power not only maintained a visual vocabulary inherited from Greco Roman antiquity and the Judeo Christian tradition but also innovated on these artistic precedents by incorporating styles and forms from contemporary foreign cultures specifically the Sasanian Chinese and Islamic worlds In addition to art and architecture this book explores historical accounts and literary works as well as records of ceremonial practices thereby demonstrating how texts ritual and images operated as integrated agents of imperial power Walker offers new ways to think about cross cultural interaction in the Middle Ages and explores the diverse ways in which imperial images employed foreign elements in order to express particularly Byzantine meanings **A Companion to Byzantine Epistolography**, 2020-06-22 A Companion to Byzantine Epistolography offers the first comprehensive introduction and scholarly guide to the cultural practice and literary genre of letter writing in the Byzantine Empire **Writer and Occasion in Twelfth-Century Byzantium** Ingela Nilsson, 2020-12-17 In twelfth century Constantinople writers worked on commission for the imperial family or aristocratic patrons Texts were occasioned by specific events representing both a link between writer and patron and between literary imagination and empirical reality This is a study of how one such writer Constantine Manasses achieved that aim Manasses depicted and praised the present by drawing from the rich sources of the Graeco Roman and Biblical tradition thus earning commissions from wealthy friends during a career that spanned more than three decades While the occasional literature of writers like Manasses has sometimes been seen as empty rhetoric devoid of literary ambition this study assumes that writing on command privileges originality and encourages the challenging of conventions A society like twelfth century Byzantium in which occasional writing was central called for a strong and individual authorial presence since voice was the primary instrument for a successful career *Reading Eustathios of Thessalonike* Filippomaria Pontani, Vasileios Katsaros, Vasileios Sarris, 2017-02-20 Despite the relevance of Eustathios to both Classical and Byzantine studies no monograph and no collective volume in English has yet been devoted to his figure This book attempts to fill in this gap by addressing the various facets of his output above all his commentaries on Homer Dionysius the Periegete Pindar and the Iambic Canon on the Pentecost but also his historiographical work his speeches and his theological production receive due attention The book also tackles several aspects of Eustathios style proverbs allusions etc and the meaning of his work in the context of his historical moment Addressed at specialists but also at graduate students with an interest in the reception of Classical antiquity and in Byzantine civilisation the volume gathers papers by leading scholars from various countries and it opens up new paths of research in several areas of philology and history above all by

interweaving and juxtaposing Eustathios dimension as an Homerist and an immensely learned classical scholar with his capacities as an orator a highly praised teacher a rhetorically refined writer of Greek prose an historian of his own turbulent times and an archbishop who had to fulfil his everyday duties

Belated Modernity and Aesthetic Culture Gregory Jusdanis, 1991 How does literature function in the formation of a nation state What are its pivotal contributions to national discourse and the production of ideological collective will And ultimately how is literature institutionalized and aestheticized Belated Modernity and Aesthetic Culture Inventing National Literature addresses these questions and considers the role literature plays in the construction of a national cultural Gregory Jusdanis examines the emergence of art and literature in Western Europe in the eighteenth century and traces their introduction to Greece a stratified noncapitalist society that was hostile to Enlightenment and secularism This groundbreaking work explores the importation of national literatures into a largely non Western society and the inherent resistance they faced Arguing for the literary status of national culture at its inception Jusdanis brilliantly demonstrates that in literature the specific meanings in narratives and fiction form the process of nation building Culture history and literature he says merge in those narratives which in turn provide the imaginary mirror in which a nation reflects itself
