Guide to International Legal Research, 2009 **Current Issues in European Financial and Insolvency Law** Wolf-Georg Ringe, Louise Gullifer, Philippe Th  ry, 2009-06-02 Recent case law and legislation in European company and insolvency law have significantly furthered the integration of European business regulation In particular the case law of the European Court of Justice and the introduction of the EU Insolvency Regulation have provided the stimulus for current reforms in various jurisdictions in the fields of insolvency and financial law The UK for instance has adopted the Enterprise Act in 2002

designed inter alia to enhance enterprise and to strengthen the UK's approach to bankruptcy and corporate rescue. In a similar vein a recent reform in France has modernised French insolvency law and even introduced a tool similar to the successful English company voluntary arrangement CVA. This book provides a collection of studies by some of the leading English and French experts today analysing current perspectives of insolvency and financial law in Europe both on the national as well as on the European level. *European Perspectives on Producers' Liability* Martin Ebers, André Janssen, Olaf Meyer, 2009-10-16. A growing number of countries recognise a direct producers liability for non conforming goods. The European Commission has considered the introduction of an EU wide direct producers liability for a long time. Will there be new responsibilities for producers in the future? This book compiles national reports from 24 European countries on the sale of goods law as well as the consumer's remedies for non conforming goods and the final seller's right of redress. A comparative report informs about the different models of producers liability and their impact on the internal market. Beneficial for practitioners working in the field of consumer contract law and sale of goods law. *Ireland Business Law Handbook Volume 1 Strategic Information and Basic Laws* IBP USA, 2013-08. *Ireland Business Law Handbook Strategic Information and Basic Laws* **American Book Publishing Record**, 2006. **The British National Bibliography** Arthur James Wells, 2006. **Consumer Law and Policy** Iain Ramsay, 2012-10-25. This new edition continues to provide a critical introduction to the legal regulation of consumer markets situating it within the context of broader debates about rationales for regulation, the role of the state and the growth of neo liberalism. It draws on interdisciplinary sources assessing for example the increased influence of behavioural economics on consumer law. It analyses the Europeanisation of consumer law and the tensions between neo liberalism and the social market, consumer protection and consumer choice in the establishment of the single market ground rules. The book also assesses national, regional and international responses to the world financial crisis as reflected in the regulation of consumer credit markets. This edition incorporates recent legislative and judicial developments of the law, blending substantial extracts from primary UK, EU and international legal materials. *European Private Law - Current Status and Perspectives* Reiner Schulze, Hans Schulte-Nölke, 2011-03-30. Business law and labour law are driving forces and core areas of European private law. New concepts and approaches are thus required that are not limited to civil law and that are different from those traditionally embraced by national private law. These new challenges regarding the current status and perspectives of European private law are discussed in this volume by sixteen highly reputed researchers from across Europe. The contributions concern various areas of European private law including contract, property, company, competition and labour law. This book will be an invaluable source for all those working on European law and private law within Europe. *The Yearbook of Consumer Law 2009* Annette Nordhausen, Geraint Howells, 2016-02-17. The Yearbook of Consumer Law provides a valuable outlet for high quality scholarly work which tracks developments in the consumer law field with a domestic, regional and international dimension. The 2009 volume presents a

range of peer reviewed scholarly articles analytical in approach and focusing on specific areas of consumer law such as credit consumer redress and the impact of the European Union on consumer law The book also includes a section dedicated to significant developments during the period covered such as key legislative developments and important court decisions It is an essential resource for all academics and practitioners working in the areas of consumer law and policy EU Private Law and the CISG Zvonimir Slakoper,Ivan Tot,2021-09-30 EU Private Law and the CISG examines selected EU directives in the field of private law and their effects on the national private law systems of several EU Member States and discusses certain specific concepts of the United Nations Convention on Contracts for the International Sale of Goods CISG in light of the CISG s recent fortieth anniversary The most prominent influence of EU law on national private law systems is in the area of the law of obligations thus the book focuses on several EU private law directives that cover the issues belonging to contract and tort law as interpreted in the case law of the Court of Justice of the EU EU private law concepts need to be interpreted autonomously and uniformly rather than through the lens of national private law systems The same is true for the CISG which has not only been one of the most successful instruments of the international trade law unification but had also influenced both the EU private law and domestic laws In Part I focused on the EU private law and its effects for national laws chapters examine the recent Digital Content and Services Directive and its likely impact on the contract law of the UK and Ireland the role aggressive commercial practices play in EU banking and credit legislation the applicability of the EU private international law rules to collective redress the unfair contract terms regime of the Late Payment Directive and its transposition into Croatian law the implementation of the Commercial Agency Directive in Denmark Estonia and Germany and disgorgement of profits as remedy provided in the Trade Secrets Directive In Part II dealing with selected CISG issues chapters discuss the autonomous interpretation of CISG s concept of sale by auction and its notion of intellectual property as well as the CISG s principle of freedom of form and the possibility for reservations with the effect of its exclusion The book will be of interest to legal scholars in the field of EU private law and international trade law as well as to the students practitioners members of law reform bodies and civil servants in Europe and beyond **Contract Law and the Legislature** TT Arvind,Jenny Steele,2020-08-06 This volume revisits some of the key debates about the nature and shape of contract law in light of the impact that statutes have had on its development With contributions from leading contract law scholars it fills a significant gap in existing theoretical and doctrinal analyses of contract law which rely primarily on cases to put forward accounts of the general principles and structure of contract law Statutory rules are typically seen as being specific instances of legal regulation that carve out exceptions to these general principles for specific reasons of policy This treatment of these rules has resulted in an incomplete understanding of the nature of contract law and the principles that underpin it By drawing specifically on contract statutes the volume produces a more complete picture of modern contract law A companion to the ground breaking Tort Law and the Legislature Common Law Statute and the Dynamics of Legal Change Hart

Publishing 2012 this collection will have a significant impact on the study of contract law The Yearbook of Consumer Law 2008 Mrs Deborah Parry, Ms Annette Nordhausen, Professor Geraint Howells, Dr Christian Twigg-Flesner, 2013-02-28 The Yearbook of Consumer Law provides a valuable outlet for high quality scholarly work which tracks developments in the consumer law field with a domestic regional and international dimension Furthermore it provides an essential resource for all those academic and practitioner working in the areas of consumer law and policy **Landmark Cases in Consumer Law** Jodi Gardner, Iain Ramsay, 2024-01-11 This book analyses the history of the common law foundations of consumer law and encourages readers to rethink the role that consumer law plays in our society Consumer law is often constructed as purely statute based law However as this collection will demonstrate this is far from the truth Much of the history of the common law concerns consumer transactions and markets Case law has often established or modified the ground rules of consumer markets has had a patterning effect on the economic organisation of markets and has expressed cultural visions of the market and consumers An analysis of landmark cases of consumer law allows many traditional cases to be viewed through a new and distinct lens providing significant academic and intellectual value The collection also includes a unique socio legal perspective considering the role that consumer law has played in addressing racial discrimination LGBTQ challenges and the rights of women This collection of landmark cases demonstrates the theoretical and practical significance of consumer law through a wide range of contributions by distinguished authors from the United Kingdom Europe the United States and Australia European Consumer Protection James Devenney, Mel Kenny, 2012-04-05 This volume analyses the theory and practice of European consumer protection in the context of consolidation initiatives seen inter alia in the revision of the Consumer Acquis the Draft Common Frame of Reference and the proposal for an EU Consumer Rights Directive The issues addressed are all the more significant given the revisions to the proposed Directive the appointment of an Expert Group on a Common Frame of Reference and the Commission's 2010 Green Paper on progress towards a European Contract Law The contributions to this volume point to the arrival of a contested moment in EU consumer protection questioning the arrival of the empowered consumer and uncovering the fault lines between consumer protection and other goals What emerges is a model of poly contextual EU consumer protection law a model that challenges the assumptions in both the 2010 Green Paper and the revised proposed Consumer Rights Directive
